THE INDIAN LAW REPORTS.
PUBLISHED UNDER AUTHORITY.
The Indian Law Reports, published under the authority of the
Governor-General in Council, appear in monthly parts, pub- lished as soon as possible alter the first of each month, at Cal-
cutta, Madras, Bombay, and Allahabad, and comprise four
meries, -one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and
a fourth for the Allahabad High Court. The cases heard by
the Privy Council on appeal from each High Court are
reported in the series for that High Court. Cases heard by
ject to any High Court are reported in the Calcutta Series.
The Calcutta Series is distributed by the Bengal Secretariat, and the Madras, Bombay and Allahabad Series are distributed
direct from Madras, Bombay, and Allahahad, respectively.
In supersession of the previous advertisements, on and from the

TRANSMISSION OF MARRIAGE RETURNS BY REGISTRARS APPOINTED UNDER ACTS III. OF 1872 AND XV. OF 1865 TO REGISTRARS GENERAL OF BIRTHS, DEATHS AND MARRIAGES UNDER ACT VI. OF 1886.

No. $\frac{6}{1074-85}$

Extract from the Proceedings of the Government of India in the Home Department (Judicial),—under date Simla, the 9th August, 1889.

Read-

The undermentioned letters on the subject of the transmission of Marriage Returns by Registrars appointed under Acts III. of 1872 and XV. of 1865 to Registrars General of Births, Deaths and Marriages under Act VI. of 1886:

From the Government of Bombay, No. 2502, dated 27th June 1889.

From the Government of the Punjab, No. 165S., dated 1st July 1889.

RESOLUTION.

In exercise of the powers conferred by section 13A. of Act III. of 1872 (to provide a form of marriage in certain cases), and section 8A. of the Parsi Marriage and Divorce Act, 1865, the Governor-General in Council is pleased to issue the following orders.

Copies of entries in the Marriage Certificate Book prescribed in section 13 of Act III. of 1872 and in the Register of Marriages referred to in section 6 of the

* Except the Registrar appointed by the Chief Justice of the High Court of Judicature at Bombay under Act XV. of 1865.

Parsi Marriage and Divorce Act, 1865, which Registrars* under these Acts are required to send to the Registrars General.

of Births, Deaths and Marriages appointed under the Births, Deaths and Marriages Registration Act, 1886, shall be certified in the form set forth in the following schedule, and shall be sent at intervals of three months, on or as nearly as possible after the 1st January, April, July, and October in each year.

Should no entries be made in a Marriage Certificate Book, or a Register of Marriages, as the case may be, during the preceding three months, a certificate to this effect shall be sent to the Registrar General concerned.

Schedule.

Form of Certificate of truth of copies of entries in Marriage Cerujuate Book under Act III. of 1872 [or Register of Marriages under the Parsi Marriage and Divorce Act, 1665, as the case may be] to be sent to Registrar General.

Certified that the above, which contains entries from No. regarding to No. regarding , is a true copy of all the entries in the Marriage Certificate Book under Act III. of 1872 (or Register of Marriages under Act XV. of 1865, as the case may be) kept by me for the three months ending the day of 18

Dated the of

(Signature.)

Registrar of Marriages under Act III. of 1872 (or Registrar under the Parsi Marriage and Divorce Act, 1865, ass the case may be) for (local area).

ORDER.—Ordered, that the above Resolution be communicated to Local Governments and Administrations, and to the Foreign Department.

Ordered also, that it be published in the Supplement to the Gazette of India.

[True Extract.]

A. P. MACDONNELL,

Secretary to the Government of India.

REVENUE AND AGRICULTURAL DEPARTMENT.

Weather Review of India for the week ending at 8 a.m. on Monday, August 5th, 1889.

The quiet undisturbed weather which prevailed during last week has continued during the week under review. The monsoon on both sides of India has been moderate in force, and except quite at the close of the week there has been no storm in any part of the Indian region. Owing to this and to the absence of any exceptional strength in the monsoon currents, the rainfall, though fairly steady and continuous, has been generally moderate or light. In North-Western India, including the Punjab, Rajputana, and Sind, there has been a break in the rains during the greater part of the week.

The chart of the 30th July exhibited normal monsoon conditions, except that a very slight depression existed in the neighbourhood of Allahabad. Gradients were somewhat slighter than is ordinarily the case, so that, though winds from the usual monsoon directions prevailed in most parts of India, in the south of the Peninsula calms and variable breezes were reported. On the morning of the 31st a well marked depression was shown over Sind, while that reported from Allahabad on the previous day had disappeared. These were the only important changes in pressure. Gradients had become somewhat steep over Sind and Guzerat, and the monsoon in that part of India was blowing freshly. Elsewhere the winds were moderate generally, but in the south of the Peninsula and over the Gangetic plain light variable breezes prevailed. The chart of the 1st showed that the depression over Sind had largely filled up, and that considering the time of year, pressure was generally uniform and the winds light in force. On the 2nd, owing to a general barometric fall in the North and a rise in the South, gradients had increased. Monsoon winds of normal direction and force consequently again prevailed over the greater part of India, the only exception being in the Gangetic plain, where variable airs and calms were still reported. The reports of the 3rd showed a further fall of pressure over Northern and Central India, and a further rise in the south of the Peninsula. Depressions had formed over the Indus Valley and over Bengal, and a difference of over fourtenths of an inch of pressure existed between these regions and the south of On the 4th there was very little change, except that the barometric fall had extended to the south of the Peninsula, and that a slight recovery had commenced in North Bengal and Assam. On the 5th the observations showed that a small shallow storm had formed over the head of the Bay. Otherwise there had been little change.

Throughout the whole of the past week the distribution of pressure over Northern India has, notwithstanding daily oscillations, exhibited one constant characteristic, viz., low pressures over the Indus Valley and over Bengal, with an intervening shoulder of higher pressure over Rajputana, the east of the Punjab, and the west of the North-Western Provinces. This shoulder of high pressure appears to act as a barrier to the free extension of the monsoon currents into Upper India, and hence the region lying to the west or north-west of it experiences deficient rainfall.

Temperature has been high for the time of year over nearly the whole of India. Over Burma, Bengal, Bombay, the central parts of the country, Guzerat, Sind, and Rajputana the average mean temperature has exceeded the normal on all days; but in the Punjab, the North-Western Provinces, and Madras the mean temperature has been subject to considerable fluctuations from day to day. On the last day of the week the temperature exceeded the normal in all Provinces. The maxima in North-Western India have undergone large fluctuations during the week; but at the close they were generally largely above the average, a reading of 1098° being reported from Jacobabad, of 1075° from Dera Ismail Khan, and of 106° from Multan and Peshawar.

The following table shows the excess or defect of the mean average temperature of the different Provinces for the present and for the preceding week:

Pac		٤.						Difference of Mean Temperature of Last Week from Normal.	Difference of Mean Temperature of Present Week from Normal
Burmah	•			•	•		•	+ 0.7°	+ 1.20
Bengal		•	•		•	•		O. I.o.	+ 0.0
North-West	ern Pr	ovino	es	•	•		•	+ o.3 _o	1.3 _o
Punjab			•					+ 3.1°	+ 0.40
Bombay				•		•		+ 1.3°	+ 1.80
Central Pro	vinces	and	Berar			•		+ 2.20	+ 1.80
Guzerat and	i Centr	al In	dia					+ 1.4°	+ 1·7°
Sind and Ra	ajputan	ıa		•				+ 1.0°	+ 2.9°
Madras	· ·	•	•		•	•		— o.i.	0'2°

This table shows that temperature relatively to the normal average has decreased considerably in the Punjab and North-Western Provinces and slightly in the Central Provinces and Berar, and that elsewhere it has risen or remained stationary.

Rain.—There has again been a partial break in the rains over a large part of North-Western India, including Sind, the west of Rajputana, and the greater part of the Punjab. This region has throughout the week been to the westward and north-westward of the shoulder of high pressure noticed in a preceding section, and the deficient rainfall of this region is probably due to its position with respect to this shoulder and to the direction of rain bearing winds.

The following is a brief description of the daily distribution of rainfall. On the 30th there was no rainfall reported in Sind, Guzerat, or the greater part of Rajputana and of the Punjab (except the hills), but there was general, though generally light, rain elsewhere. On the 31st the distribution was the same, except that there was more rain both in Rajputana and in the Punjab, a fair fall having taken place all along the line of the hills in the Punjab. On the 1st (when the monsoon was very light) the rain bearing current retreated again from the Punjab and Rajputana, and in addition there was no rain in the Decean or the North Konkan, but elsewhere there were small amounts. On the 2nd there was general rain, except in the Punjab, Western Rajputana, and Sind. This distribution continued on the 3rd, and in a modified degree on the 4th and 5th; but on the two later dates there was no rain on the East Coast or in Rajputana.

The table at the close of the Summary shows that on the whole the rainfall of the week has been deficient. Only at twenty-one out of the fifty-one districts reporting does the week's fall exceed the average, and in most of these the excess is very small. The most general excess is reported from Behar, the North-Western Provinces, and Madras, in all of which regions the majority of places have received more than the normal amount. In Burma, with the exception of Tenasserim, and in Bengal and Assam, with the exception of the Brahmaputra, Bengal North, and the Behar divisions, all divisions report a deficiency. In the North-Western Provinces, on the contrary, Oudh South and North-Western Provinces Central are the only divisions where the rainfall is short; but in the Punjab the amounts are everywhere below the normal. In the West Coast districts Madras (South Central) and Mysore exhibit an excess; all the remainder, a deficiency. The centre and east of the Central Provinces, the east of Central India, and the cast of Rajputana have had, like the North-Western Provinces, more than the usual amount of rain, but all the other central districts, as well as Sind, Kattiawar, and Guzerat, have had less. On the East Coast as mentioned above the rainfall has been heavy.

The maximum amounts were again generally unimportant. In Burma no station received more than 12 inches during the week, and in the greater part of Bengal the falls were much smaller. Cherrapunji registered only 14 inches, and the sole heavy fall in that part of India was 21½ inches at the station of Falacutta in the Jalpaiguri district. Throughout Behar and the greater part of the North-Western Provinces there were no exceptional falls, but in the submontane district the majority of districts report falls of between 10 and 13 inches. In the Punjab the only moderately heavy fall was 9 9 inches at Kangra. There is nothing of importance in the records of the West Coast districts or in those of the central districts of the Peninsula and of India. Fair falls are reported from all parts of the East Coast from Ganjam in the north to Madura in the south,

W. L. DALLAS,

Assistant Meteorological Reporter to the Government of India.

E. C. BUCK,
Secretary to the Government of India.

SIMLA, 8th August, 1889.

REVENUE AND AGRICULTURAL DEPARTMENT.

Weekly Report on the State of the Season and Prospects of the Crops.

Madras.—For week ending 3rd August.—Rainfall general; good in most districts. Crops generally good, but withering in parts of Tinnevelly and Coimbatore; damaged by excessive rain in Vizagapatam and Godavari; affected by insects in Coimbatore and South Canara Water supply insufficient in parts of Chingleput, Tinnevelly, Salem, and Coimbatore. Prices rising in five districts, falling in seven, and stationary in others. Labourers employed on last day of week,—on Rushikulya works, 3,117; Gopalpore Canal, 1,382; Ghat Roads, 1,196: drinking-water tanks and wells, 1,801; minor irrigation and other works, 3,727. Number on village relief on 27th July, 70,184; fed in kitchens, 9,318. Imports during week by sea and land, 695 tons. General prospects favourable and greatly improved in Ganjam.

Bombay.—For week ending 7th August.—Rain during week general; more required in Nasik and parts of Guzerat. Khandesh, Poona, Ahmednagar, Satara, Bijapur, Belgaum, and Dharwar. Young crops withering for want of moisture in parts of Nasik, Poona, and Ahmednagar and damaged by floods and crabs in parts of Karachi; standing crops otherwise good, except in three talukas of Khandesh. Sowing and transplantation progressing in several districts. Preparations for late crops commenced in Sholapur, Bij pur, and Dharwar. Fodder and drinking water scarce in parts of Nasik, Ahmednagar, and Dharwar. Prices rising in one taluka of Nasik.

Bengal.—For week ending 6th Angust.—General rain fell during the week, but the fall in many districts was light and scanty. Transplanting of winter rice is proceeding, but more rain is wanted in almost all parts of the Burdwan division, in places in the Presidency division, and also in the Balasore and Hazaribagh districts. Early rice, jute, sugarcane, and bhadoi crops are generally doing well. In North Behar the bhadoi and winter rice crops have suffered from excessive rain and floods; the loss of the bhadoi in the Chumparun district is considerable. In North and East Bengal the harvesting of early rice and jute is progressing. Foodstocks are everywhere sufficient. In the afflicted area in the Patna and Bhagalpur divisions the price of common rice is 10 seers per rupce at Madhubani and Motihari and 10\sqrt{5} seers at Sitamarhi. No relief works in Muzaffarpur and Chumparun. 272 persons employed on two relief works in the north of Bhagalpur. Persons receiving charitable relief are 4,800 in Muzaffarpur, 288 in Chumparun, and 129 in the Contai subdivision of Midnapur.

North-Western Provinces and Oudh.—For week ending 7th August.— The weather continues favourable, and the kharif crops are doing well. Markets are fully stocked, and prices are mostly stationary; but a fall is reported from a few districts. Fodder for cattle is abundant.

Punjab.—For week ending 7th August.—Partial rain in most districts. Prices rising in Rawalpindi and Shahpur, and stationary elsewhere. Ploughing for kharif crops are nearly over; sowings still in progress. Standing crops are flourishing and are in good condition. The standing crops at Hissar and Peshawar have suffered for want of rain. It is reported from Hissar that there is much fear of an almost complete failure of kharif. More rain wanted in almost all parts of the Province. Stock cattle are reported healthy, except in four villages of Sialkot tahsil. Fodder sufficient, except in Hissar.

Central Provinces.—For week ending 7th August.—Weather seasonable. Good rain in most districts; more rain is wanted in Nimar and in parts of

Jubbulpore and Bilaspur. Kharif crops in good condition. Prospects favourable. Fodder sufficient.

Burma.—For week ending 3rd August.—In Lower Burma the rainfall during the week was under 2 inches in Rangoon, Tharrawaddy, Toungoo, and Mergui and under 1 inch in Prome and Thayetmyo. Elsewhere there was heavy rain. Ploughing is backward, and the early crops are suffering from want of rain in Prome, Tharrawaddy, and Toungoo; elsewhere in Lower Burma the crop promises well. In Upper Burma heavy rain fell during the week in Mandalay, Bhamo, and Ruby Mines; fair in Shwebo, Yeu, Sagaing, and Myingyan districts; elsewhere but little rain fell. Rain is urgently wanted in Kyaukse and Minbu and to a less extent in Shwebo. Ploughing and sowing for the wet weather crops in Upper Burma are generally progressing favourably. The price of paddy, owing to heavy demands from Singapore, has risen 5 per cent. in Rangoon. Prices in other districts have risen as follows:—Pegu 10 per cent., Tharrawaddy 11 per cent., Toungoo 5 pr cent., and Minbu 5 per cent. In the other districts there have been little or no fluctuations.

Assam.—For week ending 7th August.—Weather scasonable. Rainfall light. Harvesting of summer rice and transplanting of winter rice continue. Some damage has been done to crops in Nowgong and Sibsagar districts by floods.

Mysore and Coorg.—For week ending 7th August.—Good rainfall in the Civil and Military station of Bangalore and in the Bangalore district. Rainfall more or less throughout the State. Standing crops good, except in parts of the Mysore district, where more rain is wanted. Harvesting of paddy continues in parts. Outturn fair. No material change in prices.

Heavy rain in Coorg since 5th. Health improved.

Berar and Hyderabad.—For week ending 7th August —Average rainfall fair in Berar. Weeding of cotton and jowari in progress. Kharif crops in good condition. Agricultural stock good. Fodder sufficient. Prices stationary.

Rainfall fair during the week in Hyderabad. Kharif and abi crops prospering. Water in tanks insufficient. Prices stationary.

Central India.—For week ending 7th August.—Good rain throughout Central India during the week. Heavy falls in Gwalior, Bundelkhand, and Goona. Prospects appear good throughout, especially in Goona, where condition of standing crops has improved. Condition of agricultural stock in Bhopal is reported as indifferent this week.

Rajputana.—For week ending 7th August.—Rainfall slight in Sirohi and Marwar, heavy in Deoli, and moderate elsewhere. Agricultural operations satisfactory. Standing crops want rain in Marwar and Sirohi. Agricultural stock good. Pasturage or fodder insufficient in parts of Marwar and Ulwar. Prices rising slightly in Marwar and Ajmere.

Nepal.—For week ending 1st August.—Beneficial rain fell. Autumn and winter rice progressing. Prospects of Indian corn good.

E. C. BUCK, Secretary to the Government of India.

PUBLIC WORKS DEPARTMENT.

RAILWAY TRAFFIC.

ADMINISTRATION REPORT ON INDIAN RAILWAYS FOR 1888.

No. 381 R.T., dated Simla, 5th August, 1889.

RESOLUTION-By the Government of India, Public Works Department.

Read-

Letter No. 68 (Statistical) of the 29th May 1889, from the Director General of Railways, submitting the Administration Report on the Railways in India for the year 1888, Part I.

OBSERVATIONS.—The Annual Administration Report for 1888 has been submitted by the Director General of Railways with punctuality, and is in improved form in many details. The distribution of the several chapters has been rearranged, and the first chapter of the Report furnishes an interesting and useful summary of the principal results of the year's working.

- 2. The transfer to the State of the Oudh and Rohilkhand Company's undertaking on the 1st January 1889; the Railway Conference which was held at Simla in September 1888; and the completion during the year of the "Lansdowne" bridge over the Indus at Sukkur, with its format opening on 27th March 1889, are referred to as being the principal events. The tunnel through the Khwaja-Amran mountains, commenced in 1887, was vigorensly pushed on during the year, the length hored to the 31st March 1889 heing 7,373 feet out of a total of 12,400.
 - 3. The main facts related in Chapter I. of the Report may for general Abstract of statistical results. convenience be briefly recapitulated thus:

During the twelve months ending 31st March 1889 there were opened for public traffic 886 miles of railway, as compared with 988 miles opened during 1887-88; the total open mileage at the end of 1888-89 was 15,245 miles.

The Capital expended upon Railways directly by the State to end of the calendar year 1888 was Rs. 1,12,01,06,776, against Rs. 1,09,47,54,468 at the end of the calendar year 1887; while that expended by Companies for these two periods was respectively Rs. 80,69,19,877 and Rs. 79,70,90,168.

This does not include expenditure in Native States, which was Rs. 5,08,75,527 and Rs. 6,23,65,740, respectively, to end of 1887 and 1888.

The gross carnings on all Railways during 1888, inclusive of Steam-boat services, amounted to Rs. 19,76,44,749, against Rs. 18,46,47,937 during 1887.

During 1888 the number of passengers carried was 103,156,013, the coaching earnings being Rs. 6,43,50,321, and the passenger mileage 4.349,054,980; while during 1887, 96,289,324 passengers were carried, with coaching earnings of Rs. 6,02,83,498 and passenger mileage of 4,089,914,830.

The aggregate tonnage of goods, material, and live stock carried during 1888 was 22,393,202 tons, which carned Rs. 12,70,03,904, the ton-mileage being 3,570,997,334. In 1887 the totals were 20,195,677 tons, with an earning of Rs. 11,92,70,989 and a ton-mileage of 3,195,563,738.

The total working expenses amounted in 1888 to Rs. 9,87,43,474, or 49.96 per cent. of the gross earnings, as compared with Rs. 9,15,68,849, or

49.59 per cent. in 1887, the distribution under the several Departmental heads of expenditure being as under—

			1888.		1887.	
Maintenance	•••	•••	14.12 p	er cent.	13.79 pe	er cent.
Locomotive	•••	•••	16.15	"	15.80	22
Carriage and W	agon		4.35	"	4.50	,,
Traffic	•••	•••	7.98	,,	8-11	"
General	•••		5 ·2 6	,,	5.48	"

	177		40.00		40.40	"
	Total		49.96	3)	49.59	12
			السائنة الثانة			

The net carnings realised during 1888 were Rs. 9,89,01,275 against Rs. 9,30,79,088 in 1887, giving a return on the Capital expenditure on open lines, including Steam-boat services and Suspense accounts, of 5·12 per cent., against 5·09 per cent. in the previous year.

4. The financial results of the working of the year 1887-88 are given in paragraph 13 of Chapter I. of the Report, and show a net loss of Rs. 1,97,51,770. The year Financial results of Railway working. 1887-88 was a peculiarly unfavourable year; and as the figures for the calendar year 1888 are given in pages 86-89 of the Report, and though liable to some small alteration, are approximately correct, it will be useful to show what the results of Railway working for that year were. And here it must be remarked that the proper way of treating this subject is a matter of some complexity. The statistical results of Railway working are one thing; the financial results to the State are another. In the former the payments made to Companies for surplus profits and the share of profits paid on leased lines to the lessees, are excluded; in the latter they are included. Again, the Capital outlay on a Railway is one thing; the actual cost to the State when it has bought that Railway at 25 per cent. premium, as in the case of the East Indian Railway, or at 50 per cent. premium, as in the case of the Eastern Bengal Railway, is another thing, The following table shows the Capital expended on construction up to the 31st December 1888, the interest in rupees (sterling being converted at standard rates of exchange, not at contract rates in the case of Guaranteed Railways), the actual net carnings, as well as that portion of the net earnings which passed into the Government Treasury:

	East Indian.	State Commer-	State Military.	State lines leased to Companies.	Guaranteed Railways.	Total.
Capital outlay to list	Rs.	Rs	Rs.	R-,	Rs.	Rs.
December 1888	39,33,63,060	35,02,81,031	30,54,63,485	22,64,16,715	62,33,28,324	1,98,88,52,618
Interest for the year	2,60,16,053	1,51,42,187	1,91,87,394	88,03,392	3,96,83,855	10,58,32,881
Net earnings	3,00,27,370	1.85,32,091	82,82,706	19.18,121	3,71,08,236	9,58,68,524
Surplus or deficit	40,11,317	33,89,901	1,09,04.688	-68,85,271	-27,75,619	-1,29,64,357
Percentage of net carnings on Capital	7-63	5:20	2·1	0.85	5.95	4:82
Net receipts of the State	2,92,86,543	1.78,82,276	80,05,617	19,91,402	3,14,13,238	8,85,79,076
Surplus or deficit	32,70,490	27,40,059	-1.11,81,777	68,11,990	-82,70,617	-2,02,53,805
Percentage of net State receipts on Capital	7:44	5·1	2:02	0.88	5·04 	4:45

^{5.} The net carnings of the Railways were less than the interest which had to be paid on them by 130 lakhs of rupees. Of this sum, 69 lakhs accrued on the "State Railways leased to Companies," which are only partially open and far from their

full working power. The rest of the deficit is due to the Military Railways and to the loss on the Guaranteed lines, which have to earn nearly 6½ per cent., in order that enough gold may be purchased to pay the guaranteed interest in sterling in England. It will be observed that the total interest of the year amounts to nearly 5.5 per cent. on the Capital outlay. This is accounted for partly by the high rate on the Guaranteed lines, partly by the purchase of three of the old Guaranteed lines at a considerable premium, and partly by the fact that the figure shown as interest contains about 25 lakhs of rupees, which really are a sinking fund towards the extinction of the Capital debt raised to purchase those three lines. The cardinal fact to be noticed is that, after all deductions made, the Railways earned 4.82 per cent. on their Capital, of which the State received 4.45 per cent.; so that had the whole debt been raised at 4 per cent., which is the rate at which the Government can now borrow in silver in India, there would have been a profit of about 89 lakhs of rupees received in the Treasury. That this profit was turned into a loss of 202 lakhs of rupees is due to the fact that in past years the credit of the State was not so good, and it was forced to borrow at higher rates, in gold instead of silver, and through Guaranteed Companies, instead of coming directly on the market.

6. The main results in gross earnings and working expenses on all Rail-Comparative figures of five years. ways for the last five years are compared in the following table:

		[-		,	7
		3884.	1885.	1886.	1857.	1888.

^{7.} The gross earnings from all sources show steady improvement between

Growth of gross earnings.

1884 and 1886. The falling off in 1887 may be attributed to a deficient wheat crop in the spring of that year and to failure in the cotton crop of 1886. The total weight of goods lifted during 1887 was greater than the previous year, but the ton-mileage was less, the increased tonnage being principally over the Eastern

Bengal and Southern Mahratta lines, with a comparatively short lead; while there was a decrease in the tonnage lifted on the North Western and the Rajputana-Malwa Railways. This decrease in the ton-mileage appreciably affected the earnings. The gross earnings in 1888 show improvement as contrasted with 1857, consequent upon more favourable harvests and larger demands from England for wheat supplies; but they do not compare favourably with the figures for the years 1884-85-86, when the additional mean mileage worked is considered, the results being lower in earnings per mean mile in 1888 than those of any of the three years last named. This may partly be accounted for by the reduced earnings in carriage of construction material due to completion of several lines, and partly by the fact that extension of Railways seems, for the time at least, to have overtaken expansion of traffic.

8. Under Working expenses, the cost per mean mile worked shows unfavourably in comparison with 1887. The mean mileage worked was increased by 6.25 per cent., while the Maintenance expenses increased by 9.61, the Locomotive expenses by 9:34, and Steam-hoat, Special, and Miscellaneous expenditure by 17:50 per cent. Apart from the Growth of working expenses. increased ordinary outlay due to more extended mileage, these high percentages of increase in Departmental working may be explained (a) under "Maintenance" by heavy reaewals in permanent way on the East Indian, the Bombay, Baroda and Central India, the North Western, and the Southern Mahratta Railways; (b) under "Locomotive" by renewals and replacement of locomotive engines on the East Indian, the Great Indian Peninsula, and North Western Railways; by increased train-mileage worked over the Great Indian Peninsula, the Bombay, Baroda and Central India, and the Rajputana-Malwa Railways, and by the higher cost of fuel upon those Railways which drew supplies from England; and (c) under "Stemm-boat and Special and Miscellaneous" by heavy repairs to steamers and replacement of barges for the river traffic on the Eastern Bengal Railway, and by provision made by the Ondh and Robitkhand Railway for claims anadjusted and disputed at the end of the year, and for bonns to the Company's staff.

9. The gross carnings per mile of Railway per week (excluding Steamboat) in five-yearly periods from the commence-ment up to the year 1885 me given in the following Earnings per mile per week. table, the lines being arranged in the order of their intake in 1888:

20. The figures in the various tables are for the most part the spirit in which studistics should be bare results of the working as shown in the published Revenue Accounts of the various lines. When contrasting the results, the Government of India is fully aware how much the varying conditions under which the traffic is worked on the different lines affect these results. The amount of the earnings per mile per week; the want of balance in the up and down traffic; the fluctuations in the amount of traffic at different periods of the year; the gradients; the price of fuel—all these, together with other varying local conditions, greatly influence the results of the working and may account for the divergences shown.

21. The quantity of merchandise carried was 17,937,610 tons, or about 8 per Nature of goods traffic.

Cent. more than in 1887, and the freight received aggregated Rs. 12,24,52,343, being more by about 7 per cent. Of this increase, consignments of "Railway plant and rolling stock" contributed 30 per cent. in weight and 18 per cent. in receipts, and the grain traffic contributed 15 per cent. in weight and 40 per cent. in carnings, "Oil seeds" giving 11 per cent. in weight and 16 per cent. in receipts. There was also an increase in the coal and jute consignments both in the quantity carried and in the receipts.

A falling off occurred under "Metals" of 13 per cent, in weight and 19 per cent, in receipts, and under "Raw cotton" of 14 per cent, in weight and 17 per cent, in earnings, compared with 1887.

22. The following table shows the average distance over which a ton of goods and a passenger was carried on some of the principal Railways:

24. The number of persons of all races employed on open lines during 1888 was 243,585, against 225,047 in 1887. The distribution is shown in the following table:

		Number o	e Employés.	· · ·		
YEAR ENDING	Kuro- peans.	last Indians.	Natives.	Total.	Number of miles open,	Number of stations.
31st December 1887 31st December 1885	4,684 4,674	5,0 7 7 5,601	215,286 233,307	225,047 243,585	14,065	1,95 8

The Native Staff represented 95.78 per cent. of the entire body of Railway employés. The percentage of increase in the total number employed was 8.24. The length of additional open mileage gives a percentage of 2.82, and the additional stations open a percentage of 5.43. Under the head of Europeans,

there was a decrease of 0.21 per cent.; under East Indians an increase of 10.38 per cent.; and under Natives an increase of 8.37 per cent.

25. The total number of persons killed and injured during the year 1888 was 1,334, as compared with 1,121 during 1887. Number of accidents. The number killed was 482, as against 429. these, 41 were killed from causes beyond their own control, 193 from their own want of caution, 12 at level crossings, 219 while trespassing and by suicide, and 17 from miscellaneous causes.

The number of accidents to trains increased from 2,844 in 1887 to 3,252 in 1888, or by about 143 per cent. The number of train accidents per 1,000 train-miles was 0.06, which is the same number as in 1887. There were two passengers killed from causes beyond their own control, being an average of one per 517 millions of passengers traveiling; and 26 passengers injured, being an average of one per four millions, or an average of one casualty for 1553 millions of miles travelled.

RESOLUTION.—The thanks of the Government of India are due to Lieutenant-Colonel Conway-Gordon, R.E., C.I.E., Director General of Railways, for the zeal and ability with which he conducted the duties of his office throughout the year under review.

The Governments of Madras, Rombay, Bengal, the North-Western Provinces and Oudh, and the Punjab.

The Chief Commissioners of the Central Provinces, Burma, and Assum. The Residents at Hyderalsal and Mysore.
The Agents to the Governor General for Central In ha, Rajputana, and Baluchistan.

The Accountant General, Public Works Department.
The Director General of Railways.
The Consulting Engineers to the Government of India for Railways,
Calentin, Lucknow, and Central Division.

Ordered, that this Resolution be communicated, for information, to the Local Governments, Administrations, and Officers noted in the margin.

Ordered also, that this Resolution be published in the Supplement to the Gazette of India.

TREASURE TROVE.

NOTICE.

Notice is hereby given under Section 5 of the Indian Treasure Trove Act, VI of 1878, that on or about 8th June, 1889, treasure consisting of ninety-two gold coins, each weighing three gujas and of the approximate value of R54, was found by persons mentioned below in Revision Survey No. 137 in the village of Hulipalli of the Ranibenur Taluka, in the Dharwar District, Bombay Presidency:—

Raosaheb Raghvendra.
Govind Rayadurg, Acting Mamlatdar.
Sawantrawa, daughter of Basanna Bangar.
Hanmanganda bin Balanganda.
Sannatamapa bin Anvirapa Angade.
Halwa kom Subya.
Bharamaka kom Fakira Aladkatti.
Advepa bin Kallapa Pujari.
Irapa bin Chaubasapa.
Nilawa kom Bharmapa.
Kanna bin Bharmanna.
Chika bin Chaubasapa Pomankatti.
Basapa bin Ningapa Benner.
Avaya bin Gonepa.

All persons claiming the said treasure, or any part thereof, are hereby required to appear, personally or by agent, before the Collector of Dharwar, at his office, on the 10th December, 1889, in order that the matter may be enquired into and determined in accordance with the provisions of the Act.

(Name illegible.)

Gollector of Dharwar.

Camp Dharwar, The 30th July, 1889.

NOTICE.

In accordance with the provisions of Section 5 of Act VI of 1878, notice is hereby given to those whom it may concern, that in the month of January, 1889, certain treasure consisting of gold as detailed below:—

No.	Name of Article.	value.
8	Hones (दीन)	
1	Gold ring (सीबाचें बेडें)	
I	A necklace of seven gold putha- lias (सात प्रतक्षाचि नाटलें)	
16	Loose gold puthalias (सीमाचा पुतकसा) • • •	
2	Pieces of gold (सीन्याचे तुबारे दीन)	1441
1	Nose-ring of false pearls (खीटवा मीठवाची नव)	
4	Ear-rings of gold सीनाचे नाके चार)	į
1	A necklace of nine gold putha- lias (नज पुरावयाचि गाउलें)	

of the aggregate value of R441-2, was found buried under the ground in an enclosure owned by Paramchand Abachand Guzar and others residing in Raviwarpeit in the town of Karad, in the Satara District.

All persons claiming the said treasure or any part thereof are hereby required to appear before the Mamledar of Karad, at Karad, on the 10th of December, 1889, when the Mamledar will proceed to hold an enquiry in accordance with the provisions of Section 7 of the Treasure Trove Act, VI of 1878.

ALFRED KEYSER,

Collector of Satara.

Satara, The 30th July, 1889.

NOTICE.

It is hereby notified under Section 5 of Act VI of 1878, that on or about the 23rd March, 1889, treasure consisting of the undermentioned articles, valued at R20-8, was found under ground in Paimash No. 188, measured as Poramboke, in the village of Oochutti, in Mayavaram Taluk, Tanjore District:—

						H	4.	P.	
ı	Venugopalasami	•	-1	•	•	14	8	O	
ĭ	Venugopalasami	goddess	•	•		6	O	O	
					-		-		
			Tor	'A L	•	20	8	0	

All persons claiming the said treasure, or part thereof, are hereby required to appear personally or by agent before the Collector of Tanjore, at his office, on the 21st January, 1890, in view to the matter being enquired into and determined according to law.

E. GIBSON, Collector of Tanjore.

CAMP TRANQUEBAR,
The 31st Fuly, 1889.

NOTICE.

It is hereby notified, under Section 5 of the Indian Treasure Trove Act, VI of 1878, that on or about the 20th April, 1889, the undermentioned articles, valued in the aggregate at R100, were found by Parai Suppan, son of Kasamadan and Parai Karuppan, son of Suppan, buried in a wet field, No. 140-C., belonging to one Kup-pasawmy lyer of Brahmadisam village in Ambasamudram Taluq, Tinnevelly District, in the Presidency of Madras:-

Approximate value. R s. p.

part thereof are hereby required to appear personally or by duly authorized agent before the Collector of Tinnevelly, at his office at Tinnevelly, on the 8th day of January, 1890, in order to the matter being enquired into and deter-mined in accordance with the provisions of the

F. A. NICHOLSON. Acting Collector of Tinnevelly.

CEMETERY NOTICE.

Notice is hereby given that the tombs of the persons named below, in the Civil Lines Cemetery of Agra, are nearly in a ruinous condition; and unless some friends of the deceased undertake the restoration of the tombs, the procedure prescribed in the Standing Orders of Government will be carried out.

List of tombs, &c., in a dilapidated state in the Civil Lines Cemetery at Agra.

THE INDIAN LAW REPORTS.

THE INDIAN LAW REPORTS.

PHBLISHED UNDER AUTHORITY.

The Indian Law Reports, published under the authority of the Governor-General in Council, appear in monthly parts, published as soon as possible after the first of each month, at Calcutta, Madras, Hombay, and Allahahad, and comprise four series,—one for the Calcutta High Court, a second for the Madras High Court, at third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the series for that High Court. Cases heard by the Privy Council on appeal from Provinces to India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat, and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad, respectively.

In supersession of the previous advertisements, on and from the 1st January, 1889, the terms of subscription and sale will be as follows for current issues as well as for back numbers of the Reports from 1876:—

ESTABLISHMENTS.

Simla, the 13th August, 1889.

No. 490.—The services of the undermentioned efficers are placed at the disposal of the Government of the Punjab for employment in the Punjab Commission:

Lieutenant C. P. Thompson, Bengal S. C., 3rd Sikh Infantry, Punjab Frontier Force.

Lieutenant C. B. Rawlinson, Bombay S. C., 24th Bombay infantry.

JUDICIAL.

The 13th August, 1889.

No. 1118.—In the exercise of the power conferred by section 16 of the Indian Merchandise Marks Act, IV. of 1889, the Governor-General in Council directs that Criminal Courts, in giving effect to the provisions of the Act in respect of trade descriptions of quantity, measure, or weight of the goods specified hereunder, shall observe the following instructions:

I .- A trade description of length stamped on grev, white, or coloured cotton piece goods shall not be deemed to be false in a material respect, unless-

(a)	where a	single	length	is	stamped,	the	description	exceeds	the
, -	actual	length	by more	e th	nan—				

4 inches in pieces stamped as 10 yards long and under;

5	,,	,,	"	,,	,,	above	10	yards	and	up to	23	yards	long;
				,,	ń	,,	23	2)	,,	"	36	,,	,,
				,,									

Provided that the average length of the goods in question shall not be less than the stamped length;

(b) where a maximum and a minimum length are stamped, the described maximum length is greater than the actual length by more than—

q inches in piece goods under 35 yards long;

- 18 ,, ,, ,, 35 yards and up to 47 yards long;
- 36 ,, ,, above 47 yards long;

Provided that no such piece shall measure less than the minimum stamped length.

II.—A trade description of width stamped on grey, white, or coloured cotton piece goods shall not be deemed to be false in a material respect, unless the description exceeds the actual width by—

half an inch in pieces stamped as 40 inches or less in width; three-quarters of an inch in pieces stamped as over 40 inches or under 59 inches in width;

one inch in pieces stamped as 59 inches or more in width:

Provided that the average width of the goods in question shall not be less than the stamped width.

- III.—A trade description of count or number, length or weight, applied to grey cotton yarn shall not be deemed to be false in a material respect, unless—
 - (a) the described count or number is greater or less than the actual count or number by more than 5 per cent.; or
 - (b) the average length of the whole number of hanks in a bundle of such yarn is less than 840 yards; or
 - (c) in a bundle described as being ten pounds in weight, the number of knots or *moras* of ten hanks each is not the same as, and the number of knots or *moras* of five hanks is not double, the described count or number of the yarn.
- IV.—A trade description of count or number applied to a bundle of dyed cotton yarn shall be accepted as indicating length only, the hank being taken to measure 840 yards, and it shall be deemed to be false in a material respect if it exceeds the actual length by more than 5 per cent.:

Provided that the average length of the whole number of hanks in the yarn in question shall not be less than the described length.

- V.—A trade description of length applied to thread of any kind (of cotton, wool, flax, or silk) shall not be deemed to be false in a material respect unless it exceeds the actual length by more than 1 per cent.
- VI.—The dimensions of goods on which their length or width is stamped shall be determined by measurement in imperia lyards of thirty-six inches.

The 15th August, 1889.

No. 1138.—The services of Colonel W. B. Birch, Bengal S. C., are placed at the disposal of the Government of the Punjab, for employment as an officiating Cantonment Magistrate.

FOREIGN DEPARTMENT.

NOTIFICATIONS.

Simla, the 14th August, 1889.

No. 1581-E.—The following Order of Her Majesty in Council, published in the London Gazette of the 31st May, 1889, is republished for general information:

At the Court at Windsor, the 28th day of May, 1889.

PRESENT:

The QUEEN's Most Excellent Majesty.

Lord President.

Earl of Coventry.

Lord Ashbourne.

Where an arrangement has been made with any foreign State with respect to the surrender to such State of any fugitive criminals, Her Majesty may, by Order in Council, direct that the said Acts shall apply in the case of such foreign State; and that Her Majesty may, by the same or any subsequent Order, limit the operation of the Order, and restrict the same to fugitive criminals who are in, or suspected of being in, the part of Her Majesty's dominions specified in the Order, and render the operation thereof subject to such conditions, exceptions, and qualifications as may be deemed expedient; and that if, by any law made after the passing of the Act of 1870 by the Legislature of any British possession, provision is made for carrying into effect within such possession the surrender of fugitive criminals who are in, or suspected of being in, such British possession, Her Majesty may, by the Order in Council applying the said Acts in the case of any foreign State, or by any subsequent Order, suspend the operation within any such British possession of the said Acts, or of any part thereof, so far as it relates to such foreign State, and so long as such law continues in force there and no longer:

And whereas a Treaty was concluded on the fourth day of June, one thousand eight hundred and seventy-eight, between Her Majesty and the King of Spain for the mutual extradition of fugitive criminals:

And whereas by an Order of Her Majesty the Queen in Council, dated the twenty-seventh day of November, one thousand eight hundred and seventy-eight, it was directed that the Extradition Acts, 1870 and 1873, should apply in the case of Spain:

And whereas by an Act of the Parliament of Canada passed in 1886, entitled "An Act respecting the Extradition of Fugitive Criminals," provision is made for carrying into effect within the Dominion the surrender of fugitive criminals:

And whereas by an Order of Her Majesty the Queen in Council, dated the seventeenth day of November, one thousand eight hundred and eighty-eight, it was directed that the operation of the Extradition Acts, 1870 and 1873, should be suspended within the Dominion of Canada so long as the provisions of the said Act of the Parliament of Canada of 1886 should continue in force and no longec:

And whereas a Declaration was concluded on the nineteenth day of Tebruary, one thousand eight hundred and eighty-nine, between the Government of Her Majesty and the Government of Ilis Majesty the King of Spain, for amending paragraph 5, Article II., and paragraph 5, Article VI., of the abovementioned Treaty of the fourth June, one thousand eight hundred and seventy-eight, which Declaration is in the terms following:

"THE Government of Her Majesty the Queen of the United Kingdom of Great Britain and Ireland, Empress of India, and the Government of His Majesty the King of Spain, being desirous to provide for the more effectual repression of crimes and offences in their respective territories, have authorized in due form the undersigned to agree as follows:

"El Gobierno de Su Majestad la Reina del Reino Unido de la Gran Bretaña é Irlanda, y Emperatriz de la India, y el Gobierno de Su Majestad el Rey de España, deseando hacer mas efectiva la represion de los delitos cometidos en sus respectivos territorios, han autorizado en debida forma á los Infrascritos para convenir en lo siguiente:

"ARTICLE I.

"The English and Spanish texts of paragraph 5, Article II., of the Extradition Treaty of the 4th June, 1878, are cancelled, and the following text is substituted therefor:

"'Unlawful carnal knowledge or any attempt to have unlawful carnal knowledge of a girl under sixteen years of age. Indecent assault.'

"ARTICULO I.

"Los textos Español é Inglés del párrafo 5 del Artículo II. del Convenio de Extradicion de 4 de Junio, de 1878, quedan anulados y se sustituyen del modo siguiente:

"'Comercio carnal ilícito ó tentativa del mis mo delito en la persona de una jóven menor de d iez y seis años de edad. Atentado contra el pudo r.'

"ARTICLE II.

"The Spanish text of paragraph 5, Article VI., of the aforesaid Treaty is amended by the substitution of the words 'no menor' for the words 'que no podrá exceder,' so that the Spanish text shall run, 'A la terminacion de un plazo no menor de quince dias desde que se ordenó la prision y sujecion á juicio del preso,'

"ARTICLE III.

"The present Declaration shall come into force ten days after its publication in the manner prescribed by law in the respective countries.

"In witness whereof the Undersigned have signed the same, and have affixed thereto the seal of their arms.

"Done at Madrid, in duplicate, the nineteenth day of February, in the year of our Lord one thousand eight hundred and eighty-nine.

(L.S.) "FRANCIS CLARE FORD."

"ARTICULO II.

"El texto Español del párrafo 5, Artículo VI., del antedicho Tratado queda enmendado, sustituyendose por las palabras 'no menor' las palabras 'que no podrá exceder,' de mado que el texto Español será 'á la terminacion de un plazo no menor de quince dias desde que se ordenó la prision y sujecion a juicio del preso,'

"ARTICULO III.

"Esta Declaración comenzará á regir diez dias despues de su publicacion en la forma prescrita en los respectivos paises.

"En fé de lo cu il los Infrascritos la firman y ponen el sello de sus armas,

"Hecho en Madrid, por duplicado, á diez y nueve de Febrero, de mil ochocientos ochenta y

(L.S.) "EL MARQS, DE LA VEGA DE ARMIJO."

Now, therefore, Her Majesty, by and with the advice of Her Privy Council, and in virtue of the authority committed to Her by the said recited Acts, doth order, and it is hereby ordered, that from and after the teath day of lune, one thousand eight hundred and eighty-nine, the said Acts shall apply in the case of the said Declaration of the nineteenth day of February, one thousand eight hundred and eighty-nine, with the Government of His Majesty the King of Spain, us fully to all intents and purposes as in the case of the said recited Treaty of the fourth day of June, one thousand eight bundred and seventy-eight :

Provided always, and it is hereby further ordered, that the operation of the said Acts shall be suspended within the Dominion of Can on so far as relates to the Kingdom of Spain and to the said Treaty and Declaration, and so long as the provisions of the Canadian Act aforesaid of 1886 continue in force, and no longer.

C. L. Peel.

PART V.

Bills introduced into the Council of the Governor General for making Laws and Regulations, or published under Rule 22.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT

The following Bill was introduced into the Council of the Governor-General of India for the purpose of making Laws and Regulations on the 14th August, 1889:

No. 10 OF 1889.

A Bill to amend Act NXXVI. of 1858.

Whereas it is expedient to extend the anthority of the Governor General in C ancil with respect to the appointment of asymmes for the reception and detention of limiting and with respect to the transfer of any limiting from any one to any other limitic asymme in British India, It is hereby enacted as follows:

I. For section 17A of Act XXXVI, of 1858
Substitution of new (an Act relating to LungSpecial for section 17A, the Archemas), as amounded Act XXXVI, 1858. by Act XVIII, of 1859, the following shall be substituted, namely:

Provision for provinces having in-ullicient or no asylums.

- (a) when an Executive Government has not established within its limits a public asylum for the reception and detention of lumities,
- (b) when it appears to the Governor-General in Conneil that a public asylumestablished within such limits is not conveniently situated with respect to any part of the territeries administered by such Government or does not afford sufficient or suitable accommodation,

the Governor-General in Council may from time to time appoint an asylum in any part of British fully beyond the limits of such Government to be an a-vium to which any Magistrate or Judge exercising juri-diction within those limits may send lumities as to an asylum established under this Act for the division in which his jurisdiction is situate."

wider proof new Section 17B of the said Act XXXIV. of Act XXXIVIN 85% (858 the following section shall be added, namely:

"17C. Any hunatic may, by order of the Removal of lunates Governor-General in Countrom one asymm to all, be removed from any another.

Lunatic asylum catablished or licensed under this Act to any other such asylum in any part of Bricish India."

STATEMENT OF OBJECTS AND REASONS.

SOME four years ago a question which had been raised with respect to the accommodation of limities compelled the Governor-General in Council to pass section 3 of Act XVIII, of 1886.

I wo further questions touching the same subject have now arisen. One is whether, there being a limitic asylum at Tezpur in Assam, lunatics from the Surma Valley in Assam can be sent to the Dacca asylum in Bengal. The other is whether a lunatic who is, say, a native of a district in the Madras Presidency can be sent from Bengal, where his language is not understood, to an asylum in his own country.

The object of the Bill is to set these further questions at rest.

PART VI.

Debates of the Legislative Council of His Excellency the Governor General.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

ABSTRACT OF THE PROCEEDINGS OF THE COUNCIL OF THE GOVERNOR GENERAL OF INDIA, ASSEMBLED FOR THE PURPOSE OF MAKING LAWS AND REGULATIONS UNDER THE PROVISIONS OF THE ACT OF PARLIAMENT 24 & 25 VICT., CAP. 67.

The Council met at Viceregal Lodge, Simla, on Wednesday, the 14th August, 1889.

PRESENT:

His Excellency the Viceroy and Governor General of India, G.C.M.G., G.M.S.I., G.M.I.E., presiding.

His Honour the Lieutenant-Governor of the Punjab, K.C.S.I.

His Excellency the Commander-in-Chief, Bart., V.C., G.C.B., G.C.I.E., R.A.

The Hon'ble Lieutenant-General G. T. Chesney, C.F., C.S.I., C.I.E., R.E.

The Hon'ble A. R. Scoble, Q.C., C.S.I.

The Hon'ble Sir C. A. Elliott, K.C.S.I.

The Hon'ble P. P. Hutchins, C.S.L.

The Hon'ble Sir D. M. Barbour, K.C.S.I.

The Hon'ble Muhammad Ali Khan.

The Hon'ble Bábá Khem Singh Bedi, C.I.E.

NEW MEMBER.

The Hon'ble BABA KHEM SINGH BEDI took his seat as an Additional Member.

CANTONMENTS BILL.

The Hon'ble Lieutenant-General Chesney presented the Report of the Select Committee on the Bill to consolidate and amend the law relating to Cantonments. He said:—

"It is unnecessary to do more than refer to the circumstances under which this Bill has been prepared. It is sufficient to say that the existing Cantonment

Law had become in many respects obsolete, and that it was found simpler and more satisfactory to prepare an entirely new Bill than to attempt an amendment of the existing Act.

"The Select Committee in their Report draw attention to the circumstance that while there has been a general concurrence of opinion on the part of the authorities consulted in favour of the provisions of the first part of the Bill, relating to the general administration of cantonments as regards police, conservancy, taxation, and so forth, the second part of the original Bill, which relates to immoveable property in cantonments and forms Chapter V. thereof, has provoked considerable discussion and opposition. Under these circumstances, as cogent reasons exist for the speedy enactment of the first part of the Bill, it has been decided to omit Chapter V. from the revised Bill, and that this chapter should be dealt with as a separate enactment after a further consideration of it by the Select Committee in Calcutta.

"Under this Bill power is given to the Governor General in Council to make rules consistent with the Act for the conduct of various executive duties in connection with the management of cantonments, and amongst offer things for the segregation in, or the removal and exclusion from, a cantonment of persons suffering or suspected to be suffering from any infectious or contagious disease.

"It will be within the recollection of the Council that, in consequence of a Resolution passed last year by the House of Commons, the regulations which were at that time in force in regard to the supervision of a certain class of persons liable in a special degree to contagious disease were suspended. Since that time the class in question has been entirely uncontrolled by regulations, and the military and medical authorities report that there has been already an alarming increase of disease among the soldiers of the Indian Army, both British and Native. This is a matter which is engaging the particular attention of the Government of India and the military authorities. It is impossible to overrate the importance of the subject involved, whether we consider the efficiency of the Indian army or the welf ire and health, present and future, of those serving in it. The regulations provided by the new Bill for dealing with this matter, the substance of which has just been mentioned above, merely provide for the same precautions being taken in regard to this disease as are required in the case of smallpox, measles, anthrax or any other infectious disease, and are the least coercive that could be imposed, short of according special favour and protection to the propagation of the disease in question over all other contagious diseases. The Government of India has a duty towards the troops serving under its orders, which it is bound by every consideration, and which it intends, to fulfil."

His Excellency THE COMMANDER-IN-CHIEF said: -

"With Your Lordship's permission I propose to say a few words on the Report of the Select Committee which has just been presented by my hon'ble colleague General Chesney.

"I may, perhaps, be allowed to do so, as, being responsible for the discipline and efficiency of the Army, and constantly mixing with troops, as it is my duty to do, I have better opportunities than any of my hon'ble colleagues for forming a correct opinion as to the peculiar needs of the British soldier in India. Moreover, I have been led to understand that the members of this Council are desirous that I should give them my views on the very delicate and important question brought forward for their consideration to-day.

"In deference to public opinion at home, as expressed in a Resolution of the House of Commons, the Contagious Diseases Act was repealed in this country about a year ago. The result has been a most serious increase of venereal in the army, not only in the number of men affected but in the virulence of the disease.

"The Surgeon General, Her Majesty's Forces in India, has been good enough to prepare a statement showing the percentage of venereal cases to the total sick in hospital at most of the stations occupied by British troops in June, 1883, and during the same month this year. The year 1883 has been taken as the Contagious Diseases Act was then in full operation at all the stations given in the statement. From this return I find that at no station in 1883 did the number of venereal cases to sick in hospital reach 30 per cent., at only two

stations indeed was it over 25 per cent., while at some stations it was under 12 per cent. In June of this year, at 13 stations the percentage was more than 50, at a great many stations it was just under 50, and at the majority of the remainder it was 30 and over. I shall, perhaps, state the case more clearly if I explain that, on the 13th July, 1883, there were 33.359 British soldiers in the Bengal Presidency, of whom 593 were in hospital with venereal, or at the rate of 1.77 per cent. On the same date in July of this year, out of a force of 44,183 men, 1,548 were in hospital, or at the rate of 3.5 per cent.—as nearly as possible double. Great as this difference is, the comparison is altogether in favour of 1883; for at that time all illnesses resulting from venereal contagion were included as venereal and are shewn as such in the total number of cases, namely, 593; whereas since that time a very large percentage of the results following venereal are not returned as venereal. Consequently, the number of cases in hospital on the 12th July of this year, namely, 1,548, does not really represent the total number of men laid up with, or from the effects of, venereal. However, the figures I have given are sufficiently startling, and I think the Council will agree with me that some remedy must be applied to such a lamentable state of affairs.

"Licensing and compulsory examinations being condemned, we must fall back on supervision and medical treatment in hospitals, while venereal must be placed on the same footing as other loathsome forms of disease dangerous to the public. Those who voluntarily adopt prostitution as their trade cannot reasonably complain if they are placed under greater restrictions and disabilities than persons engaged in reputable occupations, and fortunately for our soldiers, black as well as white, and indeed for those who are obliged to live in military stations, the discipline necessarily maintained in them renders it comparatively easy for the authorities to keep the disorderly classes who elect to reside in cantonnents under control.

"In the present Bill power is taken to ensure the greatest possible amount of decorum in the conduct of prostitutes, and to remove them from cantonments if their presence there is found to be injurious to the public health. The rules by which the policy of the Act in this respect will be given effect to will be framed with the utmost care, and under the direct authority of the Government of India. Under these rules prostitutes who voluntarily come into cantonments will do so upon terms to which objection cannot, I think, be taken, and which will tend to prevent their spreading this terrible disease in the wholesale manner they are now doing.

"Considering the contagious nature of venereal, and how innocent people may suffer both in the present and future generations, it seems a positive duty to try and diminish the danger as much as possible. I trust that the public both here and in England will be sacisfied that, in the measures now, contemplated, the Government of India is doing no more than is absolutely necessary to check the scourge which is rapidly impairing the efficiency of the army and ruining the health of the soldiers, who are surrounded by far greater temptations in India than (I believe) people in England have any idea of. In a country where prostitution is practised as a trade, and where shame in a European sense does not attach to it, it is hopeless to expect to put it down altogether. All that can be done is to try and minimise its evil results, and raise the moral tone of the soldier by every means in our power. In the present Bill the Government of India have endeavoured to legislate so as to restrain the practice of prostitution as much as possible, and, in order to assist the soldier, institutes have recently been established in all regiments and batteries, which are being made as comfortable and attractive as circumstances will admit, with a view to affording men rational amusement and occupation and thus prevent their spending their leisure hours wandering about bazars and Native cities. For the Government of India to shut its eyes to the existence of prostitution, and to the havoc it is working among our troops, -a havoc which is preventible without any sacrifice of morality or undue interference with personal liberty,-would be a distinct dereliction of duty, to the charge of which we ought not to expose ourselves."

His Excellency THE PRESIDENT said:—"I think the Government of India is greatly indebted to the Commander-in-Chief for the weighty and outspoken statement to which we have just listened. If there was any room

for doubt as to the gravity of the case with which we are confronted, his statement has dispelled the doubt, and I believe that those upon whom will be thrown the responsibility of preparing rules under the Bill now upon the table will certainly endeavour to carry out as effectually as possible the precautions which are suggested by His Excellency's speech. I say 'as effectually as possible,' because he has reminded us that we are not entirely free in the matter. We are bound by the terms of the House of Commons' Resolution, to which he has referred, and, as long as that Resolution is in force, it will be our duty to conform to its spirit. Now, that Resolution lays down two principles—one that the Government of India is not to encourage by its legislation the compulsory examination of women; the other that it is not to give any facilities for what is described as the licensing and regulation of prostitution in India. I am not without hope that we may find it possible, without overstepping those limits, to provide measures which will be effectual for preventing this particular form of disease from being propagated as it appears to be at present without lot or binders or lindage. being propagated, as it appears to be at present, without let or hindrance. The rules which we shall have to frame will, I apprehend, follow the general direction indicated by the terms of the Difference of the tion indicated by the terms of the Bill, and will be directed mainly to the exclusion from the limited area to which the Bill applies of individuals known to be affected with this class of disease, and to the provision of hospitals in which they may be adequately treated. To say that we are not to take steps of this kind appears to me to be tantamount to claiming for a class of disease which is probably attended with more disastrous consequences than any other, both in reference to its immediate and to its remoter effects, an immunity which is not claimed for any other kind of contagious malady. I do not believe that such an immunity will be claimed even by those who are most earnestly desirous of discouraging immorality, and I hope public opinion will support us in the reasonable steps which it will be our duty to take, in order to carry out, within the limits which I have indicated, this most necessary measure."

CENTRAL PROVINCES MUNICIPAL BILL.

The Hon'ble MR. SCOBLE moved that the Bill to make better provision for the Organization and Administration of Municipalities in the Central Provinces be referred to a Select Committee consisting of the Hon'ble Mr. Hutchins, the Hon'ble Muhammad Ali Khan, the Hon'ble Mr. Crosthwaite and the Mover.

The Motion was put and agreed to.

CENTRAL PROVINCES VILLAGE-CONSERVANCY BILL.

The Hon'ble MR. SCOBLE moved that the Bill to make better provision for Conservancy in Villages in the Central Provinces be referred to a Select Committee consisting of the Hon'ble Mr. Hutchins, the Hon'ble Muhammad Ali Khan, the Hon'ble Mr. Crosthwaite and the Mover.

The Motion was put and agreed to.

ACT XXXVI. OF 1858 AMENDMENT BILL.

The Hon'ble MR. HUTCHINS moved for leave to introduce a Bill to amend Act XXXVI. of 1858. He said:—

"The Bill which I ask leave to introduce is but a little one, and I shall not trouble the Council with any lengthy remarks regarding it. Its object is to amend the law relating to lunatics.

"Under Act XXXVI. of 1858 Local Governments may establish or license asylums for the reception and detention of lunatics, and section 4 authorizes a Magistrate to commit wandering or dangerous insanes to 'the asylum established for the division in which his jurisdiction is situate.' About four years ago a question arose as to the accommodation of insane persons belonging to a province which has no public asylum of its own. It was accordingly enacted by Act XVIII of 1886 that, 'when an executive Government has not established within its limits a public asylum for the reception and detention of lunatics, the Governor General in Council may from time to time appoint an asylum,

established in British India beyond those limits, to be an asylum to which a Magistrate exercising jurisdiction within those limits may send lunatics.'

"It will be observed that the power thus reserved to appoint an extraprovincial asylum can only be exercised when there is no such institution within the province. But it may happen that the asylum most conveniently situated with regard to some parts of a province which possesses an asylum of its own may be outside its limits, and such a case has been recently brought to notice from Assam. An asylum has been opened at Tezpur, which lies in the Assam Valley about 24 hours by steamer above Gauhati. From Sylhet to Gauhati is a long and tedious journey of some 150 miles, which can only be done on foot, and the road passes across the Khasi Hills and through Cherrapunji, which enjoys the reputation of being the wettest place in India. To escort lunatics all this distance is no easy matter, and the sudden and severe changes of temperature involve great risk to their health, which is often far from robust. On the other hand, there is an excellent and commodious asylum at Dacca in Bengal, and there is easy communication between Dacca and Sylhet by the river Surma. On every ground it is far more convenient that insanes from the Surma Valley should be sent to Dacca than that they should be transported across the hills at peril of their lives to Tezpur.

"A similar difficulty might arise if the provincial asylum were full, or if the patient were a female and the asylum ill-adapted for the reception of women, while convenient accommodation could be provided in another place within reach. It is therefore proposed to extend the power of the Governor General in Council to eases in which an intra-provincial asylum has been established but is found to be inconveniently situated with respect to some part of the province, or not to afford sufficient or suitable accommodation.

"The object of the second part of the Bill is to give the Governor General in Council power to remove any lunatic from one province to another—a power which he already possesses with regard to criminal insanes under Act X of 1886, sections 12 and 25. In a country which boasts of 106 different languages this is obviously desirable, or we may have a lunatic shut up in a place where he cannot make himself understood. And, as each province is held financially responsible for its own lunatics, it may wish to have them brought under its own direct supervision rather than to pay some other province a higher rate for taking charge of them."

The Motion was put and agreed to.

The Hon'ble Mr. HUTCHINS also introduced the Bill.

The Hon'ble Mr. HUTCHINS also moved that the Bill and Statement of Objects and Reasons be published in the Gazette of India in English, and in the local official Gazettes in English and in such other languages as the Local Governments think fit.

The Motion was put and agreed to.

The Council adjourned to Wednesday, the 28th August, 1889.

THE INDIAN LAW REPORTS.

THE INDIAN LAW REPURIS.

Published under the authority of the Governor-General in Council, appear in monthly parts, published as soon as possible after the first of each month, at Calcutta, Madras, Bombay, and Allahabad, and comprise four series,—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the series for that High Court. Cases heard by the Privy Council on appeal from each High Court are reported in the series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat, and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad, respectively.

In supersession of the previous advertisements, on and from the 1st January, 1889, the terms of subscription and sale will be as follows for current issues as well as for back numbers of the Reports from 1870:—

the Reports from 1870:—

The provincial reports on the administration of jails are due on June 1st. The dates of the receipt of the reports for the calendar year 1888, with the reviews of the Local Governments and Administrations, are noted in the margin.

- 2. An inquiry into the state of the jails in all the larger Provinces in India has recently been completed by a Committee composed of Drs. Walker and Lethbridge in accordance with the orders contained in Home Department Resolution No. 458, dated 9th October 1888. The report of this Committee has been received and examined and with the comments of the Government of India will shortly be in the hands of Local Governments and Administrations. The Committee's enquiry, and the careful examination to which their report has been subjected by the Government of India, make it unnecessary to examine the jail administration during 1888 as minutely as might otherwise be desirable.
- 3. Excluding Upper Burma, the jail administration in which will be considered separately, there were, in 1888, 737 jails and lock-ups in British India, the number of central jails having been increased by one and that of district jails reduced by two in the year under review.

The year 1888 opened with a jail population of 75,922 as compared with 76,738 in 1887. The admissions of male prisoners, which had risen in 1887 from 345,727 to 352,702, showed a further rise to 364,883, the increase being distributed over all the larger Provinces except the Punjab. The total jail population was 459,953 (438,264 males and 21,689 females) as compared with 448,741 (426,686 males and 22,055 females) in 1887. The number of prisoners discharged, which was 372,819 in 1887, was 377,718 in 1888, and the number in jail on 31st December last was 82,235 (79,543 males and 2,692 females), as compared with 75,922 (73,381 males and 2,541 females) on the 31st December 1887. The daily average number of prisoners was 79,200 in 1888 against 70,879 in 1887.

- 4. Statement II, which relates entirely to convicts, shows that the year 1888 opened with 69,468 convicts in the jails as compared with 70,594 at the beginning of 1887. The number of male convicts confined in 1888 was 146,552 as compared with 145,179 in 1887, but the number of females declined from 9,407 in the latter to 9,060 in the former year. The aggregate number of convicts in confinement was thus 225,080 in 1888 and 225,180 in 1887. In 1888, 2,817 males and 63 females were transferred to work out their sentences of transportation beyond the seas, as compared with 1,848 and 114 respectively in 1887. The number of convicts released on appeal was 10,313 in 1887 and 10,205 in 1888: the number released on expiry of sevtence rose from 107,660 in 1887 to 128,198 in 1888; and the number released under the remission rules from 7,675 to 8,265. The number released by order of Government, which, in 1887, owing to the releases at the Jubilee, amounted to 26,150, fell in 1888 to 423; 69 convicts, as. . . compared with 55 in 1887, were transferred from jails to lunation asylums: 105 escaped as compared with 76; 396 were executed as compared with 299; and 2,444 died in jail as compared with 2,353. There thus remained in jail 75,765 convicts (73,324 males and 2,441 females) on 31st December 1888 as compared with 69,468 (67,200 males and 2,268 females) on 31st December 1887. The daily average of convicts was 64,189 in 1887 and 72,554 in 1888.
- 5. The proportion of the members of the different religions admitted into jail to the total jail admission is thus compared with the proportion borne by them respectively to the total population in India:--

					ADMITTE	EACH CLASS	
				Total convict population.		Total free population of each class.	
Christians	111	•••	•••	1887. 14'4	1888. 12°2	1887. 1'9	1888.
Muhammadans	•	•••	•••	274'9	270.8	0.9	0.0
Hindus'and Sikl		•••	•••	617.3	631.9	0.0	0.0
Buddhists and]			***	70.7	68.9	2.8	2.7
All other classes	• •••	•••	•••	227	16.5	9.6	0'4

6. Turning to the age of the convicts admitted into jail the comparison between the four divisions in the past two years is as follows:—

				Number of con	victs admitted.
Under 16 y	ears	•••	•••	1887. 2.117	1888. 1,978
16 to 40	,,	•••	•••	124,772	126,442
40 to 60	31	•••	***	25 ,065	24,681
Above 60	:)	•••	. •••	2,675	2,542

The different occupations of the male convicts admitted into jail were as follows:—

		1887.	 1888.
Persons employed under Government or Municipa	or		
other Local Authorities	•••	4,330	4,390
Professional persons	•••	5,127	5,544
Persons in service or performing personal offices	•••	10,902	12,938
Persons engaged in agriculture or with animals	•••	79,795	78,595
Persons engaged in commerce and trade	•••	7,620	7,300
Persons engaged in mechanical arts, manufactures a	ınd		
engineering operations, &c	•••	5,359	5,920
Miscellaneous persons not classed otherwise	•••	32,084	31,890

The condition of the female convicts is shown in the following figures:-

		1887.	1888.
Married	•••	5,676	5,576
Unmarried	•••	488	475
Widows	•••	2,675	. 2,500
Prostitutes	•••	573	515

7. The following statement compares the character of the sentences of the convicts admitted in 1887 and 1888 respectively:—

	1887.	1888.
Not exceeding 1 month	56,562	56,67,4
Between 1 and 3 months	31,818	31,700
Between 3 and 6 months	26.578	26,925
Between 6 months and 1 year	18,162	18,678
Between 1 and 2 years	11,494	11.534
Between 2 and 5 years	5,820	6,084
Between 5 and 10 years	1.702	1,680
Exceeding to years	74	43
Transportation for life	1,062	942
Transportation for a term	925	790
Sentenced to death	425	593

Of the 155.643 convicts sentenced last year, 133.977 were thus sentenced to less than a year's imprisonment, a fact which may on the whole be taken as indicating that the great bulk of crime in India is not of a very serious character.

The variations in the preceding figures call for no comment except the decrease in the number of sentences of transportation, and the increase in the number of death sentences. The former result is accounted for by the fact that, owing to the country having become quieter, 659 convicts were admitted into the jails in Lower Burma under sentences of transportation in 1888 as compared with 889 in 1887. In 1888 there were in Bombay 56 sentences of death against 27 in 1887, in the North-Western Provinces and Oudh 133 against 86, in the Central Provinces 59 against 22, and in Lower Burma 102 against 56.

19,926 convicts were admitted in 1888, who were ascertained to have been previously convicted, as compared with 19,266 in 1887. The ratio per cent. of those known to have been previously convicted to the number of convicts admitted rose from 12'4 to 12'8.

8. The employment of convicts in jail is dealt with in Statement VI. The average number sentenced to labour was 69,156 in the year under review (working days alone being taken into account) as compared with 60,820 in the previous year. Of this number there were on the average 2,512 on the sick list, and 3,416 convalescent or infirm; the balance available for labour being 63,227 as compared with 56,082 in 1887.

These 63,227 convicts wer	e thus e	employed -	-		
On unremunerative labour	r	• •••	•••	•••	1,786
As prison officers	•••	•••	•••	•••	3,087
As prison servants	•••	•••	•••	•••	6,921
On gardening	•••	•••	•••	•••	4,346
In preparing articles for c	onsumpt	ion in jails	•••	• • •	8,532
On jail repairs	•••	•••	•••	•••	3,208
On jail buildings	•••	•••	•••	•••	4,753
On manufactures	•••	•••	•••	•••	28,610
Under the Public Works I) e partme	ent	•••	•••	1,766
Under municipalities, &c.		•••			1,166

9. The number and character of offences committed by convicts in the year under review and the previous year are thus compared :-

						1887.	1888.
Criminal offe	nces		•••	•••	•••	279	254
Smoking or	being	in	possess	ion of fo	orbidden		
articles	•••		•••	***	***	9,385	9,115
Offences rela	ting to	wor	k	•••	•••	42,980	40,842
Other offence	es again	st p	rison dis	scipline	•••	25.754	25,145
				TOTAL	•••	78,398	75.356

In Bengal the number of offences declined from 35,824 to 29,064: in the North-Western Provinces and Oudh from 6,185 to 5,330: and in the Central Provinces from 3,567 to 2,701. In Lower Burma the number of offences rose from 8,331 to 12,938, and in the Punjab from 15,209 to 16,511. The ratio of punishments to the daily average of convicts was 103.8 in 1888 compared with 122'1 in 1887. It varied from 234'7 in Bengal, to 25'9 in the neighbouring provinces of the North-Western Provinces and Oudh. The figures for Bengal shew a very great reduction from those for the last and preceding years. The vexed question of the recording and punishment of offences against jail discipline has been investigated by the Jail Committee. A considerable variety in practice was discovered, leading in some places to a large record of offences, in others to an undue reduction in the reported numbers. It is to be hoped that the facts now brought to light will enable the various Local Governments to remedy the defects on this point which have been so frequently noticed by the Government of India.

The number of cases in which corporal punishment was awarded showed a satisfactory decline from 2,430 to 1,891. The percentage of prisoners whipped to the total number of male prisoners was only '7, and the proportion per cent. of whippings to total punishments only 2.5. These figures, as well as the total number of whippings administered, are lower than any recorded in previous years,

and they testify to the attention paid to the orders of the Government of India on the subject. Solitary confinement by itself was imposed in 6,385 cases in 1888 as against 5,160 in 1887, reduced diet by itself in 6,297 cases as compared with 6,874, and these two punishments were combined in 9,493 cases as compared with 5,877.

10. The number of convicts released during the year, who came under the operations of the mark system, was 8,280 as compared with 7,696 in 1887. In that year 22 failed to gain any release, but this number was in 1888 reduced to 15. The system continues to work satisfactorily. Suggestions for the improvement of the rules have been made by the Jail Committee, and are being forwarded for consideration of Local Governments and Administrations. The daily average of convicts under instruction was 3,501 in 1888 as compared with 3,112 in 1887, and 5,228 who had been under instruction in jail were released as compared with 5,193 in 1887. Of these only 753 were able to read and write well, 2,415 could read and write a little, and 2,060 were unable to read or write at all. These results are not encouraging, and the Governor General in Council is disposed to think that little advantage is gained from the system of instruction at present pursued in jails. The subject is being dealt with in connection with the report of the Jail Committee.

11. The gross expenditure on jails in 1888 aggregated Rs. 49,23,996 (62-2-9 per head) against Rs. 45,84,778 (64-9-10 per head) in 1887.

The chief items of expenditure are thus compared for the two years:-

			1887.		1888.
		Total cost.	Cost per head of average strength.	Total cost.	Cost per head of average strength.
		Rs.	Rs. A. P.	Rs.	Rs. A. P.
Rations	•••	17,10,698	24 6 5	19,21,554	24 6 10-
Establishments	•••	18.54.877	26 2 3	18,64,905	23 8 9
Police guards	•••	3,06,082	4 5 0	2,71,191	36 9
Hospital charges		1,32,235	1 13 9	1,42,179	1 12 8
Clothing	•••	1,79.271	2 8 10	2,48,449	3 2 6
Contingencies	•••	3.82,166	5 6 2	4.54,901	5 11 10

There was a satisfactory decline in the cost of rations in Madras from Rs. 2,83,914 (39-8-9 a head) in 1887 to Rs. 2,28,244 (30-2-9 a head) in 1888, owing to the introduction of a better system of purchasing supplies for jails. In the Punjab the cost per head fell from Rs. 25-4-8 to Rs. 24-5-4. Burma the expenditure under this head rose from Rs. 2,16,486 (28-2-10 a head) to Rs. 2,94,870 (33-12-1). In Bombay the rise was from Rs. 25-2-1 a head to Rs. 27-11-10, in Bengal from Rs. 20-5-0 to Rs. 21-10-11, in the North-Western Provinces and Oudh from Rs. 18-0-0 to Rs. 18-7-7. In the latter provinces the figure for jails was Rs. 17-12-0, but the charge in the Magistrates' lock-ups (Rs. 20-12-11 per head), where there are not the same facilities for economy, raised the average to Rs. 18-7-7. The high price of the necessaries of life is stated as the principal cause for these rises. The more general adoption of the storage system, as recommended by the Government of India in paragraph 21 of Home Department Resolution of the 5th September 1888, and now endorsed by the Jail Committee, will, the Governor General in Council trusts, result in considerable economy under this head; and His Excellency in Council considers it highly important that this system should be given a fair trial. In the North-Western Provinces

and Oudh alone, a saving of Rs. 17,683 was effected by storing grain instead of purchasing it at the market rate monthly, and there were 14 jails in those Provinces in which the experiment has not yet been tried. It is reported that the loss from damp was very slight indeed; and it is evident that the adoption of the system generally affords an opportunity of effecting very material economies.

The aggregate cost of establishments has slightly increased; but owing to the larger number of prisoners in jail the average cost per head is Rs. 23-8-9 as compared with Rs. 26-2-3 in 1887. The Jail Committee has made some very important proposals on the revision of establishments, and it is unnecessary to discuss the expenditure on this head in the past year. The aggregate hospital charges are slightly in excess of those in 1887, but the expenditure on them per head both of average strength and sick is lower than in that year. The cost of clothing rose from Rs. 1,79,271 (2-S-10 a head) to Rs. 2,48,449 (3-2-6 a head). In each of the larger Provinces there was a large increase in the aggregate, partly due to an increase in the number of convicts. In Madras some of the increase was nominal, owing to the inclusion in the accounts for 1888 of expenditure incurred in 1887. In Bengal there was an increase from Rs. 44,272 (3-10-9 a head) to Rs. 58,364 (4-4-5 a head), and the increase of the cost per head is not explained; in the North-Western Provinces and Oudh from Rs. 40,302 (2-1-0 a head) to Rs. 54,648 (2-7-7 a head), owing to the renewal of old clothing; and in the Punjab from Rs. 26,604 (2-5-0 a head) to Rs. 51,726 (3-15-9 a head). The rise in the Punjab is explained to be due in a great measure to economy having been carried as far as it could safely be carried in the previous 3 years, by using up the stock of old clothing.

There was a large increase in the aggregate amount of contingent expenditure, and the cost per head of average strength rose from Rs. 5-6-2 to Rs. 5-11-10. In Madras the expenditure rose from Rs. 69,084 to Rs. 82,107, mainly owing to the transfer of charges, which under the old system were included under Rations, to the head Contingencies. In Bengal the charge rose from Rs. 96,855 (7-14-6 a head) to Rs. 1,28,592 (9-5-10 a head). The rise is attributed to an increase in the transfer charges, partly caused by the reduction of 14 district jails to the status of intermediate jails, and to an increase of Rs. 11,537 in municipal taxes. The amount of expenditure attords a strong contrast to the charge in the North-Western Provinces and Oudh, namely, Rs. 37,421 (1-10-11 a head). In the Punjab the aggregate cost rose from Rs. 41,994 to Rs. 47,173, but the cost per head remained the same as before. In Lower Burma the charges rose from Rs. 60,152 to Rs. 77,533, of which the greater part was incurred in transferring convicts to India and the Andamans.

12. To calculate the net cost of maintaining the convicts the cash carnings, must be deducted from the total cost. The cash carnings in 1888 were only Rs. 12-12-4 per head of average strength as compared with Rs. 14-4-2 per head in 1887. This result is, in the opinion of the Government of India, very disappointing and there has been a steady decline in the earnings since 1885. In that year 24,944 convicts were on the average employed on manufactures, and the earnings were Rs. 12,92,318: in 1886 the number rose to 25,903, while the earnings fell to Rs. 11,51,206: in 1887 there were again more convicts (25,116),

employed on manufactures than in 1885, and the earnings were again less, viz., Rs. 10,11,891. In the year under report the number of convicts employed was higher (28,610), and the amount of earnings lower (Rs. 10,11,783), than in any of the preceding 4 years. The inspection reports of the Jail Committee show that in some provinces the principles for regulating employment of prisoners in Jails, which the Secretary of State and the Government of India have laid down. have not been properly acted up to, and that legitimate opportunities of employing prisoners in productive labour are either neglected or not fully turned toaccount. This subject will require further consideration by Local Governments and Administrations in connection with the Committee's report.

In the Madras Presidency the earnings rose from Rs. 20,380 to Rs. 57,263, but the average earnings per head of average strength was only Rs. 7-3-7. In the North-Western Provinces and Oudh the total earnings fell from Rs. 1,74,145 to Rs. 1,53,479, and the earnings per head from Rs. 8-13-4 to 6-14-7. In Bengal the fall was from Rs. 2,99,870 (24-7-7 per head) to Rs. 2,66,898 (19-6-11 per head), and in the Punjab from Rs. 1,30,549 (11-3-7 per head) to Rs. 1,09,748 (8-6-6 per head). In Lower Burma the earnings rose from Rs. 2,00,848 (26-0-5) to Rs. 2,39,845 (27-6-3), a specially satisfactory result in view of the fact that the earnings in 1886 were only Rs. 1,84,653. After deducting the cash earnings from the gross cost of maintaining the prisoners, the net cost of the jails in India in 1888 was Rs. 39,12,212 (49-6-5 per head), as compared with Rs. 35,72,886 (50-5-8 per head) in 1887. The average cost per head declined very sensibly, from Rs. 88-8-5 to Rs. 73-1-5 a head in Madras, and, with the reforms now in progress in the jail administration of that Presidency, a still further reduction may be expected. In Bombay, the North-Western Provinces and Oudh, the Central Provinces, Coorg and the Hyderabad Assigned Districts, the cost per prisoner declined to a less extent. It increased in Bengal and the Punjab, in each case to a considerable degree, and also in Bombay, Lower Burma and Assam.

13. From the sanitary point of view the year was not altogether satisfactory. The number of prisoners admitted into hospital, which had been 67,065 in 1887, rose to 79,356 in 1888, and the daily average sick from 2,252 in the former to 2,612 in the latter year. The ratio of admissions into hospital per head of average strength, which was 946 in 1887, was 1,003 in 1888, and that of daily average sick 33 as compared with 31. The proportion of admissions into hospital declined in Bengal and the Central Provinces. It rose in every other Province, and especially in the Punjab and Lower Burma. ratio of admissions into hospital was lowest in Bombay. The results of weighments of discharged prisoners were also slightly less favourable than in 1887. In the year under review 79,213 prisoners added to their weight in jail, while 38,810 lost weight: the corresponding figures in 1887 were 79,102 and 37,702.

But, though the general health statistics were not so good as in 1887, the ratio of deaths was proportionately smaller than in that year. The number of deaths from fever was 211 against 224 in 1887, those from bowel complaints 777 against 790, and those from cholera 368 against 325. The increase in mortality from the last mentioned disease occurred in Bengal, where there were 132 deaths as compared with 21. The total number of deaths in 1888 was 2,617 as compared with 2,523 in 1887, and the ratio per mille THE CONTRACTOR AND ADMINISTRATION OF THE CONTRACTOR OF THE CONTRAC

of average strength 33'1 as compared with 35'6. This is the lowest figure since 1884. The ratio varied from 12'7 in the Hyderabad Assigned Districts, and 22'9 in Bombay, to 44'7 in Bengal and 44'8 in Lower Burma. It improved in the Punjab (from 44'5 to 30'7), in the Central Provinces (from 68'4 to 41'2), in Lower Burma (from 58'7 to 44'8), in Assam (28'0 to 26'9), in Coorg (63'4 to 41'5) and in Hyderabad Assigned Districts (from 26'6 to 12'7). The death rate increased in Madras (23'0 to 25'5), Bengal (32'7 to 44'7), and the North-Western Provinces and Oudh (27'6 to 28'3).

ORDER.—Ordered, that a copy of the above Resolution be forwarded to all Local Governments and Administrations for information and guidance and to the Department of Finance and Commerce for information.

Ordered also, that the Resolution be published in the Supplement to the Gazette of India.

(True Extract.)

C. J. LYALL,

Offg. Secretary to the Government of India.

Statements appended to Home Department Resolution No. 556-567, dated the 23rd August, 1889.

No.

GOVERNMENT OF INDIA.

HOME DEPARTMENT.

TEXT-BOOK ON DOMESTIC ECONOMY AND SANITARY SCIENCE FOR THE USE OF THE SENIOR CLASSES OF ENGLISH AND ANGLO-VERNACULAR SCHOOLS IN INDIA.

No. 388-390.

Extract from the Proceedings of the Government of India in the Home Department (Education),—under date Simla, the 23rd August 1889.

Read again-

Home Department Notification No. 344, dated the 17th September 1888, offering a reward of Rs. 1,000 for the best text-book on Domestic Economy and Sanitary Science for the use of the Senior Classes of English and Anglo-Vernacular Schools in India.

RESOLUTION.

With reference to Home Department Notification cited in the preamble, offering a reward for a text-book on Domestic Economy and Sanitary Science, the Governor General in Council is pleased to appoint a Committee, consisting of the Principal, Medical College, Lahore, Surgeon-Major A. Stephen, Sanitary Commissioner, Punjab, and Honorary Surgeon Rahim Khan, Khan Bahadur, Lecturer on Materia Medica and Medicine, Lahore Medical College (the Senior Commissioned Officer acting as President), to examine and report on the works which are submitted by competitors.

2. The works submitted will be forwarded to the President immediately after 1st September 1889. After examining them the President will circulate them to each of the members for examination. When all the essays have thus been examined, the Committee will assemble at one place and after comparing their respective notes will finally decide as to which, if any, of the works is, in their opinion, entitled to the prize offered.

ORDER.—Ordered, that copies of this Resolution, together with copies of Home Department Notification No. 344, dated the 17th September 1888, be forwarded to the Punjah Government for communication to the Principal, Medical College, Lahore, and Drs. Stephen and Rahim Khan, Khan Bahadur, for information and guidance; and to the Surgeon-General with the Government of India for information.

Ordered also, that a copy of this Resolution be published in the Supplement to the Gazette of India.

(True Extract.)

C. J. LYALL,
Offg. Secretary to the Government of India.

GOVERNMENT OF INDIA.

REVENUE AND AGRICULTURAL DEPARTMENT.

Weather Review of India for the week ending at 8 a.m. on Monday, August 19th, 1889.

During the past week the Bay of Bengal monsoon has been much stronger than for some time past. In consequence constant and rather heavy rain has prevailed over Northern India. About the middle of the week a well marked storm was formed over the head of the Bay, and travelling west-north-west-ward, occasioned heavy falls of rain on the southern side of the Gangetic plain.

The Chart of the 13th showed the normal distribution of pressure and the ordinary circulation of the winds. In Upper India there were numerous calms, but all along the West Coast and over the Peninsula and the central parts of the country a fairly strong monsoon was blowing. Over the Bay the monsoon was still weak, and the direction of the winds was complicated by the presence of a small depression off the Orissa Coast. On the 14th similar conditions were reported, except that over the north and east of the Bay the winds were more regular and stronger than on the previous day. The observations of the 15th showed that the barometer had generally fallen in the north and risen in the south, hence gradients had become very steep over India. Large low pressure areas were shown—one over Sind and the Western Punjab, the other over Bengal and the North-Western Provinces,—and the barometric difference between Cochin and Rawalpindi and between Cochin and Saugor Island amounted to five-tenths and four-tenths of an inch respectively. Strongish monsoon winds were experienced almost everywhere, the velocity at Bombay being 20 miles per The Chart of the 16th showed that a small depression had formed over Lower Bengal and the north of the Bay. The barometer had fallen in its neighbourhood and the gradient between that region and the south of the Peninsula had increased, but in North-Western India there had been a brisk increase of pressure, and the barometric difference between the Punjab and Malabar had decreased. The monsoon from the Arabian Sea however continued strong. In the north of the Bay there was a cyclonic circulation around the storm. By the morning of the 17th the storm had developed somewhat; gradients were very steep over the Bay and a strong monsoon was blowing. In Western and Central India there was no important change. The Chart of the 18th showed that the storm had passed inland on a west-north-west The storm maincourse and that the centre lay to the south of Benares. tained the same intensity that it had over Lower Bengal. Strong winds prevailed on both sides of India and over the central parts of the country, but in Upper India the force was low. On the 19th the storm, still maintaining the same intensity, had advanced to Jhansi. A well marked cyclonic circulation of the winds prevailed around the storm centre and strong monsoon winds elsewhere.

Temperature.—During the first three days of the week the mean temperature of the whole of India was above the average, but on the 16th a more or less general decrease of temperature set in, and the weather generally continued to become cooler during the remainder of the week. The coolest day was the 19th, when the average mean temperature exhibited a deficiency of 4° in the Central Provinces, Central India and Guzerat, of 2° in the Punjab, and of over 1° in the North-Western Provinces. Though the final results for the whole of India exhibit a deficiency, certain Provinces exhibit a variation in the reverse direction; thus Sind, Rajputana, and Bombay had only one day and Madras, Bengal and Burma only two days on which the average mean temperature was below the normal. The results for the different Provinces show a slight excess in Sind, Rajputana, Bombay, Bengal and Burma, and a moderate deficiency in Guzerat, Central India, the Central Provinces, the Punjab and the North-Western Provinces. The maxima have been largely below the average in Upper and Central India throughout the week.

The following table shows the excess or defect of the mean average temperature of the different Provinces for the present and for the preceding week:

	Prov	ıxc	E 5 .						Difference of Mean Temperature of Last Week from Normal.	Difference of Meau Temperature of present Week from Normal.
Burmah	1			•			•		+ 0.60	+ 0.4°
Bengal		•		•		•	•		+ 1.30	+ 0.6°
North-V	V e steri	a Pr	ovinc	es		•		•	+ 2·2°	— o.3°
Punjab							•		+ 1.1 ₀	- 1.4°
Bombay	,			•	•	•	•		+ 0.70	+ 0.3°
Central	Provin	ces	and 1	Berar		•	•		— o.6°	— 1 · 9°
Guzerat	and C	entr	al In	dia		•	•	•	+ o·5°	1.3°
Sind an	d Rajp	utar	ıa.			•		•	+ 1.30	+ o.2°
Madras				•	•	•			o.1 _o	o

This table shows that, relatively to the average, the temperature of the present week has been considerably lower than that of last week in all Provinces, except Madras.

Rain.—The rainfall of Northern India has been on the whole more favourable than it was last week. Not only has the Bay monsoon been stronger than of late, but the travelling cyclone, which passed west-north-westward up the south of the Gangetic plain between the 17th and 19th, occasioned heavy falls of rain in its neighbourhood. The Arabian Sea monsoon has also exceeded the normal strength, and the regions influenced by this current have received steady constant rainfall.

The following is a brief description of the daily distribution of rain:

On the 13th there was no rain reported from the west of the Punjab, Lower Sind, the Circars Coast, or South Madras, but in all other parts of the Indian region moderate general rain had fallen, with some rather heavy amounts over and near the North-West Himalaya. On the 14th rain continued absent from the Western Punjab, from Sind, and from South-East Madras, but heavy rain had fallen in Ganjam and moderate general rain elsewhere. On the 15th and 16th this distribution continued unchanged. On the 17th rain had ceased in the Bombay Deccan, Khandeish, and Central India, while it had become much heavier over the north of the Bay. In other respects there was no change.

On the 18th and 19th heavy rain was reported from Arakan and fairly heavy rain from the neighbourhood of the depression which was travelling west-north-westward into Upper India.

The rainfall table at the close of the Summary shows that thirty-seven divisions received more than the average amount of rain during the week, and only thirteen less than the normal amount. Of these thirteen divisions, the majority exhibit a comparatively unimportant deficiency, such, for instance, as the deficiency of half an inch in Lower Burma, of a quarter of an inch in Chota Nagpur, the hill districts of the Punjab, Coorg, and Khandeish; but in some cases the deficiency of rain is more important. In Central Bengal only half the normal amount has fallen, in Mysore only 0.08 inch instead of 1.39 inch, and in Madras only 0.06 inch instead 0.51 inch. In Western Rajputana there has been no rain during the week. The divisions where the largest falls relatively to the average have been received are Tenasserim and Arakan, the North-Western Provinces and Oudh, Malabar, the Konkan, and the central parts of the country. Within these divisions the rainfall of the week has been from two to three times the average amount.

This generally large average fall does not appear to have been accompanied, as a general rule, by exceptionally heavy falls, but seems rather to have been the result of uniformly distributed moderate rainfall. In Tenasserim however the total rainfall varies between 15 and 20 inches and in Arakan between 16 and 19 inches, and Cherrapunji has received 18 inches. All over the plains of Bengal and the North-Western Provinces there is nothing remarkable in the maximum falls, but at some sub-divisional stations in the submontane divisions the amounts are large—thus Bhugutpur (Cooch Behar) received 11 inches; Kurseong (Jalpaiguwi), 9 inches; Mirganj (Bareilly), 11 inches; Dehra Dun, 11 inches; and Naini Tal, 11 inches. In the Punjab the heaviest fall reported is 122 inches at Kangra, followed by 73 inches at Pathankote. In the South-West-Coast districts the maximum falls vary between 7 and 10 inches, but in the Konkan and the Bombay Deccan the falls are larger, the maximum in the Ratnagiri district being 18 inches, in the Colaba and Kolhapur districts 17 inches, and in the Thana district 12 inches. In the Central parts of the country the principal maxima vary between 7 and 10 inches, but one station in Bhopal received 141 inches. In Madras there were no heavy falls.

The final column of the table, which gives the state of the seasonal rainfall, shows a very satisfactory condition. The only divisions exhibiting a large deficiency (more than 10 per cent. of the normal rainfall) are the Burmese divisions, East Bengal, Deltaic Bengal, Punjab (Central), Mysore, Bombay Deccan, Khandeish, and Sind. In all the other divisions the rainfall nearly equals or exceeds the normal.

W. L. DALLAS,

SIMLA, 22nd August, 1889.

Assistant Meteorological Reporter to the Government of India.

E. C. BUCK,

Secretary to the Government of India.

GOVERNMENT OF INDIA.

REVENUE AND AGRICULTURAL DEPARTMENT.

Weekly Report on the State of the Season and Prospects of the Crops.

Madras.—For week ending 17th August.—Rainfall general; good in Ganjam, Vizagapatam, Kistna, Kurnool, Nilgiris, South Canara, and Malabar. Crops generally good, but withering in parts of Chingleput, Coimbatore, and Tinnevelly, and damaged by worms or insects in parts of Salem and South Canara. Prices generally falling or stationary. Labourers employed on last day of week,—on Rushikulya works, 2,835; Gopalpore Canal, 1,146; Ghat Roads, 2,902; drinking-water tanks and wells, 1,844; minor irrigation and other works, 5,544. Number on village relief on 10th August, 66,285; fed in kitchens, 11,632; total, 77,917—of whom, 49,285 were children. Imports during week by sea and land, 956 tons. General prospects favourable and greatly improved in Ganjam.

Bombay.—For week anding 21st August.—Rain during week general; total fall insufficient throughout Nasik and in parts of Ahmedabad, Surat, Khandesh, Poona, Ahmednagar, Satara, Bijapur, Belgaum, and Dharwar. Young crops withering for want of moisture in parts of Nasik, Poona, Ahmednagar, and Satara; damaged by floods in parts of Karachi, and by breaches in canals in parts of Hyderabad; standing crops otherwise good, except in two talukas of Khandesh. Sowing and transplantation continue in several districts, but retarded in parts of Nasik, Poona, and Ahmednagar. Preparation for late crops progressing in Hyderabad. Fodder scarce in parts of Poona, Ahmednagar, Belgaum, and Dharwar. Drinking-water scarce in parts of Ahmednagar and Dharwar. Prices rising in one taluka of Nasik.

Bengal.-For week ending 20th August.-Rainfall during the week has been general, but rather too light in many districts. Transplanting of late rice is proceeding, but is backward for want of sufficient rain in places in Western Bengal, South Behar, Chota Nagpur, and the Balasore district. Early rice and jute harvests are progressing in the central, northern, and eastern districts. Jute is said to be a magnificent crop in Rungpore, nearly a full average crop in Mynicusingh and Tipperah, and about \$ of an average crop in Pubna and Dinagepore. In Rungpore the crops have been greatly destroyed by inundations on the Brahmaputra churs; some loss of crops by floods is also reported from Bogra and Pubna and from a few places in Eastern Bengal. In Behar the bhadoi crops are doing well, except on the inundated tracts. In Muzaffarpur the prospects of crops in the Sadr subdivision are uncertain owing to floods, and gratuitous relief is being given. In Chumparun advances are being made to the cultivators whose crops have been destroyed by floods. In this district 1,587 persons are daily receiving charitable relief, partly at Government and partly at private expense. 310 persons are employed on two relief works in the north of Bhagalpur. Food-stocks are sufficient throughout the affected area in the Patua and Bhagalpur divisions. Price of common rice at Madhubani and Motihari 10½ seers per rupee and at Sitamarhi 8½ seers.

North-Western Provinces and Oudh.—For week ending 21st August.—Seasonable weather continues, and prospects are everywhere good. The earlier millets are being harvested in places, and ploughing for rabi sowings is in progress. Markets are well supplied. Prices are generally easier.

Punjab.—For week ending 21st August.—Rain in all districts, except Sialkot, Mooltan, and Peshawar. Prices almost stationary throughout the Province, except in Rawalpindi and Shahpur, where they are rising. Sowing

of *kharif* crops nearly over. Weeding commenced in some districts. Ploughing for *rabi* commenced. Crops are in need of rain in Umballa. Prospects of standing crops good. Stock cattle are reported healthy. Fodder sufficient throughout the Province.

Central Provinces.—For week ending aist August.—Weather seasonable. Good rain in all districts, except northern portion of Jubbulpore. Kharif crops continue to thrive, and prospects very favourable. Fodder sufficient. Prices steady.

Burma.—For week ending 17th August.—The rainfall throughout Lower Burma was seasonable. The crop prospect is generally good, an improvement being specially noticed in Tharrawaddy and Prome. In Upper Burma heavy rain fell in Kathe and the Upper Chindwin districts, and moderate rain in Bhamo, Kyaukse, Minbu, Meiktila, Yamethin, and Pyinmana; in the other districts little or no rain fell; rain is still wanted in Myingyan, Minbu, Meiktila, and Yamethin. Ploughing and sowing are progressing favourably. Standing crops generally promise well, especially cotton in Myingyan and Meiktila; but paddy is suffering in the districts, where rain is most wanted, while the crop has been damaged by insects to a serious extent in Bhamo and in a less degree in Shwebo. The price of paddy has risen 8 per cent. in Tharrawaddy; 5 per cent. in Thongwa; 5 per cent. in Sagaing; 10 per cent. in Pakokku; and 5 per cent. in Magwe. The price of paddy has fallen 6 per cent. in Rangoon; elsewhere no marked fluctuations are noticeable.

Assam.—For week ending 21st August.—Weather warm. Rainfall varies from 0.55 in Khasi Hills to 6.88 in Goalpara. Reaping of early and transplanting of late rice continues. Tea blight prevalent in Cachar. Prospects of other crops good.

Mysore and Coorg.—For week ending 21st August.—Rainfall good in parts of Shimoga district of Mysore, and slight elsewhere. Standing crops generally good, but more rain needed in parts of the Kolar, Tunkur, and Shimoga districts. Paddy harvested in parts. Outturn fair. Prices fallen in the Mysore district.

Heavy rain in Coorg during the week. Prospects continue good. Prices stationary.

Berar and Hyderabad.—For week ending 21st August.—Average rainfall good. Weeding of jowari and cotton continues. Fodder sufficient. Agricultural stock in good condition. No change in the price of food-grains.

In Hyderabad the rainfall during week was 3.68 inches. Weeding of kharif crops continues. Tanks received water, but not sufficient for abi and tabi crops. No scarcity of fodder for cattle. Prices stationary.

Central India.—For week ending zist August.—Condition in Central India much the same as during last week. Agricultural operations are completed in Gwalior. Prices of food-grains steady in Bundelkhand and low in Western Malwa. Crops damaged by excessive rain and high wind in the Goona Agency.

Rajputana.—For week ending 21st August.—Rainfall good throughout the Province. Agricultural operations and standing crops satisfactory. Agricultural stock good. Pasturage or fodder sufficient. Prices steady generally, Cotton crops doing well in Marwar and Jeypore.

Nepal.—For week ending 15th August.—Good rain. Weather fair. Winter rice progressing. Prospects of Indian corn generally good. Reaping commenced.

E. C. BUCK, Secretary to the Government of India.

GOVERNMENT OF INDIA. PUBLIC WORKS DEPARTMENT. RAILWAY TRAFFIC.

No. XVII. of 1889-90.

APPROXIMATE STATEMENT OF GROSS RECEIPTS AND EXPENSES OF INDIAN RAILWAYS.

Applications for the supply of the Gasette on the public service should be addressed to the Home Department.

Complaints regarding non-receipt of any number of the Gasette should be forwarded within a week after the date on which it is due.

Attention is invited to the Circular Memo. of the Government of India, Home Department, of February, 1870, directing that all Notifications or other matter intended for insertion in the Gazette of India should be delivered at the Publisher's Office not later than 2 P.M. on Friday afternoon, and that matter sent after that hour must be certified to be extremely urgent in order to ensure its appearance in the next day's Gazette.

Matter intended for publication in the Supplement should reach the Press not later than Thursday.

. E. J. DEAN,

Publisher, Gasette of India.

SURVEY OF INDIA.

NOTIFICATION.

Calcutta, the 21st August, 1889.

The 19th August, 1889.
No. 3245-G.—It is hereby notified, under Section 4 of the Abu Wild Birds Protection Law. 1889, that the provisions of Section 3 of the said Act, with respect to wild birds, apply to—

Sambhur. Doe chital. Four-horned antelope. Hares.

No. 3246-G.—The following rules under Section 3 of the Abu Wild Birds Protection Law,

1889, are published for general information:—
1. The expression "wild birds" for the purposes of the Abu Wild Birds Protection Law, 1889, shall include-

Partridges of all sorts. Jungle fowl.

Spur fowl. N.B.—The Government of India having strictly prohibited the killing of pea fowl and blue pigeons in Rajputana, these birds have been omitted from this list of wild

- 2. The expression "animal of game" for the aforesaid purposes shall include the animals of game other than birds, to which the provisions of Section 3 of the Abu Wild Birds Protection Law, 1889, have been made applicable by Notification, No. 3245-G., dated 19th August, 1889, namely, sambhur, doe chital, four-horned antelope and hares.
- 3. The breeding season of wild birds, for the aforesaid purposes, shall extend from 15th March to 15th September, inclusive, in each

4. The breeding season of animals of game, for the aforesaid purposes, shall extend from 15th April to 1st October, inclusive, in each year.

5. During the breeding season, no person shall possess or sell within Abu limits, any wild bird, or animal of game, recently killed, or taken, or imported into Abu, or the plumage of any wild bird, or the fur or skin of any animal of game, which has been recently killed. Provided that this prohibition shall not extend to wild birds or animals of game, proved to the satisfaction of the Court to be possessed or to have been sold as pets.

6. Any person convicted of a breach of Rule 5 shall be punished with fine, which may extend, in case of a first offence, to R5, for every wild bird, or animal of game, in respect of which, or of the plumage, skin, or fur whereof, the breach of the rule has been committed, and in the case of a subsequent offence to R10, in respect of every such bird, or animal, or fur, skin, or plu-

mage.

7. Any person giving such information as may lead to the conviction of a breach of Rule 5 will be entitled to receive half the amount of fine levied for such offence.

By Order, E. A. FRASER, Major, First Asst. Agent to the Gour.-Genl., Rojputana.

CHIEF COMMISSIONER OF AJMERE-MERWARA.

The 19th August, 1889.

TREASURE TROVE.

NOTICE.

Whereas on or about the 10th April, 1889, at Miri, in the Newasa Taluka, of the Ahmednagar District, in the house of Dadabhai wd. Bapoobhai, the following treasure, vis.:—

One gold mohor,

Two pairs of ear-rings,

One silver tait (neck or arm ornaments), weighing 9 tolas.

One pair of silver wakis (armlets), 22 tolas,

Two wajratikas (neck ornaments),

One silver bar of 8 tolas, and

Chandore silver coins, R10,

of the approximate value of R89, was found hidden in a corner of the said house. It is hereby notified under Section 5 of the Indian Treasure Trove Act, VI of 1878, that persons

claiming the said treasure or any part thereof, should appear, either in person or by agent, at the office of the Mamlatdar of Newasa, on the 9th December, 1889, and assert their claim, if any, to the said treasure, in order that the matter may be enquired into and determined by the Mamlatdar in accordance with the provisions of the said Act.

G. WADDINGTON,

Collector of Ahmednagur.

Anmednagar, The 14th August, 1889.

NOTICE.

Under Section 5 of Act VI of 1878, notice is hereby given that on the 13th May, 1887, 25 sicca rupees, of the value of R23-15-4, were found underneath the ground of the room owned by Motiram Dossa in Bapu Dev's Pole, in Chhipwad, in the town of Dholka.

Claimants are hereby required to appear personally or by agent before the Mamlatdar of Dholka, on Saturday, the 21st December, 1889, when he will proceed to hold an enquiry according to law.

H. E. M. JAMES,

Collector of Ahmedabad.

Ahmedabad, The 17th August, 1889.

NOTICE.

Under Section 5 of Act VI of 1878, notice is hereby given that on or about the 22nd or 23rd of April, 1887, 39-8 sicca rupees, of the value at \$23-14, were found underneath the ground belonging to Koli Gond Dawa in the course of digging foundations for erecting a new building in the village of Chhabasur, Taluka Dholka.

Chaimants are hereby required to appear personally or by agent before the Mamlatdar of Dholka, on Saturday, the 21st December, 1889, when he will proceed to hold an enquiry according to law.

H. E. M. JAMES,

Collector of Ahmedabad.

AHMEDABAD. The 17th August, 1889.

NOTICE.

It is hereby notified, under Section 5 of the Indian Treasure Trove Act, VI of 1878, that on the 12th July, 1889, treasure as detailed below, valued at R410-10-9, was found buried in the bed of the tank of Peraiyur, a village in the Ariyalur Zemindari, Perambalur Taluk, Trichinopoly District:-

No. of gold coins.	Approxim	ate wei	eht.	Ap	Pro	zlmate	val	ue.	
	024	dwt.			•	R	ø,	p.

THE INDIAN LAW REPORTS.

THE INDIAN LAW REPORTS.

PUBLISHED UNDER AUTHORITY.

The Indian Law Reports, published under the authority of the Governor-General in Cooncil, appear in monthly parts, published as soon as possible after the first of each month, at Calcutta, Madras, Bombay, and Allahabad, and comprise four series,—one for the Calcutta High Court, a second for the Madras High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat, and the Madras, Hombay and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad, respectively. In supersession of the previous advertisements, on and from the 1st January, 1889, the terms of subscription and sale will be as follows for current issues as well as for back numbers of the Reports from 1870:—

the Reports from 1870 :-

Terms of subscription pavable unnually in advance.

CONDITIONS.

(To be printed on the reverse of the License Form.)

This license is granted subject to the provisions of "The Indian Arms Act, 1878," and the rules framed thereunder.

It covers only the persons and arms named therein, unless it is certified to cover retainers of the holder.

It is void after the date named therein and shall not be granted for a longer period than three years.

It extends only to the place or district named therein.

When the license covers firearms or ammunition, it is granted subject to the following conditions, and shall be void if and as soon as any of these conditions ceases to be fulfilled:

- (a) that the license-holder engages to act as a special constable, to resist dacoits whenever the village in which he lives, if he lives in a village, is attacked, and to pursue them when called upon by a competent authority: 'a competent authority' means the headman of the village in which the license-holder resides, or a civil officer not below the rank of thugyi, or a police officer not below the rank of jemadar of military police, or head constable of civil police, or any military officer in command of a party of troops;
- (b) that he shall produce his gun for inspection when called upon to do so by a thugyi, a jemadar of military police, or a head constable of civil police;
- (c) that he shall keep and produce for inspection when required half a pound of powder, fifty caps, and a proportionate quantity of bullets or buckshot;

(d) that he shall not purchase ammunition from any one but the District Superintendent of Police;

- (e) that if the license-holder lends, loses, or in any way parts with his gun, this license and, if the license-holder resides in a village, all other licenses to possess or carry firearms granted in the village in which the said license-holder resides shall be cancelled and the firearms confiscated;
- (f) this license is liable to be withdrawn at any time at the discretion of Government.

No. 1543.—His Excellency the Governor-General in Council is pleased to confer the privilege of private entrée to Government House upon Mr. David Cowie.

of cantonments regards police,conserva n c y, tax at i on and 90 forth: the second relating to i m m o veable property.
There has been ageneral concurrence of opinion in favour the provi-

sions of the first part of the Bill, while the second has provoked considerable discussion and opposition. Our present Report relates only to the first part of the Bill, for the speedy enactment of which cogent reasons exist. As regards the second part, we consider that Chapter V of the Bill as introduced in October last should, in such form as may be approved by the Government after consideration of the representations which its proposals have elicited, be treated as a separate measure and be considered by a Select Committee and the Council in Calcutta.

- 3. In the rest of the Bill as introduced we have made several alterations of which the following only need be mentioned, the sections hereafter cited being those of the Bill as revised by us and annexed to this Report :-
 - (r) By section 2 we have proposed to save existing rules for the present and to continue the validity of limits defined under cuactments which are now to be, or have long since been, repealed.
 - (2) We have inserted a section (section 4) enabling Local Governments, with the previous sanction of the Governor General in Council, to declare any place occupied by troops to be a cantonment for the purposes of the proposed Act and of all other enactments affecting cantonments.

(3) Sections 7, 8 and 32, relating to Cantonment Magistrates, Cantonment Courts of Small Causes and Cantonment Sub-Registrars, have been modified so as to meet the objections which were taken to the corresponding sections of the original Bill on the ground of their want of elasticity.

(4) The Assistant Cantonment Magistrate, in the few places where there is such an officer, either is, or, if the exercise of his office is limited to the cantonment, should be appointed to be, a Special Magistrate under section 14 of the Code of Criminal Procedure, 1882. Where he has been invested under a Cantonments Act with any of the powers of a Judge of a Cantonment Court of Small Causes, he will under sections 9 and 10 of the Bill become an Additional Judge of the Court with like powers.

(5) From section 12 we have omitted the references to section 48 of the Madras Police Act and section 31 of the Bombay Police Act because local legislation

now pending will render them inappropriate. (6) In sections 17, 18, 20 and 21 we have recognised the practice, which still obtains in some parts of India of suffering cantonments to be included within the limits of municipalities.

(7) Under section 25 it will be practicable to apply to cantonments the substance of Chapters VI and VII of the Punjab Municipal Act, 1884, which have already been adopted for all municipalities in Ajmere and Berar and have recently been reproduced in the Central Provinces Municipal Bill,

(8) By section 31 we have proposed to extend to cantonment authorities acting in good faith such protection as is given by Act XVIII of 1850 and the Indian Penal Code to judicial officers so acting.

4. The publication ordered by the Council has been made as follows:-

THE SCHEDULE .- ENACTMENTS REPEALED.

No. II.

A Bill to amend the law relating to Cantonments.

WHEREAS it is expedient to amend the law relating to cantonments; It is hereby enacted as follows:—

CHAPTER I.

PRELIMINARY.

Title, extent and called the Cantonments Act, 1889.

- (2) It extends to the whole of British India, inclusive of Upper Burma; and
- (3) It shall come into force on such day as the Governor General in Council, by notification in the Gazette of India, appoints in this behalf.
- 2. (1) On and from that day the enactments specified in the schedule are repealed to the extent mentioned in the third column thereof:
 - (2) But all orders, declarations, rules and regulations made, directions, licenses and permits given, taxes imposed and notifications published under any enactment repealed by this Act or under any enactment repealed by any enactment repealed by this Act, and all limits defined as the local limits of a cantonment with the approval of the Governor General in Council or a Local Government before the passing of this Act, shall be deemed to have been respectively made, given, imposed and published, and to have been defined, under this Act.
 - (3) Any enactment or document referring to any enactment repealed by this Act, or to any enactment repealed by any enactment repealed by this Act, or to any Regulation of the Bengal, Madras or Bombay Code respecting the fixing of the local limits of cantonments and military bazars, shall, so far as may be, be construed to refer to this Act or to the corresponding portion thereof.
 - 3. (1) In this Act and in the rules thereunder, unless there is something repugnant in the subject or context,—
 - (a) "officer" means-
 - (i) a person who, being an officer within the meaning of the Army Act, 1881, is commissioned and in pay as an officer doing military duty

- with Her Majesty's regular forces as defined in that Act or as an officer doing such duty in any arm, branch or part of those forces, and
- (ii) a person doing military duty as a warrant officer with those forces or with any arm, branch or part thereof, whether he is or is not an officer within the meaning of the Army Act, 1881:
- (b) "soldier" means a person who is a soldier of Her Majesty's regular forces within the meaning of the Army Act, 1881, and is not an officer within the meaning of this Act:
- (c) "spirituous liquor" means any fermented liquor, any wine, any alcoholic liquid obtained by distillation, and the sap of any kind of palm-tree, and includes any other liquid consisting of or containing alcohol which the Local Government, with the previous sanction of the Governor General in Council, may, by notification in the official Gazette, declare to he a spirituous liquor for the purposes of this Act:
- (d) "intoxicating drug" means opium, ganja, bhang, charas and every preparation and admixture thereof, and includes any other intoxicating substance or liquid which the Local Government, with the previous sanction of the Governor General in Council, may, by notification in the official Gazette, declare to he an intoxicating drug for the purposes of this Act: and
- (c) "owner" includes the person who is receiving or entitled to receive the rent of any building or land, whether on his own account or on behalf of himself and others or as an agent or trustee, or who would so receive the rent or be entitled to receive it if the building or land were let to a tenant.
- (2) The provisions of the General Chauses Acts, 1868 and 1887, shall, so far as they can be 1 of 186 made applicable, apply to all rules which may I of 186 be made under this Act by the Governor General in Council.

CHAPTER II.

CANTONMENTS AND CANTONMENT AUTHORI-TIES, COURTS AND POLICE.

Cantonments.

- Definition of cantonments.

 Definition of cantonments.

 Definition of cantonments.

 Definition of cantonments.

 Of Her Majesty's regular forces are quartered
 within the territories administered by such Government to be a cantonment for the purposes of
 this Act and of all other enactments for the time
 being in force, and may withdraw any such declaration.
- (2) The Local Government, with the like sanction, may also, by a like notification, define the limits of any cantonment for the like purposes.

& 45 Vict.,

(Chapter II.—Cantonments and Cantonment Authorities, Courts and Police.—Sections 5-12. Chapter III.—Spirituous Liquors and Intoxicating Drugs.—Sections 13-14.)

order from a Magistrate and without a warrant, arrest any person whom he finds committing an offence against either of the two

last foregoing sections, and may seize and detain any spirituous liquor or intoxicating drug in respect of which such an offence has been committed, and any vessels or coverings in which the liquor or drug is contained.

- (2) Where a person accused of an offence against section 13 has been previously convicted of an offence against that section, an officer in charge of a police-station may, with the written permission of a Magistrate, seize and detain any spirituous liquor or intoxicating drug within the cantonment, or within the limits prescribed under section 13, which at the time of the alleged commission of the subsequent offence belonged to, or was in the possession of, the person.
- (3) The Court convicting a person of an offence against section 13 or section 14 may order the confiscation of the whole or any part of anything seized under sub-section (1) or sub-
- (4) Subject to the provisions of Chapter XLIII of the Code of Criminal Procedure, 1882. anything seized under sub-section (1) or subsection (2) and not confiscated under sub-section (3) shall be restored to the person from whom it was taken.
- 16. The foregoing provisions of this Chapter shall not apply to the sale Saving of article sold or supply of any article or supplied for medicinfor medicinal purposes by al purposes.

a medical a medical practitioner, chemist or druggist.

CHAPTER IV.

TAXATION AND CANTONMENT FUND.

Taxation.

- 17. (1) With the previous sanction of the Governor General in Coun-General cil, the Local Government taxation. may, by notification in the official Gazette,
 - (a) impose in any cantonment which is not included in a municipality any tax which, under any enactment in force at the date of the notification, can be imposed

ries administered by such Government, and

- (b) abolish or modify any tax so imposed..
- (2) When any tax is leviable in a cantonment in pursuance of a notification under sub-section (1), the Local Government, with the like sanction, may, by a like notification, apply or adapt to the cantonment the provisions of any enactment or rules in force at the date of the notification for the assessment and recovery of any tax in any municipality within the territories administered by such Government.
- 18. (1) The Local Government may, by notification in Extension of Act XX Gazette, extend the proviof 1856 to certain cansions of Act XX of 1856 tonments. (to make better provision for the appointment and maintenance of Police Chankidars in Cities, Towns, Stations, Suburbs and Bázárs in the Presidency of Fort William in Bengal) to any cantonment which is not included in a municipality and which is situated in any part of British India in which that Act is in force, and the Cantonment Magistrate may exercise all the powers of the Magistrate under that Act, subject only to the control of the District Magistrate and the Local Government.
- (2) The Local Government may order that a cantonment to which the provisions of Act XX of 1856 have been extended shall be divided into any number of cantonment divisions, and may determine the nature of the tax to be levied in each such division according to section 10 of that Act.
- (3) The Local Government may, by notification in the official Gazette, cancel any notification under sub-section (1), and may revoke or vary any order under sub-section (2).
- 19. While a tax assessed according to the cir-Restriction of power cumstances, and the proof taxation in canton-ments in which Act XX perty to be protected, of the persons liable thereto, or of 1856 in ferce. according to the annual value of nouses and grounds, is levied under Act XX of 1856 in a cantonment, a tax on persons practising any profession or art or carrying on any trade or calling, or a tax on buildings and lands, as the case may be, shall not be imposed under section 17 of this Act in the cantonment.
- 20. (1) Notwithstanding anything in any enactment for the time being Power to prohibit or in force, the Governor General in Council may, by in exempt from taxation. notification in the Gazette of India, prohibit the levy of the whole or any part of any fax imposed in a cantonment, or exempt any person by name or in virtue of his office or any class of persons, or any property or any class of property, from the operation of any such tax, and may, by a like notification, rescind any such prohibition or exemption.
- (a) Where the area subject to the authority of a municipal committee as defined in section 2 of the Municipal Taxation Act, 1881, includes XI of the whole or part of a cantonment, nothing in section 4 or section 5 of that Act or in any other like enactment for the time being in force shall apply to so much of that area as is comprised in

(Chapter IV.—Taxation and Cantonment Fund.—Sections 21-24. Chapter V.—Supplemental Provisions.—Sections 25-26.)

Cantonment Fund.

- 21. (1) There shall be formed for every cantonment fund. ment which is not included in a municipality a cantonment fund, and there shall be placed to the credit thereof, among other sums, the following, namely:—
 - (a) subject to deductions under section 545
 of the Code of Criminal Procedure, 1882,
 or under any other enactment for the
 time being in force or under any order
 of the Local Government, all fines recovered from persons convicted of offences committed within the cantonment
 against this Act or against any enactment extended or rule made thereunder, or against the provisions of
 section 34 of Act V of 1861 or the corresponding enactment for the time being
 in force in the territories administered
 by the Governor of Fort St. George in
 Council or by the Governor of Bombay
 in Council, or against the provisions of
 Chapter XIII or Chapter XIV of the
 Indian Penal Code or of section 156 of
 the Army Act, 1881;
 - (b) the proceeds of taxes imposed under section 17 or levied under Act XX of 1856 in the cantonment; and
 - (c) rents and profits accruing from property placed by the Government under the management of the cantonment authority.
- (2) Notwithstanding anything in any enactment as to the purposes to which the proceeds of a tax are to be appropriated, the cantonment fund shall be applicable, subject to the rules under this Act, to the maintenance of the police-force employed in the cantonment and to the other purposes of this Act within the cantonment and, with the general or special sanction of the Local Government, to like objects, within or without British ludia, beyond the limits of the cantonment in cases in which, in the opinion of the Local Government, the application of the fund beyond those limits is for the benefit of the inhabitants of the cantonment or of any military force ordinarily quartered therein or of any detachment of any such force.
- 22. (1) Where, in or near a cantonment, there
 Custody of canton is a Government treasury
 ment fund. or sub-treasury or a bank
 to which the Government treasury business has
 been made over, the cantonment fund shall be
 kept in the treasury, sub-treasury or bank.
- (2) Where there is no such treasury, subtreasury or bank, the cantonment fund may be deposited with any banker or person acting as a banker who has given such security for the safe custody and repayment on demand of the fund so deposited as the District Magistrate may in each case think sufficient.
 - Vesting and man. Her Majesty, and, subject to the provisions of this fund. Act and of the rules therement, the management of the fund shall be entrusted to the cantonment authority.

24. The cantonment fund shall be deemed Acquisition of im. to be "public revenues" moveable property at within the meaning of the cost of cantonment fund. proviso to section 6 of the Land-acquisition Act, 1870, and any property X of 1870. acquired at the cost of the cantonment fund shall vest in Her Majesty.

CHAPTER V.

SUPPLEMENTAL PROVISIONS.

- 25. The Governor General in Council may, by Extension of chact-ments to cantonments. of India, extend to all cantonments or to any cantonment or to any part of any cantonment any enactment for the time being in force in any municipality in British India, and declare its extension to be subject to such restrictions and modifications, if any, as he thinks fit.
- 26. The Governor General in Council may make rules consistent with this Act to provide for all er any of the following matters, namely:—
 - (1) the manner in which, and the authority to which, application for permission to occupy land belonging to the Government in a cantonment is to be made;
 - (2) the conditions to be annexed to every such permission given in pursuance of such an application;
 - (3) the preparation and maintenance of registers of immoveable property in cantonments;
 - (4) the constitution of cantonment committees, the functions to be discharged by them, the conduct of, and the control to be exercised over, their proceedings, and the division of duties among the members of such committees;
 - (5) the functions to be discharged by the commanding officer of a cantonment where a cantonment committee has not been constituted, or has in pursuance of an order of the Local Government ceased to exist, or for any reason cannot be convened;
 - (6) the executive duties of the Cantonment Magistrate and his position in relation to the commanding officer of the cantonment;
 - (7) the purposes to which the cantonment fund may be applied;
 - (8) the authority on which money may be paid from the cantonment fund;
 - (9) the investment of any balance of that fund:
 - (10) the execution of contracts by, or on behalf of, the cantonment authority;
 - (11) the accounts to be kept by the cantonment authority, and the manner in which those accounts are to be audited and published;
 - (12) the definition and abatement of nuisances for which sufficient provision has not, in the opinion of the Governor General in Council, been made under section 25;

(Chapter V.-Supplemental Provisions-Sections 27-28.)

- (13) the requisitions which may be made on persons having the control of sewers, drains, latrines or other things creating, or likely to create, nuisances, and the mode of enforcing such requisitions;
- (14) the prevention of the overcrowding of buildings and places in a cantonment;
- (15) the construction and maintenance, to the satisfaction of the cantonment authority, of buildings and of boundary-walls, hedges and other fences;
- (16) the regulation of the practice of agriculture and irrigation in a cantonment, the keeping of lands therein in proper order, and the felling, lopping and trimming of trees on such lands;
- (27) the regulation of encamping-grounds, saráis, markets and slaughter-houses, of traffic on roads, and of processions and public assemblies;
- (18) the use and management of burial and burning grounds;
- (19) the supervision and the regulation of the use of public wells, tanks, rivers, streams, springs or other sources from which water is or may be made available for public use, and of the lands in the vicinity thereof;
- (20) the parts of a cantonment in which persons practising any profession or carrying on any trade, calling or occupation may be required to reside for the purpose of practising the profession or carrying on the trade, calling or occupation, and the conditions, if any, to be observed by such persons;
- (a1) the segregation in, or the removal and exclusion from, a cantonment of persons suffering or suspected to be suffering from any infectious or contagious disorder, and the appointment and regulation of hospitals or other places within or without the cantonment for the reception and treatment of persons suffering from any disease;
 - (22) the segregation in, or the removal and exclusion from, a cantonment, or the destruction, of animals suffering or suspected to be suffering from any infectious or contagious disease;
 - (23) the suppression of mendicancy and of loitering or importuning for the purpose of prostitution, and the removal and exclusion from a cantonment of disorderly persons, of persons who have been convicted of any offence against Chapter XVII of the Indian Penal Code or section 156 of the Army Act, 1881, or have been ordered under the Code of Criminal Procedure, 1882, to execute a bond for their good behaviour, and of persons whom the commanding officer deems it expedient to exclude from the cantonment with or without assigning any reason for excluding them therefrom;
 - (24) the prevention of cruelty to animals and the care of animals while grazing;
 - (25) the prevention and extinction of fires;
 - (96) the registration of births and deaths;

- (27) the appointment by owners of buildings and lands in cantonments, who are absent from cantonments, of persons residing within or near cantonments to act as their agents for all or any of the purposes of this Act or any enactment extended or rule made thereunder;
- (28) the powers of inspection, entry and search which may be exercised in carrying out any of those purposes, and the cases in which breaches of enactments extended under section 25 or of rules made under this section are to be cognizable offences;
- (39) the mode in which summonses, notices, requisitions and other documents are to be served on the persons to whom they are addressed;
- (30) the cases, authorities and conditions in, to and on which executive orders passed under this Act or any enactment extended or rule made thereunder may be appealed from; and,
- (31) generally, the carrying out of the purposes of this Act.
- Supplemental provisions respecting rules. last foregoing section is subject to the condition of the rules being made after previous publication and of their not taking effect until they have been published in the Gazette of India and in such other manner as the Governor General in Council prescribes.
- (2) A rule under the last foregoing section may be general for all cantonments in British India or for all cantonments not expressly excepted from its operation, or may be special for the whole or any part of any one or more than one cantonment, as the Governor General in Council directs.
- (3) A copy of the rules for the time being in force in a cantonment shall be kept open to inspection free of charge at all reasonable times in the office of the Cantonment Magistrate.
- (4) In making any rule under clause (12) or any of the following clauses of the last foregoing section, the Governor General in Council may direct that a breach of it shall be punished with fine which may extend to fifty rupees, or with imprisonment for a term which may extend to eight days, and, when the breach is a continuing breach, with fine which, in addition to such fine or imprisonment as aforesaid, may extend to five rupees for every day after the first during which the breach continues.
- Extension of certain tion in the official Gazette, rules to places beyond extend to any area beyond the cantonment and in the vicinity thereof any of the rules in force in the cantonment under clause (12) or any of the following clauses of section 26, and any of the directions in force therein under subsection (4) of the last foregoing section, and the rules and directions specified in the notification shall, so long as the notification remains uncancelled, apply to that area as if the area were included in the cantonment.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Bill was introduced into the Council of the Governor-General of India for the purpose of making Laws and Regulations on the 28th August, 1889:

No. 11 of 1889.

A Bill to amend Acts XVII of 1864, X of 1865, II of 1874 and V of 1881.

Whereas it is expedient to amend Act XVII of 1864 (un Act to constitute an Office of Official Trustee) the Indian Succession Act, 1865, the Administrator General's Act, 1874. and the Probate and Administration Act, 1881; It is hereby enacted as follows:--

Act XVII of 1864.

I. In section r of Act XVII of 1864 the Addition to section 1, following shall be inserted to the telephone the definition of the Act XVII, 1864. expression "High Court", namely:-

"The word 'Government' shall mean, in relation to the Presidency "Government." of Fort William in Bengal, the Governor General in Canneil; in relation to the Presidency of Fort St. George, the Governor of Fort St. George in Council; and, in relation to the Presidency of Bombay, the Governor of Bombay in Council:".

- 2. For section 5 of the said Act the follow-Substitution of new ing shall be substituted, section for section 5. namely:-
- "5. Every Official Trustee appointed under this Act shall be appointed Appointment, suspen-on and removal of and may be suspended or removed from his office by the Government." Official Trustees.
- 3. In section 6 of the said Act, for the words Amendment of sec. "Chief Justice by whom he tion 6, Act XVII, 1864. is appointed" the word "Government" shall be substituted.
- 4. For the portion of section 7 of the said Act beginning with the words Amendment of sec-"It shall be lawful for the tion 7, Act XVII, 1864. Chief Justice of the High Court" and ending with the words "it shall be lawful for the Chief Justice to appoint some

person to officiate as Official Trustee" the following shall be substituted, namely:-

"It shall be lawful for the Government from time to time to grant leave of absence to the Official Trustee, but subject always to such and the like rules as may be for the time being in force as to leave of absence of officers attached to the High Court. Whenever any Official Trustee shall obtain leave of absence, it shall be lawful for the Government to appoint some person to officiate as Official Trustee,".

5. Every person holding the office of Official Trustee at the commence-Official Trustees holding office at com-mencement of this Act. ment of this Act shall he deemed to have been appointed under Act XVII of

1864 as amended by this Act.

The Indian Succession Act, 1865.

6. After section 326 of the Indian Succession Act, 1865, the following X of 1865, section shall be inserted, Addition of new section after section 326, Act X, 1865. namely:--

Transfer of assets from British India to executor or adminis-trator in country of domicile for distribu-

"326A. Where a person not having his domicile in British India has died leaving assets both in British India and in the country in which he had his domicile at the time of his death, and there has

been a grant of probate or letters of administration in British India with respect to the assets there and in the country of domicile with respect to the assets in that country, the executor or administrator, as the case may be, in British India, after having given such notices as are mentioned in section 320 and discharged, at the expiration of the time therein named, such lawful claims as he knows of, may, instead of himself distributing any surplus or residue of the deceased's property to persons residing out of British India who are entitled thereto, transfer, with the consent of the executor or administrator, as the case may be, in the country of domicile, the surplus or residue to him for distribution to those persons."

The Administrator-General's Act, 1874.

7. In clause (b) of the definition of the expression "Presidency of Bengal" in section 3 of the Ad-Amendment of definition of "Presidency of Bengal" in section ministrator-General's Act, II of 1874 3, Act II, 1874. 1874, the words "Burma, British Baluchistan" shall be substituted for the words "British Burma".

IX of 1881.

8. (1) For the first paragraph of section 37
Substitution of new of the said Act, as amend-Substitution of new ed by section 5 of the paragraph for first paragraph of s Act II, 1874. of section 37. Administrator General's · Act, 1881, beginning with the words "If in cases falling within section 36" and ending with the words "as if such letters had been granted to him", the following shall be substituted, namely :-

"If, in cases falling within section 36, no person claiming otherwise than as a creditor to be entitled to a share of the effects of the deceased obtains, within three months, a certificate from the Administrator General un-der the same section, or letters of administration to the estate and effects of the deceased, and such deceased was not a Hindu, Muhammadan, Parsi or Buddhist, or exempted under the Indian Succession Act, 1865, section 332, from the operation of that Act, the Administrator General may administer the estate and effects without letters of administration, in the same manner as if such letters had been granted to him; ".

1X of 1881.

X of 1865.

- (2) The portion of section 5 of the Administrator General's Act, 1881, beginning with the words "and in section 37 of the same Act " and ending with the words "from the operation of that Act" is hereby repealed.
- 9. After section 41 of the said Act the fol-Addition of new section shall be intion after section 4), screed, namely:—
 Act II, 1874.

Transfer of certain assets from British India to executor or administrator in country of domicile for distribution.

"41A. Where a person not having his domicile in British India has died leaving assets both in British India and in the country in which he had his domicile at the time of his death, and proceedings for ! the administration of his

estate with respect to assets in British India have been taken intder section 36 or section 37, and there has been a grant of probate or letters of administration in the country of domicile with respect to the assets in that country, the holder of the certificat granted under section 36 or section 37, or the Administrator General, as the case may be, after having given such notices: as the High Court may by any general rule to be made from time to time prescribe, for creditors and others to send in to him their claims against a the estate of the decease tundhaving discharged, at the expiration of the time therein named. such lawful claims as he knows of, may, instead of himself distributing any surplus or residue. of the deceased's property to persons residing out of British India who are entitled thereto, transfer, with the consent of the executor or administrator, as the case may be, in the country of domicile, the sorplus or residue to him for distribution to those persons."

Addition to Act II, 1874, of a Part respect-ing the division of the Presidency of Bengal into Provinces.

10. To the said Act, after Part VI and section 66 thereof, the following shall be added, namely:

"PART VII.

DIVISION OF THE PRESIDENCY OF BENGAL INTO PROVINCES.

67. (1) Notwithstanding anything in the Division of the Predency of Bengal into Act, the Governor-General sidency of Bengal into Provinces. in Council, upon the occur-

rence of any vacancy in the office of the Administrator General of Bengal, may, by notification in the Gazette of India,-

- (a) divide the Presidency of Bengal, as defined in this Act, into so many Provinces as he thinks fit,
- (b) define the limits of each of those Provinces, and
- (c) appoint an Administrator General for each Province,

and, subject to the provisions of this section, the following consequences shall thereupon ensue, namely :-

- (i) the office of Administrator General of Bengal shall cease to exist:
- (ii) the Administrator General of a Province shall have the like rights and privileges, and perform the like duties, in the territories and dominion's included in the Province as the Administrator General of Bengal had and performed as Administrator General therein :
- (iii) the functions of the Government under this Act shall, as regards the territories and deminions included in a Province, be discharged by the Governer-General in Council:
- (iv) the functions of whatsoever kind assigned by the foregoing provisions of this Act to the High Court at Calcutta in respect of the territories and dominions included in a Province shall be discharged by such High Court as the Governor-General in Council way, by notification in the Gazette of India, appoint in this behalf, and probate or letters of administration granted to the Administrator General of the Province by the High Court so appointed shall have the same effect throughout th 1r sidency of Bengal, as defined in this Act, or, if the Court so directs, throughout British India, as, but for the abolition of the office of Administrator General of Bengal, probate or letters of administration granted to the holder of that office by the High Court at Calcutta would have
- (v) in the foregoing provisions of this Act the word Presidency' shall be deems d to include a Province, the ex-Presidency-town pression place of sitting of a High Court appointed by the Governor-General in Council under clause (iv) of this subsection, and the expression 'Advo-cate General' a Government Advo-cate or other officer appointed by the Government to discharge for a Province the functions under this Act of an Advocate General for a Presidency:
- (vi) the provisions of this Act with respect to the commission of the Administrator General of Bengal shall regulate the commission payable to the Administrator General of a Province:

- (vii) generally, the provisions of the foregoing sections of this Act with respect to the High Court at Calcutta,
 and the provisions of those sections
 or of any other enactment with respect to the Administrator General of
 Bengal, shall, in relation to a Province,
 be construed, so far as may be, to
 apply to the High Court and Administrator General, respectively, appointed for the Province under this
 section.
- (2) Any proceeding which was commenced before the publication of the notification dividing the Presidency of Bengal into Provinces and to or in which the Administrator General of Bengal in his representative character was a party or was otherwise concerned shall be continued as if the notification had not been published, and the Administrator General of the Province in which the town of Calcutta is comprised shall for the purposes of the proceeding be deemed to be the successor in office of the Administrator General of Bengal.
- (3) The Court of the Recorder of Rangoon shall be deemed to be a High Court for the purposes of clause (iv) of sub-section (1).
- (4) Notwithstanding any division of the residency of Bengal, as defined in this Act, into Provinces under this section, the Administrator General of the Province in which to him for distribution to those persons.

the town of Calcutta is comprised shall be deemed to be the Administrator General for the whole of the said Presidency for the purposes of the Regimental Debts Act, 1863."

26 & 27 Vict., c. 57.

The Probate and Administration Act, 1881.

Addition of new section 145 of the Probate and Administration Act, 1881, the V of 1881.

Act V, 1881.

following section shall be inserted, namely:—

"145A. Where a Transfer of assets from British India to

executor or administra-

tor in country of domicile for distribution. person not having his domicile in British India has died leaving assets both in British India and in the country in which he had his domicile at the time of

his death, and there has been a grant of probate or letters of administration in British India with respect to the assets there and in the country of domicile with respect to the assets in that country, the executor or administrator, as the case may be, in British India, after having given such notices as are mentioned in section 139 and discharged, at the expiration of the time therein named, such lawful claims as he knows of, may, instead of himself distributing any surplus or residue of the deceased's property to persons residing out of British India who are entitled thereto, transfer, with the consent of the executor or administrator, as the case may be, in the country of domicile, the surplus or residue to him for distribution to those persons."

STATEMENT OF OBJECTS AND REASONS.

THE main object of this Bill (section 10) is to provide for the division, upon the occurrence of a vacancy in the office of Administrator General of Bengal, of the present unwieldy Presidency of Bengal, as defined in the Administrator General's Act, 1874, into Provinces having Calcutta, Allahabad, Lahore and Rangoon as their respective centres.

- 2. Another object (sections 1 to 5), which has been approved by the Hon'ble the Chief Justices of the Calcutta, Madras and Bombay High Courts, is to enable the Government, as occasion occurs, to combine the office of Official Trustee with that of Administrator General at Calcutta, Madras and Bombay.
- 3. Another object of the Bill (section 7) is to provide for the administration of estates in Upper Burma and British Baluchistan by an Administrator General.
- 4. A further object (section 8) is to remove an ambiguity in the expression of section 5 of the Administrator General's Act, 1881.
- 5. Lastly, it not infrequently happens that a person not having his domicile in British India dies leaving assets both in British India and in the country of his domicile, his estate being administered by one executor or administrator in British India and by another in the country of domicile, and it has been held by very high authority that a receipt given by the executor or administrator in the country of domicile to the executor or administrator in British India for the surplus or residue of the estate in British India is not a valid discharge to the executor or administrator in British India. An object of the Bill (sections 6, 9 and 11) is to declare that such a receipt shall, subject to conditions, be a valid discharge.

The 26th August, 1889.

ANDREW R. SCOBLE.

S. HARVEY JAMES,

Secretary to the Government of India.

GOVERNMENT OF INDIA. LEGISLATIVE DEPARTMENT.

The following Bill was introduced into the Council of the Governor-General of India for the purpose of making Laws and Regulations on the 28th August, 1889:

No. 12 OF 1889.

A Bill to amend the Indian Merchandise Marks Act, 1889.

WHEREAS it is expedient to enable Local Governments to permit piece-goods to be imported at any time before the first day of November, 1889, without having their length stamped thereon in standard yards, or in standard

yards and a fraction of such a yard; It is hereby enacted as follows:—

Power for Local Government may in its disposer for Local Government to temporarily suspend operation of section 18, Act VII, 1878, as regards piece-goods.

by section 10, sub-section (2), of the Indian Merchandise Marks Act, 1889, shall, as regards IV of 1889. any piece-goods mentioned in the declaration, be deemed to be in abeyance up to, and inclusive of, the thirty-first day of October, 1889.

(2) The Local Government may delegate to a Chief Customs-officer or other officer appointed by it in this behalf the power conferred upon it by sub-section (1).

STATEMENT OF OBJECTS AND REASONS.

THE Calcutta, Madras, Rangoon and Karáchi Chambers of Commerce having represented that the first day of August, 1889, has proved to be an inconveniently early date for the enforcement of the prohibition of the bringing into British India of such piece-goods as are described in clause (f) of section 18 of the Sea Customs Act, 1878, as amended by the Indian Merchandise Marks Act, 1889, the Governor-General in Council proposes to authorise Local Governments to permit the prohibition to remain in abeyance in special cases up to, and inclusive of, the thirty-first day of October, 1889.

The 28th August, 1889.

PART VI.

ABSTRACT OF THE PROCEEDINGS OF THE COUNCIL OF THE GOVERNOR GENERAL OF INDIA, ASSEMBLED FOR THE PURPOSE OF MAKING LAWS AND REGULATIONS UNDER THE PROVISIONS OF THE ACT OF PARLIAMENT 24 & 25 VICT., CAP. 67.

The Council met at Viceregal Lodge, Simla, on Wednesday, the 28th August, 1889.

PRESENT:

His Excellency the Viceroy and Governor General of India, G.C.M.G., G.M.S.I., G.M.I.E., presiding.

His Excellency the Commander-in-Chief, Bart., v.c., G.C.B., G.C.I.E., R.A.

The Hon'ble Licutenant-General G. T. Chesney, C.B., C.S.I., C.I.E., R.E.

The Hon'ble A. R. Scoble, Q.C., C.S.I.

The Hon'ble Sir C. A. Elliott, K.C.S.I.

The Hon'ble P. P. Hutchins, C.S.t.

The Hon'ble Sir D. M. Barbour, K.C.S.I.

The Hon'ble Muhammad Ali Khan.

The Hon'ble Bábá Khem Singh Bedi, C.I.E.

ACT XXXVI OF 1858 AMENDMENT BILL.

The Hon'ble MR. HUTCHINS moved that the Bill to amend Act XXXVI of 1858 (Lunatic Asylums) be referred to a Select Committee consisting of the Hon'ble Mr. Scoble, the Hon'ble Bábá Khem Singh Bedi and the Mover, with instructions to report within two months.

The Motion was put and agreed to.

ACTS XVII OF 1864, X OF 1865, II OF 1874 AND V OF 1881 AMENDMENT BILL.

The Hon'ble Mr. Scoble moved for leave to introduce a Bill to amend Acts XVII of 1864 (Official Trustee), X of 1865 (Indian Succession), II of 1874 (Administrator General) and V of 1881 (Probate and Administration). He said:—

"This Bill deals mainly with the office of Administrator General of Bengal, and its principal provisions will only come into effect upon the occurrence of a vacancy in that office.

- "Under Act II of 1874, an Administrator General was constituted for the Presidency of Bengal, which, for the purposes of the Act, was declared to include—
 - (1) the territories for the time being respectively under the governments of the Lieutenant-Governors of Bengal, the North-Western Provinces and the Punjab;
 - (2) the territories for the time being respectively under the administrations of the Chief Commissioners of Oudh, the Central Provinces, British Burma, Ajmere and Merwara, Assam, and the Andaman and Nicobar Islands;
 - (3) such of the dominions of Princes and States in India in alliance with Her Majesty as the Governor General of India in Council might, by notification in the Gazette of India, from time to time direct.

"This definition seems comprehensive enough, but in practice it has not proved so. The addition of other territories to the Indian dominions of the British Crown is not provided for, and the object of section 7 of the Bill is accordingly temporarily to extend the operations of the Administrator General of Bengal to Upper Burma and to British Baluchistan.

"But while the definition is not wide enough in this sense, it seems to the Government of India to be too wide on other grounds. It is greatly to the credit of the present occupant of the post that he has been able to discharge its widespread duties not only without complaint but to the satisfaction of those with whom he has had to deal. So long as he retains his office it is not proposed to make any change in his field of action. But it is clear that he must work to a great extent by deputy; and it has been well pointed out by a high authority that it is very desirable that the responsible officer should be himself the real person who exercises effective control over the estates in his charge, and not merely the head of a routine office, leaving all or most of the practical power in the hands of local subordinates.' To secure this object, an alteration of the law is necessary, and section 10 of the Bill empowers the Governor General in Council, upon the occurrence of a vacancy in the office of Administrator General of Bengal, to divide the unwieldy Presidency now under his charge into Provinces having Calcutta, Allahabad, Lahore and Rangoon as their respective centres and appoint a separate officer for each Province. This. division will carry with it the further convenience of permitting applications for administration to be made to the local High Courts, and thus, it is hoped, saving expense and trouble to the parties interested.

"It is not proposed to make any change in the qualification for the office, to which, as at present, members of the English or Irish Bar, or of the Faculty of Advocates in Scotland, will continue to be appointed; and it is believed that the emoluments of the post in the newly constituted Provinces will be about equivalent to those which attach to the corresponding appointments in Madras and Bombay, and sufficient to attract the services of men of equal ability to the present incumbents. The researches of the Finance Committee disclosed the fact that in the years 1883-85 the Administrator General of Bengal derived an average annual income of Rs. 65.553 from his office; in later years it has been even greater. In Madras and Bombay, though the fees amount to only about one-fourth of this sum, thoroughly competent officers are In both the last-named Presidencies, however, the Administrator General also holds the appointment of Official Trustee under Act XVII of 1864. This is permitted by section 9 of the Administrator General's Act, and it seems desirable that the two offices, wherever they exist, should, as a rule, be amalga-The Bombay Government reports 'the post of Official Trustee has for some years been held in this Presidency with that of Administrator General and the duties efficiently performed by a barrister, who also practises at the Bar.' A similar arrangement was proposed in Madras by Sir Charles Turner in 1878, and the two offices are now held in that Presidency by one and the same person. The only difficulty in the way of securing this combination generally lay in the fact that one appointment was in the gift of Government, and the other in that of the Chief Justices of the High Courts at the Presidencies. This difficulty has been overcome by the surrender by the Chief Justices of their patronage-a

surrender for which I here desire to tender them the acknowledgments of the Government of India; and sections 1 to 5 of the Bill are framed to carry out the arrangement which has been thus satisfactorily effected.

"Section 8 is merely to correct an ambiguity in section 5 of Act IX of 1881, which I am sorry to say has led to some misprinting of the statute-book.

"A more important and quite independent matter is that dealt with by sections 6, 9 and 11 of the Bill. It not unfrequently happens that a person not having his domicile in British India dies leaving assets both in British India and in the country of his domicile, his estate being administered by one executor or administrator in British India and by another in the country of domicile. It has been held by very high authority that in such cases a receipt given by the executor or administrator in the country of domicile is not a valid discharge to the executor or administrator in British India for any residue or surplus of the Indian estate which he may desire to remit for distribution among those entitled thereto outside British India, but that he must himself distribute the assets in question among them. This is a very inconvenient and expensive process, which, in the case of small estates, is almost prohibitive; and the Bill therefore proposes to legalize, on certain conditions, the transfer of surplus Indian assets to the duly authorized representative of the estate in the country of domicile, if he is willing to receive and distribute them. The many small estates which pass through the hands of the Administrators General will derive special advantage from this relaxation of the existing law in their favour."

The Motion was put and agreed to.

The Hon'ble MR. SCOBLE also introduced the Bill.

The Hon'ble MR. SCOBLE also moved that the Bill and Statement of Objects and Reasons be published in the Gazette of India in English, and in the local official Gazettes in English and in such other languages as the Local Governments think fit.

The Motion was put and agreed to.

MERCHANDISE MARKS BILL.

The Hon'ble MR. SCOBLE also moved for leave to introduce a Bill to amend the Indian Merchandise Marks Act, 1889. He said:—

"One of the provisions in that Act requires that piece-goods imported into British India should have stamped upon them the number of yards and fractions of a yard contained in each piece, and, in order to save shipments on the way or under order, a clause was introduced into the Bill by which the time within which goods not so stamped might be passed through the custom-houses of British India was extended to the 1st August, 1889. That date was not the date originally fixed by Government, but i' was settled by the Select Committee, chiefly at the instance of the mercantile members of that Committee; and it was then considered by them, and by the Committee generally, that the time thus allowed would be ainple. Representations have, however, been made by the Chambers of Commerce of Calcutta, Madras, Rangoon and Karáchi that the time has not proved sufficient, although, as far as Bombay is concerned, it has been found to be ample. There may be circumstances attaching to the importation of goods into the other ports that do not attach to Bombay; and I therefore ask Your Excellency's permission to move for leave to introduce a Bill to amend the Act in that respect by giving Local Governments power, on their being satisfied of the propriety of the action, to extend the time to any period up to the 1st November of this year."

The Motion was put and agreed to.

The Hon'ble MR. Scoble then introduced the Bill and said that at the next meeting of the Council, which, with His Excellency's permission, he would ask to fix for next week, he would move that the Bill be taken into consideration.

The Council adjourned to Wednesday, the 4th September, 1889.

S. HARVEY JAMES,

GOVERNMENT OF INDIA.

REVENUE AND AGRICULTURAL DEPARTMENT.

WEATHER SUMMARY FOR JULY 1889.

General Weather conditions of the month.—The south-west monsoon current is usually fully established before the end of the month of June, and generally prevails with great steadiness during the whole of July. It is hence a month of frequent, and in some districts of almost constant, rainfall and of comparative uniformity of temperature and great humidity over the greater part of the country. The only area in which the rainfall is small in amount and hot weather conditions continue to prevail are Sind, North-West Rajputana, and the West Punjab.

The distribution of rainfall during the month depends largely upon the relative strengths of the two branches of the monsoon current. The Bombay branch advances usually in an easterly direction across the Peninsula, and in a north-casterly direction across Central India and Rajputana towards the Punjab. The Bay of Bengal branch of the current, which is at the head of the Bay of less volume and extent than the Bombay branch when it enters India, is deflected westwards up the Gangetic Valley and is strongest near the hills. Between the two areas in which these currents exclusively prevail is a long trough-like belt of country which forms a kind of debatable ground in which there is much interaction between the currents. This is one of the most conspicuous features of the meteorology of the month. In this belt pressure is somewhat lower than it is either to north or south, so that it forms a trough of low pressure which usually stretches from Upper Sind to Chutia Nagpur or Orissa. In it winds are, as might be expected, very variable, and the small cyclonic storms of the month which form in the Bay almost invariably advance along this trough. The position of the trough will evidently depend upon the relative strengths of the two branches of the monsoon current. When the Bombay current is strong and the Bengal current weak (as has been the case during the past month), it will evidently be (as it were) thrust further north and occupy a position much nearer the hills than usual. The average position of the trough of low pressure is hence important as an indicator of the relative strengths of the two branches of the monsoon current.

Another very important feature of the meteorology of the month is the small cyclonic sterms which form either in the Bay of Bengal or Bengal at brief intervals during the month. They usually advance in a west-north-west or west direction along the trough of low pressure. As they draw away the aqueous vapour from other districts and discharge it as rain over the districts they traverse, they tend to make the rainfall distribution of the month more irregular than it would otherwise be in Northern India. On the other hand, the general indraught causes a strong advance of humid winds for some days across the Bengal Coast. Hence they are always followed by more or less general rain over a large part of Northern India.

Barometric depressions and evelonic storms of the month.—These were on the whole feebler and less frequent than is usual in July. There were in all three important depressions—the first land-formed, and the remaining two generated near the head of the Bay.

(1) Land-formed storm of the 1st to 6th July.—This was formed in Central Bengal on the evening of the 1st, and covered the Sonthal Pergunnahs and neighbouring districts on the morning of the 2nd. It marched westwards across Chutia Nagpur on the 3rd, the northern districts of the Central Provinces on the 4th, and through South Rajputana and Central India on the 5th, and filled up during the day. It gave a moderately heavy burst of rain to the districts through which it passed. For example, Hazaribagh received 3.74 inches on the 3rd and Jubbulpore 7.45 inches on the 4th.

(2) Depression and cyclonic storm of 13th to 22nd July .- A small depression began to form in the north-west angle of the Bay on the 12th. It remained almost unchanged in position and without developing further until the 17th. The barometer began to rise on the evening of the 17th, and the depression appeared to be filling up and moving westward on the 18th, on which day a very shallow depression extended from the Orissa Coast across the Central Provinces to Jubbulpore and Saugor. On the evening of the 18th the barometer fell rather rapidly in the north-west angle of the Bay, and a small but deepish depression lay between False Point and Saugor Island on the morning of the 19th. The storm centre crossed the coast early on the morning of the 20th between Saugor Island and Balasore, and passed rapidly across Chutia Nagpur during the day. The depression covered South Behar and the eastern districts of the North-Western · Provinces on the 21st. It advanced very slowly to the north-west during the day, and filled up on the 22nd in the eastern districts of the North-Western This storm gave a heavy burst of rain to Bengal, Chutia Nagpur, . Provinces. Behar, and the eastern districts of the North-Western Provinces. 9'55 inches were registered at Motihari on the 26th for the preceding twenty-four hours, and 9 inches at Pupri in the Muzaffarpur district on the 25th, and falls of 5 inches and upwards were registered at a large number of stations during the storm.

Depression of the 27th to the 30th July.—This was a very shallow depression, which apparently formed at the head of the Bay on the 26th and drifted slowly across Chutia Nagpur and the north-eastern districts of the Central Provinces on the 28th and 29th. On the morning of the 30th it was in the eastern districts of the North-Western Provinces, and was then a diffused disturbance of slight importance. It filled up during the next twenty-four hours. This storm gave a moderate burst of rain to Orissa, Chu ia Nagpur, and South Behar, and was immediately followed by very heavy rain in North Bengal on the 29th and 30th.

Pressure.—The chief barometric movements of the month occurred in connection with the storms described above. The following table gives the chief oscillations of the range of pressure or barometric differences between Southern and Upper India during the month, which are related to fluctuations in the general strength of the monsoon current blowing into India at this time:

		Dat	re.				Highest Pressure in Southern India or Ceylon.	Lowest Pressure in Upper India.	Range of Pressure or Total Gradient over India.
2nd .	,						29.85	29'40	·45
4th .	•					. }	29.84	29:55	. '29
7th .							29.82	29:36	46
12th .							29.83	29'54	.29
19th.	•		,				29.81	29.28	.53
22nd.	٠.			•	•	.	29.81	29'42	-38
24th .	•						29.83	29,54	.59
29th .					•		29 ^{.5} 0	29 :50	.30

These figures show that the variations in the total gradient are almost entirely due to the oscillatory pressure changes in Upper India.

The mean pressure of the month for the whole of India was almost identical with the normal, differing only by +'004".

The following table gives the barometric anomalies or local pressure variations in different parts of the country and those of the month of June for comparison:

								BAROMETRIC	Anomaly.
	1	Provi m	Month of June 1889.	Month of July 1889.					
Burmah .		•	•			•	•	+.011	+ .004
Bengal .		•	•	•	•			+ .008	+ .017
Assam .		•						+.019	+.019
Behar and Chu	tia Na	agpur	•		•	•		+.006	+.019
North-West Pr	ovinc	es	•		•			+ .003	+ '015
Punjab .		•		•		•	1	 ⁺016	 '004
Sind and Rajpu	itana				•			013	+.002
Central India	•	•		•	•			'001	+ '012
Central Province	cs			•				004	+ .002
Bombay .	•							001	- -025
Madras .				•				'002	026

This table shows that the same general relation held in July between the anomalies in Northern and Southern India as in the preceding month. The most important change is the large increase in the negative anomalies of Bombay and Madras, directly related to the heavy rain in the Carnatic.

and Madras, directly related to the heavy rain in the Carnatic.

Temperature.—The temperature conditions were, as usual in July, mainly determined by the distribution of rainfall. The hottest parts of India were Upper Sind and the West Punjab and the southern districts of Madras, including Madura, Trichinopoly, and Tinnevelly. The fourth week of the month was the hottest in both these areas. The following gives the highest temperatures recorded during the month at stations in these areas:

Jacobabad				. 116.1° on the 24th.
Mustan .	•	•		. 112'3° ,, 6th.
Dera Ismail Khan		•	•	. 112 5° ,, 16th.
Madura	•	•	•	. 103.5° ,, 22nd.
Trichinanoly				. 102 10 , 10th and 22nd.

The variation of the mean temperature from the normal from week to week and for the whole month is shown for different districts in the different divisions:

, , , , , , , , , , , , , , , , , , ,	Difference (OF MEAN TEMP WEEK END	RATURE FROM	Normal for	Difference of Mean Temperature
Province.	8th	15th	2284	zyth	from the Normal for the Month.

Madras	+0.1	0'4	-o·6	-0.1	-0.5

This table shows that the mean temperature of the month was considerably above the average in the Central Provinces and Berar (19°), Sind, Rajputana, and

Burma (1.6°), in which districts the rainfall was below the normal. The variations in other districts were small.

Ram.—The month has been characterised by a smaller number of storms than usual and by the prevalence of a steady and strong monsoon, more especially on the West Coast. Hence the rainfall of the past month was more uniformly distributed than usual. During the first week of the month the rainfall was scattered in North-Western India and Madras, but was general in all other districts, and occurred almost daily in all, districts. In the second week rain fell very steadily in Western and Central India due to the Bombay current. It also fell generally in Northern India until the 11th, when it was confined to Bengal and the North-Western Provinces. On the 14th it ceased almost entirely in Northern India and a partial break followed until the 20th, when a storm which had formed in the north-west angle of the Bay crossed the Coast and carried heavy general rain with it over Northern India.

During the last week of the month heavy rain fell over the whole of Northern India, except the Punjab. It was especially heavy in Bengal. On the other hand, the Bombay current fell off in strength and the rainfall diminished greatly in amount in Rajputana, Central India, the Central Provinces, as well as Western India and the Deccan. The rainfall of this period was unusually heavy in the

hill districts, and more especially at Mussoorie and Naim Tal.

In consequence of the favourable conditions, the rainfall of the month was above the average over the greater part of India. The excess was generally moderate in amount. It was above the average over the whole of Northern India, including the Punjab, North-Western Provinces, Behar, North Bengal, Assam, and Orissa. The only area in which the excess was large was North Bengal, and this was chiefly due to the heavy rainfall of the fourth week of the month. There was a moderate deficiency in Lower Bengal, averaging 25 per cent. of the normal.

The Western Coast districts and the Deccan and Carnatic have received normal or abundant rainfall. Mysore, Bellary, and the Carnatic obtained more than double the normal amount. There was a moderate excess in the Konkan

and a large excess of nearly 30 per cent, in Guzerat,

The rainfall of the month was in moderate deficiency in Sind, Cutch, Berar, and Khandeish, and largely in defect in the southern districts of the Central Provinces and in Rajputant and Central India. In these areas the deficiency ranged from 30 to 40 per cent. It was also about 20 per cent, below the average in Lower Barmah.

Some heavy rainfalls were received during the storms described above, but as a rule excessive rainfalls have been quite the exception and have occurred much less frequently than is usual in July. In this respect the monsoon has had

the same character as in the preceding month.

Strength of the moreon currents.—So far as this can be judged by the strength of the winds at the coast stations, it would appear that both currents were above their normal strength. This is shown for the Bengal current by the following data:

Branch of Current,	Coast Stations.	Actual Average Daily Velocity July 1689.	Normal Daily Velocity, July,	Variation on Wind Valuetry, July 1884, from Normal.	Variations ex- press d as a percentage,

JOHN ELIOT,

SIMLA, 26th August, 1889.

Meteorological Reporter to the Government of India.

E. C. BUCK, Secretary to the Government of India.

GOVERNMENT OF INDIA.

REVENUE AND AGRICULTURAL DEPARTMENT.

Weather Review of India for the week ending at 8 a.m. on Monday, August 26th, 1889.

The weather over the Peninsula during the past week has been of the normal monsoon character; but Northern and Central India have been under the influence of two slowly travelling vortices, and the weather there has varied between very wet during the presence of the depressions to fair and showery when the disturbances were filling up. The depression in the early days of the week was the same as that noticed at the conclusion of the previous summary. This disturbance filled up on the 21st, and on the 22nd a new one was shown over Bengal. The second disturbance, which during its whole existence was very slight, drifted slowly westward, and on the 26th the centre was near Saugor. The Bay monsoon has been much interrupted during the week and on several days has been largely deflected from its normal direction.

The Chart of the 20th showed that the storm, which during the preceding week had advanced west-north-westward from the Bay, had its centre near Ihansi, where there was an abnormal depression of the barometer of nearly 1/6 of an inch. A well marked cyclonic circulation existed around the storm centre, and the winds were rather strong and squally. In Bengal the winds were variable, with a cyclonic tendency, while elsewhere the normal monsoon circulation prevailed. On the 21st the storm near Jhansi had almost filled up, while the tendency towards the formation of a depression over Bengal had increased. The winds were westerly at the head of the Bay, and light and variable in Bengal. The cyclonic circulation near Jhansi had almost disappeared, and the directions generally were fairly normal. On the 22nd a distinct but very feeble disturbance overlay Bengal, and there were still slight signs of a depression over Rajputana. Gradients were moderately steep, and a strong monsoon from the Arabian Sea was blowing across the West Coasts and passing over the Peninsula and into the central parts of the country. In Bengal and up the north side of the Gangetic plain the wind was easterly. The Chart of the 23rd showed that the depression over Bengal had enlarged and moved slightly westward or west-south-westward. Readings were uniform over Northern India, but over the Peninsula and the central parts of the country moderate gradients still existed, and the monsoon winds on the West Coast and across the Peninsula were strong. On the morning of the 24th a moderate to brisk rise of the barometer was reported from the foot of the hills in Bengal and the North-Western Provinces, and the Bengal depression had moved southward and lay over Orissa and the east of the Central Provinces. Gradients were rather steep on its southern and western sides, and a well marked cyclonic circulation existed around the depression. The winds were light in the northern quadrants and rather strong in the southern. The monsoon had fallen a little lighter on the Western Coast, but was still above the normal strength. In the Punjab calins and variable airs prevailed. On the 25th there was very little change. Uniform pressures with light easterly winds prevailed over Northern India; the depression with its cyclonic circulation of winds over Orissa and the west of the Central Provinces; and fairly steep gradients and a

strongish monsoon over the West Coast. The Chart of the 26th showed that the depression had suddenly advanced westward, and the centre at 8 A.M. lay near Saugor. The circulation around the depression was feeble and irregular and was complicated by the presence of a very small independent disturbance over the north-west corner of the Bay. The wind was northerly at Saugor Island and Balasore, but with this exception the regular monsoon circulation prevailed th oughout India. On the West Coast the force of the wind had still further decreased.

Temperature.—The net result for the week of the daily variations of temperature from the normal exhibits very small departures in all Provinces. Bengal, the North-Western Provinces, the Punjab, and Bombay show an excess of about \$\frac{1}{2}^{\circ}\$ each, while the other Provinces show a deficiency ranging from \$1.7^{\circ}\$ in the Central Provinces to only \$\circ^2\$ in Madras. In Bombay the weather was warmer than usual practically throughout the week, and in the Central Provinces, Central India, Guzerat, Sind, and Rajputana it was, on the contrary, colder than usual throughout. In the other Provinces the temperature was on the whole low during the first three and high during the remaining four days. The maxima—more particularly over the central parts of the country and the Punjab—have been remarkably low during the week, the deficiency on some days ranging from 7° to 10°. The night temperatures, on, the contrary, have been on the whole higher than usual—a sign of great general cloudiness of the sky.

The following table shows the excess or defect of the mean average temperature of the different Provinces for the present and for the preseding week:

19	ROVING	ES.						Temperature of their Temperature of fact Work from Normali	Difference of Mean Ten penature of present Week from Normal.
Burmah				•		•		+ 0.1 _e	o.8°
Bengal		•						4 0.00	+ 0.2°
North-West	rn Pr	ocine	es		•		•	— o 3°	+ 0.30
Punjah								— 1.4°	+ 0.00
Bombay				•			•	+ 03°	·+ 0.00
Central Prov	vinces	and	Berar					— 1.9°	<u></u> r·1°
Guzerat and	Centr	al In	dia		•		•	1·2°	— v.9°
Sind and Ra	jputai	na.		•	•	•		+ °'5°	— o.ð.
Madras						•		•	- 0.5 _o

This table shows that, beyond an increase of temperature in the Punjab, there has been very little change relatively to the average.

Rain.—As noted above, the Bay monsoon has again been much interrupted and deflected, and as a consequence the heavy rainfull of last week over Northern India has not been maintained, notwithstanding the influence of the two depressions noticed earlier in this summary. The Arabian Sea monsoon has continued to exceed the normal strength, and the regions under the influence of this current, including the greater part of the Punjab, have received ample rain.

The following is a brief description of the daily distribution of rain:

On the 20th rain was falling in all parts of the Indian region, except the Bombay Deccan, Guzerat, the western desert, and the cost of the North-Western Provinces. The amounts were not large, except in Arakan and in the immediate neighbourhood of the depression. On the 21st the Central Provinces

were also without rain. On the 22nd the Deccan, Guzerat, and the Western desert were the only dry regions. A few large falls were reported, but as a rule the rainfall had been moderate and of uniform amount. On the 23rd rain ceased over the greater part of the Punjab and the west of the North-Western Provinces, but there was no other change. On the 24th the weather was fair over by far the greater part of Northern India, the only rain reported there being a few showers over and near the hills. Elsewhere rain was general. Similar conditions prevailed on the 25th, but on the 26th rain suddenly extended north-westward and ran up the foot of the hills as far as Peshawar.

The rainfall table at the close of the summary shows that twenty-eight divisions have received more than the average amount and that twenty-two Burma has received excessive rain, more particularly in have received less. Tenasserim and Arakan, where the week's fall is between two and three times the average. In Bengal and Assam on the contrary, with the exception of Orissa and Chota Nagpur, the week's rainfall has been deficient—largely so in Bengal North and rather largely so generally. The North-Western Provinces and Oudh, with the single exception of the western district, has participated in this deficiency; but the Punjab, where the influence of the Arabian Sea current is felt, has had slightly excessive rain in all places, except the hill districts. The West Coast districts have received considerably more than the average amount; but inland in Mysore, the Deccan, and Khandeish the rainfall has been defective. The Central Provinces and Berar have had more than usual; but in Guzerat, Kathiawar, and Sind the rainfall has been largely deficient. Central India and Rajputana, like the Central Provinces, have had ample rain; and in Madras, with the exception of the extreme north and extreme south, the rainfall has also slightly exceeded the normal.

The maximum falls in Burma have been large. In Temasserim all the stations record between 15 and 16 inches; in Deltric Burma falls between 13 and 15 inches are reported, and at Kyaukpyu in Upper Burma 19\(^3\) inches has been received. In Arakan the amounts are equally large, Maungdaw (Akyab) having received 16 inches and Sandaway 24\(^3\) inches during the week. Emering Bengal the falls instantly decrease, and at Cherrapunji (Assam, Surma) the total amount during the week was only 7 inches. In the North-Western Provinces the heaviest amount was 9\(^3\) inches at Dehra Dun; and in the Punjab 9\(^3\) inches at Kangra. In the West Coast districts the falls were in no way remarkable, but in the central parts of the country some large amounts were registered. Jubbulpore received 9\(^3\) inches, Mungeli (Bilaspur) 10\(^3\) inches, Kurwai (Bhopal) 19\(^3\) inches, and Kerowli 10 inches. In Madras there were several falls of over 3 inches.

The concluding column of the table giving the state of the seasonal rainfall shows that no practical change has occurred during the past week, notwithstanding the shortness of the fall in Bengal and the North-Western Provinces, &c.

W. L. DALLAS,

Assistant Meteorological-Reporter to the Government of India.

E. C. BUCK,

Secretary to the Government of India.

C

SIMLA, 29!h August, 1889.

GOVERNMENT OF INDIA.

REVENUE AND AGRICULTURAL DEPARTMENT.

Weekly Report on the State of the Season and Prospects of the Crops.

Madras.—For week ending 24th August.—Rainfall general; good in most districts. Crops generally good, but withering in parts of Anantapur, Coimbatore, and Nilgiris, and suffering from want of rain or water in parts of Bellary, Trichinopoly, and Tinnevelly. Prices generally falling or stationary. Labourers employed on last day of week,—on Rushikulya works, 3,796; Gopalpore Canal, 677; Ghat Roads, 3,380; other minor works, 2,734. Number on village relief on 17th August, 54,947, including 33,859 children; fed in kitchens, 10,498, including 7,093 children. Imports during week by sea and land, 586 tons. General prospects favourable and continue to improve in Ganjam.

Bombay.-For week ending 28th Angust.-Rain during week general; more rain needed throughout Nasik and in parts of Surat, Khandesh, Poona, Ahmednagar, Sholapur, Satara, Bijapur, Belgaum, and Dharwar. Young crops damaged by floods in parts of Karachi; by wind, rain, and breaches in canals in parts of Hyderabad; and by grasshoppers in parts of Alimedabad; also suffering for want of rain in parts of Poona, Ahmednagar, Bijapur, Belgaum, and Dharwar. Standing crops otherwise good, except in two talukas of Khandesh. Rubi sowing retarded for want of sufficient rain in parts of Poona, Bijapur, and Dharwar. Preparations for late crops progressing in parts of Hyderabad, Sholapur, and Kathiawar. Fodder searce in parts of Nasik, Poona, Ahmednagar, Satara, Belgaum, and Dharwar. Drinking-water scarce in parts of Ahmednagar and Dharwar. Prices rising in one taluka of Nasik.

Bengal.-For week ending 27th August.-Good and general rain during the week, except in parts of Behar and North Bengal, where very light and local showers are reported. Transplanting of winter rice is being proceeded with, but more rain is still wanted in places in Western Bengal and Behar. In Balasore the rainfall is still very deficient in the Sadr sub-division, where the prospects of the crops are said to be unsatisfactory. Early rice and jute harvests are progressing. These crops have suffered from floods in Rajshahye, Rungpore, Bogra, Pubna, Dacca, and Fureedpore. In Behar the bhadoi crops are promising, except in the inundated places. Prospects of both biadoi and rice crops in the distressed tracts in the Durbhanga and Muzaffarpur districts are good. Much distress prevails owing to floods in the Sadr sub-division of the Muzaffarpur district, and relief is being given there in the shape of charity and loans. In Chumparun advances are being made to the cultivators whose crops have been destroyed by floods. In this district the number of persons daily receiving gratuitous relief at both Government and private expense averages over 1,500. In the north of Bhagalpur 34! persons are employed on two relief works. Foodstocks are sufficient, and prices are almost stationary throughout the affected area in the Patna division.

North-Western Provinces and Oudh. - For week ending 28th August .-The weather continues favourable, and the kharif crops are doing well. Some damage caused to crops on low-lying land by floods in Benares and Ballia. Ploughing for the rabi has commenced. Markets are well supplied and prices generally are steady, but a fall is reported from several districts.

Punjab .- For week ending 28th August .- Rain in all districts, except Peshawar and Sialkot. Prices stationary, except in Rawalpindi and Shahpur where they are rising, and in Delhi where they are falling. Kharif sowings nearly over. Weeding commenced in Jullundur. Crops in good condition and improved by recent rain. Prospects also good. Stock cattle are reported healthy. Fodder sufficient throughout the Province.

Central Provinces.—For week ending 28th August.—Agricultural operations retarded in Saugor by excessive rain. The rainfall continues deficient in the northern portion of Jubbulpore, but elsewhere a break would be beneficial. The rice crops are suffering to some extent from insects in the Raipur and Bilaspur districts. Crops are thriving, and prospects generally are very favourable. Prices steady.

Burma.—For week ending 24th August.—Heavy rainfall throughout Lower Burma, and the crops, though backward in places, promise well generally. There has been a considerable improvement in Tounghoo and Prome. In Bassein, owing to the embankment having burst, the greater part of the crop in one circle has been destroyed, and in Tharrawaddy also some damage has resulted from floods. In Upper Burma there was a fair rainfall in Bhamo, Kathe, Ruby Mines, Shwebo, Yeu, Upper Chindwin, Myingyan, Yamethin, and Pyinmana districts; elsewhere the rainfall was light or there was none at all. Agricultural operations generally are progressing favourably, but more rain is wanted in Sagaing, Myingyan, Minbu, Meiktila, and Yamethin districts. Except in these districts and in Bhamo, where damage has been caused by insects, the crop prospect is fair. Fluctuations in the prices of foodgrains are slight.

Assam.—For week ending 29th August.—Heavy rain in Nowgong; elsewhere the fall has been scanty. Harvesting of summer and transplanting of winter rice continues. Tea blight still continues in Cachar and in Lakhimpur. The weather has been cold and damp for tea.

Mysore and Coorg.—For week ending 28th August.—Rainfall good in the Bangalore and Shimoga districts of Mysore and fair elsewhere. Standing crops good all round, excepting parts of Hissar, where rain is needed. No material change in prices.

Good rain in Coorg. Season favourable. Crops doing well.

Berar and Hyderabad.—For week ending 28th August.—Average rainfall fair. Cotton and jowari in good condition. Weeding continues. Agricultural stock good. Prices of foodgrains stationary. Fodder sufficient, except in Chikhli and Mehkar talukas, Buldana district.

Rainfall during week at Hyderabad, 1'45; total since 1st January, 20'36. Weeding of kharif and rabi crops continues. Water in tanks and wells still insufficient. Prices stationary.

Central India.—For week ending 28th August.—Rain throughout Central India during the week. A break would be beneficial in Western Malwa, Bhopawar, Goona, and Neemuch, where crops are being damaged from excessive rain. Condition of crops and pasturage improved in Bundelkhand. No other changes of importance.

Rajputana.—For week ending 28th August.—Heavy rain in Abu, Kotah, Harowti, and Kerowlee; slight in Sirohi, Kherwara, and Meywar; moderate elsewhere. Agricultural operations and standing crops satisfactory. Agricultural stock good. Pasturage or fodder sufficient. Prices steady generally.

Nepal.—For week ending 22nd August.—Seasonable rain. Autumn rice in ear; will ripen shortly. Prospects good.

E. C. BUCK, Secretary to the Government of India.

SENATE HOUSE, The 30th August, 1889.

CALCUTTA UNIVERSITY.

NOTICE.

The Senate will proceed, in the month of March, 1890, to the election of a Tagore Professor of Law for the term of one year to commence on the 1st of November, 1890.

The salary of the Professorship is R10,000 per annum, and the Professor will be expected to deliver a course of not less than twelve lectures upon one of the following subjects:—

- (1) The Law relating to Damages.
- (2) The Law of Estoppel in British India.
- (3) The Mahomedan Law relating to Marriage, Dower, Divorce, Legitimacy and Guardianship of Minors according to the Sunnis.
- (4) The Mahomedan Law relating to Marriage, Dower, Divorce, Legitimacy and Guardianship of Minors according to the Shiahs.
- (5) The Hindu Law of Endowments.

Candidates for the Professorship are requested to forward their applications to the

Registrar on or before the 1st of January, 1890, and at the same time to state on which of the abovementioned five subjects they are prepared to lecture.

F. J. ROWE, Offg. Registrar.

SENATE House, The 30th August, 1889.

TREASURE TROVE.

NOTICE.

It is hereby notified, under Section 5 of the Indian Treasure Trove Act, VI of 1878, that on the 10th of July, 1889, treasure consisting of rupees 396 in cash and one Botka rupee worth about annas 12 (total R396-12), was found by Aba bin Appaji Waikar, and Bapuji Ramchandra Paradkar, in an earthen jar while digging earth near Vittioba's temple opposite to the Chowdi of Puripri Sandas, Taluka Haveli, Poona District.

All persons claiming the said treasure are hereby required to appear personally or by agent before the Mamlatdar of Haveli, in his kacheri, at Poona, on the 11th of January, 1890. in view to the matter being enquired into and determined according to the provisions of the said Act.

W. A. EAST, Collector of Poona.

FOONA, Tha 21st August, 1889.

NOTICE.

It is hereby notified under Section 5 of the Indian Treasure Trove Act, VI of 1878, that on or about the 20th May, 1889, the undermentioned articles, valued at R220, were found by a woman

named Pudiaval, wife of Rama Muppan, buriedin the cattle-stand Puramboke field which lies. to the west of a road in Sevagurunadhapuram village site attached to the Surandai Zemin, and which belongs to Iruthalaya Maruthappa, Thevar, Zemindar of Oothamalai, Tenkasi Taluk, Tinnevelly District, in the Presidency of Mad-

Description of articles.

Approximate value.

R a, p. 5 gold rings, 2 gold tubes, and 6 small gold pieces, all weighing 31% kalanjis 220 0 0 (local measure)

All persons claiming the said treasure, or any part thereof, are hereby required to appear personally or by duly authorized agent, before the Collector of Tinnevelly, at his office, at Tinnevelly, on the 5th day of February, 1890, in order to the matter being enquired into and determined in accordance with the provisions of the Act.

F. A. NICHOLSON, Acting Collector of Tinnevelly.

THE INDIAN LAW REPORTS.

THE INDIAN LAW REPORTS.

PUBLISHED UNDER AUTHORITY.

The Indian Law Reports, published under the authority of the Governor-General in Council, appear in monthly parts, published as soon as possible after the first of each month, at Calcutta, Madras, Bombay, and Allahabad, and comprise lour series,—one for the Calcutta High Court, as second for the Madras High Court, at third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat, and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Hombay, and Allahabad, respectively.

In supersession of the previous advertisements, on and Irom the 1st January, 1889, the terms of subscription and sale will be as follows for current issues as well as for back numbers of the Reports from 1870:—

Terms of subscription payable annually in advance.

The Gazette of India.

PUBLISHED BY AUTHORITY.

CALCUTTA, SATURDAY, AUGUST 31, 1889.

Separate paging is given to this Part in order that it may be filed as a separate compilation.

PART III.

Advertisements and Notices by Private Individuals and Corporations.

PROMISSORY NOTES.

Lost.

The Government Promissory new Note No. 188719, of the 4 per cent. loan of 1842-43, for R1,000, originally standing in the name of Asutosh Ghosh, the proprietor, by whom it was never endorsed to any other person. Payment

of the above note and the interest thereupon have been stopped at the Public Debt Office, Bank of Bengal, and application is about to be made for the issue of a duplicate in favour of the proprietor.

ASUTOSH GHOSH, 33, Roja Navakrishna's Street, Calcutta.

SUPPLEMENT

The Gazette of India.

No. 31.}

CALCUTTA, SATURDAY, AUGUST 3, 1889.

OFFICIAL PAPERS.

A Supplement to the Gazette of india may deem to or of interest to time, containing such Official Papers and information as the Government of India may deem to or of interest to the Public, and such as may usefully be made known. The Debates of the Legislative Council of His Ricellency the Governor General will in future be published in Part VI of the Gazette.

Non-Subscribers to the Gazette may receive the Supplement separately on a payment of five Rupees per annum if delivered in Calcutta, or eight Rupees if sent by Post. The Supplement and Part VI of the Gazette can also be subscribed for separately on a payment of Rupees six per annum if delivered in Calcutta or Rupees nine if sent by Post.

No Official Orders or Notifications, the Publication of which in the Gazette of India is required by Low, or which it has been customary to publish in the Calcutta Gazette, will be included in the Supplement. For such Orders and Notifications the body of the Gazette must be looked to.

SUPPLEMENT TO

The Gazette of India.

No. 32.3

CALCUTTA, SATURDAY, AUGUST 10, 1889.

OFFICIAL PAPERS.

A Supplement to the Gazette of India mill be published from time to time, containing such Official Papers and information as the Government of India may deem to be of interest to the Public, and such as may usefully be made known. The Debates of the Legislative Council of His Excellency the Governor General will in future be published in Part VI of the Gazette.

PART VI of the GAZRITE.

Non-Subscribers to the GAZRITE may receive the Supplement reparately on a payment of tive Rupees per annum if delivered in Calcutta, or eight Rupees if sent by Poss. The Supplement and Part VI of the GAZRITE can also be subscribed for reparately in a payment of Rupees six per annum if delivered in Calcutta or Rupees nine if sent by Post.

No Official Orders or Notifications, the Publication of which is the GAZRITE OF UNION is required by Law, or which it has been customary to publish in the Calcutta Gazrite, will be included in the Supplement. For such Orders and Notifications the body of the Gazrite must be looked to.

GOVERNMENT OF INDIA. PUBLIC WORKS DEPARTMENT. RAILWAY TRAFFIC.

GENERAL RULES FOR WORKING INDIAN RAILWAYS.

No. 353 R. T., dated Simla, the 23rd July 1889.

RESOLUTION—By the Government of India, Public Works Department.

Read again-

Section 8 of Act IV (the Indian Railway Act) of 1879.

Public Works Department Notification No. 299, dated 13th September 1880 (publishing the General Rules for all Railways in India) and Public Works Department Circular No. 17 Railway, dated 21st August 1880.

Notification by the Government of India, in the Foreign Department, No. 4587-I., dated 21st October 1887.

Read also-

Letter from the Consulting Engineer to the Government of India for Railways, Central Division, No. 1479-T., dated 4th July 1889, and enclosure.

OBSERVATIONS.—In accordance with the provisions of Section 8 of the Indian Railway Act, IV of 1879, as extended, by the Notification of the Government of India in the Foreign Department read above, to the lands occupied by the Bhopal State Railway in the territories of Her Highness the Begum of Bhopal, the Agent and Chief Engineer of the Indian Midland Railway Company has applied that the General Rules for Indian Railways, which have received the sanction of the Governor General in Council and were published in the Gazette of India, dated 18th September 1880, may be applied to the Bhopal State Railway, now worked by that Company, with the exception of Section XVII, which

refers to the working of a single line of railway on the system termed "Train Despatching" in rule 3 of the said Rules, and of Rules 342 and 343 which he requests may be modified so as to read as follows:—

- "No. 342.—No engine or train shall be moved from any station until the Driver has in his possession a "Line Clear," "Caution Message," or other permission written on the authorised form showing that he can proceed to the next station. The Driver is to receive this written permission from no other person than the Guard of his own train, or from the Station Master, or from one of the Station staff duly authorised for such duty, but on all occasions when the Guard does not personally deliver the permission to the Driver, it must be countersigned by the Guard before delivery to the Driver. The Driver must also receive from the Guard the usual starting signal before moving.
 - When a train is arranged to run through a station without stopping, the written permission to proceed to the next station may be handed to the Driver direct by the Station Master or other authorised person of the Station staff, and a duplicate of it handed to the Guard in the same
- "No. 343.—The Station Master, or other authorised person of the Station staff, is to hand the written permission to the Guard, who must satisfy himself that it is properly filled up and dated, with the time added, and is signed in full and in ink, and that it applies to the particular train or engine for which it is given and received, before handing it to the Driver. The Driver must also satisfy himself on these points before starting.
 - This written permission is never to be given to the Driver until the train is to start; and when waiting to pass another train, it must not be given to the Driver until the whole of such other train has come in and is clear of the points.
 - When a train is not timed to stop at a station, and the written permission is handed both to the Driver and Guard of the train, the Station Master will be held wholly responsible that it applies to the particular train or engine for which it is given, and that it is properly filled up and dated, with the time added, and is signed in full and in ink."

RESOLUTION.—With Rules 342 and 343 altered as proposed, and with the exception of Section XVII which refers to the working of a single line of rail-way on the system termed in Rule 3 of the said Rules "Train Despatching," the Governor General in Council is pleased, under Section 8 of the said Act as so extended, to sanction the application to the Bhopal State Railway of the General Rules for Indian Railways as published in the Gazette of India, dated 18th September 1880.

ORDER.—Ordered that the General Rules, which have been published in the Gazette of India, be further notified to the Railway servants and the public by a copy thereof [with the exception and alterations noted] and of this Resolution being kept open to inspection, free of any charge, in the office of the Station Master of every station on the said Railway.

Ordered also, that this Resolution be communicated to the Consulting Engineer to the Government of India for Railways, Central Division, for information and guidance, with reference to his letter No. 1479-T., dated 4th July 1889; and that it be published in the Gasette of India.

SUPPLEMENT

of India. he Gazette

No. 33.}

SIMLA, SATURDAY, AUGUST 17, 1889.

OFFICIAL PAPERS.

A Supplement to the Gazette of India will be published from time to time, containing such Oficial Papers and information as the Government of India may deem to be of interest to the Public, and such as may ascfully be made known. The Debates of the Legislative Council of this Excellency the Governor-General will in future be published in Part VI. of the Gazette.

Non-Subscribers to the Gazette may receive the Supplement separately on a payment of five Rubers per annum if delivered in Calcutta, or eight Rupers if zent by Post. The Supplement and Part VI. of the Gazette can also be subscribed for separately on a payment of Rupers six per annum if delivered in Calcutta or Rupers nine if sont by Post.

No Official Orders or Notifications, the Publication of which in the Gazette of India is required by Law, or which it has been customary to publish in the Calcutta Gazette, will be included in the Supplement. For such Orders and Notifications the body of the Gazette must be looked to.

GOVERNMENT OF INDIA.

REVENUE AND AGRICULTURAL DEPARTMENT.

Weather Review of India for the week ending at 8 a.m. on Monday, August 12th, 1889.

The weather during the past week has been of the same general character as that which has prevailed since the setting in of the rains, viz., a moderately strong monsoon over the Western and Central districts, a somewhat feeble monsoon over the Bay and Northern India, and a general absence of important cyclonic storms. The net result of these conditions has been a somewhat deficient rainfall throughout the district affected by the Bay monsoon and a slightly excessive rainfall elsewhere.

The chart of the 6th showed a large elongated, but shallow, depression stretching from the north-west of the Bay westward across Orissa and the Circars as far as the east of the Central Provinces, a large low pressure area over the Western desert, and a high pressure area over Malabar, Ceylon, and the south of the Bay. The winds over the greater part of the Bay, Bengal, the North-Western and Central Provinces, and the head of the Peninsula were influenced by the elongated depression noticed above and executed a feeble cyclonic circulation around it, but in all other parts of India the winds blew from the ordinary monsoon directions. The Arabian Sea monsoon current was blowing freshly, but the winds in Northern India were feeble. Between the morning of the 6th and of the 7th the depression had moved westward, and the centre at 8 A.M. on the 7th lay between Seoni and Raipur. Owing to this westerly movement of the storm centre and the consequent change in the centre of circulation of the cyclonic winds, southerly and south-westerly winds had appeared over the Bay; but this was the only important change in the wind directions. The monsoon was blowing more freshly over the Bay, and strongish squally winds were reported from the neighbourhood of the depression. By the morning of

the 8th the depression had largely filled up, but the centre had again moved somewhat to the westward and apparently lay between Seoni and Saugor. A new but very slight disturbance had appeared near Kurrachce, and a small high pressure area had been formed over the west of the North-Western Provinces and the east of the Punjab. The chart of the 9th showed that the depression over the Central Provinces had changed very little as regards position, but that it had developed somewhat in intensity, the lowest reading at the centre being 29 548" as compared with 29 566" on the preceding day. The local depression near Kurrachee and the local high pressure area near Roorkee had alike broken up. The wind circulation was generally similar to that of the previous day, except at the head of the Bay, where variable winds had reappeared, with indications of the formation of a new disturbance off the Orissa Coast. On the 10th the distribution of pressure was such as is characteristic of general monsoon conditions. Readings were highest in Malabar and Ceylon, and relatively high in Burma and Assam; lowest in the Western desert, and relatively low within a belt or trough of low pressure running from the Punjab and Rajputana south-eastward across the Central and North-Western Provinces as far as the Circars and the north-west of the Bay. Within this trough variable winds prevailed—to the north of it, the Bay monsoon; and to the south of it, the Arabian Sea monsoon. The only important change shown on the chart of the 11th was the slight northerly movement of the trough lay further to the north than usual in August, and the monsoon current from the Bay into Northern India was a good deal interrupted.

Temperature has been on the whole high for the time of year, except in Madras and the Central Provinces, where heavy rain and much cloud has reduced the heat. In Bengal and the North-Western Provinces, where the rainfall on the contrary was light, the mean temperature exceeded the normal on every day of the week. The warmest days occurred in the early part of the week. On the 6th the mean temperature of the Punjab, Sind, and Rajputana was 3° above the normal; and on the 7th it was 3½° in the North-Western Provinces, 4° in the Punjab, and 4½° in Sind and Rajputana above the normal. Maxima considerably exceeding 100° were reported from nearly all stations in the Punjab and Sind in the early part of the week; but on the 9th and 10th a considerable fall occurred, and on the 12th the highest reading was 96'3° at Ludhiana and Multan.

The following table shows the excess or defect of the mean average temperatures of the different Provinces for the present and for the preceding week:

PROVINCES.						Dulerence of Mean Temperature of Last Week from Normal.	Difference of Mean Temperature of present Week from Normal.
Burmah		•	•			+ 1.2°	+ 0.00
Bengal			•	•		+ 0.00	+ 1.20
North-Western Provinces	i					- 1.3°	+ 2.20
Punjab	•					+ 0.40	+ 1.10
Bombay						+ 1.85	+ 0.7°
Central Provinces and Be	rar		•			+ 18°	- 0.0°
Guzerat and Central India	1					+ 1.70	+ 0.50
Sind and Rajputana.				•		+ 2.9°	+ 1.50
Madras	•	•	•	•	•	- o.5°	- 0.1 _o

This table shows that, relatively to the average, the present week has been slightly in Bengal and the Punjab and considerably in the North-Western Provinces warmer than the preceding week, but that elsewhere the weather has been cooler.

Rain.—As mentioned in preceding sections, strongly marked monsoon conditions have prevailed over India during the past week, and rain has fallen in all divisions of India. The rainfall has generally occurred in steady moderate falls on each day of the week and, with few exceptions, there have been no very heavy downpours. In Northern India—more particularly in Behar and the North-Western Provinces—the rainfall has been slighter than elsewhere, and the weather, there has been showery with fair intervals.

The following is a brief description of the daily distribution of rainfall:

On the 6th the Punjab, Sind, and the greater part of Rajputana were without rain, and Western Bengal and the North-Western Provinces had only scattered showers. Elsewhere rain was general. On the 7th the only change was that a little more rain was reported from Rajputana. On the 8th there was a very heavy fall of rain at Mussoorie and Roorkee, and slight rain along the foot of the hills in the Punjab, as well as at Kurrachee and Hyderabad in Lower Sind. In the Central parts of the country some heavyish falls were experienced. In Western Bengal and the North-Western Provinces the weather remained fair, with a few showers, and elsewhere there was no change. On the 9th the only change was the more general rain over the Punjab and Sind. On the 10th, 11th, and 12th rain practically fell in all parts of India,—heavily at the hill stations, and moderately elsewhere.

The table at the close of the Summary shows that at twenty-nine divisions the rainfall of the week was deficient; that at twenty-one it was excessive; and that at two no comparison is possible. Roughly divided, those divisions which receive their rainfall from the Bay of Bengal current have received short rains, and those which receive their rainfall from the Arabian Sea monsoon have received excessive The whole of Burma, the whole of Bengal except Orissa, and the whole of the North-Western Provinces have had deficient rainfall. The Punjab, which has been more or less influenced by both branches of the monsoon, has received more favourable rains than other parts of Northern India, four of the divisions reporting an excess and only two a deficiency. In the Hill districts the rainfall is about half the normal average amount. The Western districts of the Peninsula had more than the average rainfall; but Mysore and the Bombay Decean had rather less than usual. The Central divisions of the country, including Khandeish, Berar, the Central Provinces, Central India, and Rajputana, all received considerably more than the normal fall during the week. Guzerat and Kattiawar participated in this excess; but in Sind the rainfall was slightly short. In the Madras divisions the East Coast North and Hyderabad South received somewhat heavier rains than usual; but all the other divisions report a deficiency.

The maximum falls all over Northern India are quite unimportant. Cherrapunji received only 5.7 inches of rain during the week—a striking example of the weakness of the Bay current. In the west of the Peninsula the maximum falls were larger, one or two places recording total falls of from 10 to 15 inches; but even here they are the exception. In the Central parts of the country the average of the maxima is higher, but the falls are in no way remarkable.

The final column of the table shows the state of the seasonal rainfall. In Burma and East Bengal there is a deficiency; in Assam an excess; and in the other divisions in Bengal about an average fall. The east of the North-Western Provinces and the submontane district show an excess; but the Western districts and also the whole of the Punjab report deficient rains. In the Peninsula, the Konkan and Madras (South Central) districts are in excess of the average; but the other districts in the west and centre exhibit a deficiency, while on the East Coast again there is an excess. In the Central parts of India, including Kattiawar and Guzerat, the seasonal rainfall is above the average; but in Sind there is a considerable deficiency.

W. L. DALLAS,

Simla, 15th August, 1889.

Assistant Meteorological Reporter to the Government of India.

E. C. BUCK,

Secretary to the Government of India.

GOVERNMENT OF INDIA.

REVENUE AND AGRICULTURAL DEPARTMENT,

Weekly Report on the State of the Season and Prospects of the Crops.

Madras.—For week ending 10th Angust.—Rainfall general; good in Ganjam, Vizagapatam, Godavari, Kistna, South Arcot, Tanjore, Nilgiris, South Canara, and Malabar. Crops generally good, but damaged by excessive rain in Vizagapatam and Godavari; affected by insects in parts of Anantapur, Coimbatore, and South Canara, and withering in parts of Tinnevelly. Prices falling in many districts. Labourers employed on last day of week,—on Rushikulya works, 2,747; Gopalpore Canal, 1,183; Ghat Roads, 1,837; drinking-water tanks and wells, 1,905; minor irrigation and other works, 1,089. Returns incomplete. Number on village relief on 3rd August, 93.561; fed in kitchens, 10,163; total, 1,03.724—of whom, 56,358 were children and 32,477 were women. Imports during week by sea and land, 834 tons. General prospects favourable and greatly improved in Ganjam.

Bombay.—For week ending 14th August.—Rain during week general; more wanted in parts of Surat, Khandesh, Nasik, Poona, Ahmednagar, Satara, Belgaum, and Dharwar. Young crops suffering for want of moisture in parts of Shikarpur, Ahmednagar, Satara, and Belgaum; damaged by breaches in canals in parts of Hyderabad and by grasshoppers in parts of Ahmedabad. Standing crops otherwise good, except in two talukas of Khandesh. Sowing and transplantation progressing in several districts, but retarded in some for want of sufficient rain. Preparations for late crops progressing in Shelapur. Fodder scarce in parts of Nasik, Poona, Ahmednagar, Belgaum, and Dharwar. Drinking-water scarce in parts of Upper Sind Frontier, Nasik, Ahmednagar, and Dharwar.

Bengal.—For week ending 13th August.—The week has been marked by deficient rainfall, and more rain is wanted in many places and specially in Burdwan and Gya. Transplanting of winter rice is proceeding vigorously where there is sufficient water and has not yet suffered for want of rain anywhere. Early rice, jute, sugarcane, and bhadoi crops are generally doing well. Jute is being cut and steeped. In the affected traces of Behar, bhadoi crops in the low lands of Durbhanga have been injured by floods, but the extent of damage has not yet been ascertained; in Muzaffarpur the damage done by inundation is more extensive in the Sadr Station, but the outturn of bhadoi is expected at over ten annas there. Number of persons receiving gratuatous rehef is increasing. In Chumparun the floods are subsiding rapidty and the surviving crops doing well. Persons receiving gratuitous relief number over 1,000. In Bhagulpore prospects improving, but prices still high, being 12 seers 10 chittacks of rice per rupee. 343 persons employed on two relief works here. In Maldah much damage has been done by immidations; but the price of common rice has fallen. Food stock is sufficient everywhere in the Patna and Bhagulpore divisions. Indigo is doing well. At Contai in Midnapore rice sells at Rs. 2-9-3 per maund. Prices of foodgrains are high at Puri and Khardah; but measures are being taken to provide labour in Chilka tracts and Khurdah. Floods are also reported from Purneah, Bogra, Dacea, and Backergunge.

North-Western Provinces and Oudh.—For week ending 14th August.—The weather generally has been favourable for agricultural operations, and the kharif is thriving, though more rain is wanted in rice-producing districts. Fodder is abundant. Markets fully supplied, and prices show no great variations.

Punjab.—For week ending 14th August.—General rain throughout the Province. Prices rising in Rawalpindi and Shahpur and stationary elsewhere. Ploughings for rahi commenced in Jullundur and Sialkot. Kharif sowings nearly over. Crops are flourishing. Standing crops are said to be in good condition. More rain wanted in Umballa, Lahore, and Shahpur. Stock cattle

are reported healthy, but suffering from insufficiency of fodder in Hissar. Fodder sufficient, except in Hissar.

Central Provinces.—For week ending 14th August.—Rainfall sufficient, except in parts of Jubbulpore. Good rain in Nimar, where there has hitherto been a deficiency. Kharif crops thriving and prospects favourable. Fodder sufficient. Prices steady.

Burma.—For week ending 10th August.—Heavy and seasonable rain fell throughout Lower Burma, except in Prome. More rain is still much wanted in Prome, North Tharrawaddy, and Toungoo. In the other districts agricultural operations progress favourably and standing crops are in good condition. In Upper Burma the rainfall was fair in Mandalay, Sagaing, Minbu, Yamethin, and Pyinmana districts, and light in Myingyan; elsewhere heavy rain fell. More rain is wanted in Myingyan, Minbu, Meiktila, and Pyinmana. Agricultural operations in Upper Burma progress favourably and the crops promise well, except in districts where the want of rain is felt, and in Bhamo and Shwebo, where damage has been done by insects. The price of paddy has again risen in Rangoon, where Rs. 125 was paid for 100 baskets. There was also a rise of 4 per cent. in Prome; 10 per cent. in Henzada; 3 per cent. in Moulmein; 4 per cent. and elsewhere were stationary.

Assam.—For week ending 14th August.—Rainfall varies from 0'25 in Khasi Hills to 7'31 in Sylhet. Reaping of early and transplanting of winter rice continue. Prospects of crops generally good, except in Goalpara, Nowgong, and Garo Hills districts, where some injury has been done by floods. Weather rather wet for tea in the Surma valley.

Mysore and Coorg.—For week ending 14th August.—Rainfall good in parts of the Shimoga and Hassan districts of Mysore and fair elsewhere. Crops good, except in parts of Kolar and Mysore districts, where more rain is wanted. Sowing and harvesting operations still continue in parts. Prices slightly fallen in Bangalore and risen in the Mysore districts.

Heavy rain in Coorg. Season continues favourable for transplanting paddy.

Berar and Hyderabad.—For week ending 14th August.—Rainfall average in Berar. Cotton and jowari crops are in good condition. Weeding operations continue. Prices of foodgrains unchanged. Agricultural stock good. Fodder sufficient.

Good rain in Hyderabad during the week Sowing of abi and weeding of kharif crops still in progress. Water in tanks insufficient for ahi and tabi crops. Prices stationary.

Central India.—For week ending 14th August.—Prospects in Central India, especially in the Bhopawar Agency, are good. Prices of foodgrains in Bundelkhand are falling and prospects of outturn improved. Agricultural operations completed in Goona.

Rajputana.—For week ending 14th August.—Rainfall good throughout the Province heavy in Jhallawar and Abu. Agricultural operations and standing crops satisfactory. Agricultural stock good. Pasturage or fodder sufficient. Prices falling in some places.

Nepal.—For week ending 8th August.—Good rain. Weather fair. Winter rice progressing. Prospect of Indian corn generally good.

E. C. BUCK, Secretary to the Government of India.

GOVERNMENT OF INDIA.

HOME DEPARTMENT.

EXECUTION OF CONTRACTS.

No. 1142-43.

Extract from the Proceedings of the Government of India in the Home Department (Judicial), -under date Simla, the 16th August, 1889.

Read again—

Home Department Resolution No. 1750, dated the 2nd November 1876, on the subject of the execution of minor contracts and deeds on behalf of the Secretary of State for India in Council.

Read-

A letter from the Government of Bengal, No. Pc6, dated 11th July 1889.

RESOLUTION.

In exercise of the power conferred by the thirty-third and thirty-fourth of Victoria, Chapter fifty-nine, section two, the Governor General in Council is pleased to declare, in extension of the orders contained in the Resolution of the and November 1876, that the undermentioned class of contracts referred to in the twenty-second and twenty-third of Victoria, Chapter forty-one, section two, may be executed as follows in the territories under the administration of the Lieutenant-Governor of Bengal:

Contracts for the sup ly of articles procured in the local markets for hospitals, lunatic asylums, &c. By the local Medical Officers in charge of such hospitals, asylums, &c.

ORDER.—Ordered, that this Resolution be communicated to the Government of Bengal for information, and be published in the Supplement to the Gazette of India.

[True Extract.]

A. P. MACDONNELL.

Secretary to the Government of India.

DISCIPLINE AND MORAL TRAINING IN SCHOOLS AND COLLEGES IN INDIA.

Extract from the Proceedings of the Government of India in the Home Department (Education),—under date Simla, the 17th August, 1889.

Home Department letter Nos. 10-382-391, dated 31st December 1887, to all Local Governments and Administrations.

RESOLUTION.

In the letter addressed by the Home Department to Local Governments and Administrations on 31st December 1887, their attention was drawn to the growth of tendencies unfavourable to discipline, and favourable to irreverence, in the rising generation in India; and the Governor General in Council formulated for the consideration of Local Governments and Administrations certain suggestions with the object of counteracting these tendencies. The recommendations related both to schools and colleges. For the former it was suggested—

- (1) that gymnastics and field exercises should be recognized as part of a regular course of school training, and that a system of marks and prizes for efficiency in gymnastics should be introduced;
- (2) that punishments for breaches of discipline should be arranged so as to fall on the offender, and that with this aim the imposition of tasks, deprivation of privileges, a judicious use of the rod in the case of young pupils, and finally expulsion in cases of aggravated and persistent misconduct, are more suitable forms of punishment than fines;
- (3) that good conduct registers should be prescribed, extracts from which should be sent to the parents and guardians of the boy at stated intervals with the definite opinion of the head master on his character and behaviour, and that prizes for good conduct should be awarded at the end of each year;
- (4) that hostels and boarding houses should be established at the larger schools and colleges in large towns and cities for the accommodation of students whose families are not resident in the place where they are being educated;
- (5) that selected boys from the higher classes of schools should be appointed monitors for the purpose of maintaining discipline during, and as far as possible out of, school hours;
- (6) that any boy who through want of diligence and attention to study fails to rise to a certain class by the time he has reached a certain age should be required to leave the school;
- (7) that inter-school rules, defining the conditions under which pupils should be allowed to pass from one school to another, should be extended to all schools aided or supported by public funds, as a condition of the continuance of such aid; and that the Senates of the Universities should be invited to use their influence to procure the adoption of this system in schools and colleges which do not receive aid from Government;
- (8) that the provision of efficient training schools and colleges for teachers should be made a first charge against the educational grant; that the employment of teachers in all schools should be gradually restricted to those who have given satisfaction during a course of training; and that trained head-masters should be introduced from England for definite periods of five to seven years for selected schools; and
- (9) that teaching having a direct bearing upon personal conduct should be more generally resorted to. The Government of India, while admitting that this is provided for in some aided schools by religious instruction, and that even in some State schools religious instruction can under well-recognized restrictions be granted out of school hours, considered that this was not sufficient; and it therefore, in concurrence with the Secretary of State, desired that consideration should be given to the proposal of the Education Commission that an attempt should be made to prepare a moral text-book based on the fundamental principles of natural religion.

In regard to methods for encouraging respect for anthority in colleges, it was pointed out by the Government of India that an improvement in this matter in schools would naturally reproduce itself in colleges, which students would enter with habits formed and characters developed by the wholesome discipline of the schools. The Governor General in Council, however, pressed that an effort should be made to impart moral instruction in colleges, and with a view to

improving the supervision of Principals and Professors over students in colleges, suggested the adoption of the following regulations:

(a) that weekly meetings should be held by the Principal and the Professors to consider questions of discipline;

A separated a separate separated by the separate separated by the separate

- (b) that the Principal should have the power of ordering the expulsion or rustication of a student, and of fining him for disorderly conduct; and
- (c) that every Professor should have the power of suspending a student for a limited period of time, and of fining him without reference to the Principal.
- 2. The Government of India has now been placed in possession of the views of Local Governments and Administrations on the foregoing suggestions. There is substantial agreement both among officials and the representatives of the native community as to the existence of the evils which have been indicated. The tendency towards irreverence and disregard of authority has no doubt gone further in some parts of India than it has in others. But most of the conditions which have favoured its growth in the parts of India where it is most provalent are in a greater or less degree noticeable in other less forward portions of the country; and the Governor General in Council cutertains no doubt that remedies are necessary in those places in which the work is at present one of prevention, as well as in those in which it is one of cure. His Excellency in Council thinks that no profit will result from any further discussion as to how far the present state of things is due to defects in the system of education, and how far to forces either independent of, or antagonistic to, that system. The evil is admitted on all hands; and the problem is to find means by which the method of public instruction may be strengthened and improved so as to combat and overcome it. Holding these views, the Governor General in Council considers it matter for congratulation that Local Governments and Administrations and the representatives of the different native communities in India have generally accepted his suggestions with cordiality, and shown, by the earnest attention which they have devoted to the subject, their determination to remove the defects which have been brought to notice

3. In proposing remedies for the evils admitted to exist, many Local Govern-

The Government of India recognization responsibility to provide, so for as its finance operani, Condities for the education of the people. But in educational as in all other matters it is the policy of the Government of India to avoid entering into computition with provide enterprise; it pleasers the way; had having shown the way; breognize the responsibility to do for the people what the people can, and ought to, do for themselves. When therefore local effort or private enterprise shows itself able and willing to supply the educational wants of the people in may heality, it is the pedgy of Government to retire from the field of direct instruction, and to help by reasonable subventions of money the specialisms of independent institutions. It hader this policy, it is the maintenance of a few school, in which the system of instruction and discipline shall affect a standard for the emulation of private or mach institutions in the origination of private or mach institutions in the expenditure from Provincial revenues on tovernment educational institutions should not ordinarily increase in proportion to the total expenditure, but should rather here is the assurance that the greened abandoned by the Government is occupied by local effect.

ments and Administrations have felt themselves fettered by the want of funds, and their recommendations are consequently in some cases not so far-reaching as they doubtless would have been if firmeial difficulties had not interfered. In the matter of expenditure on public instruction in India the Governor General in Council desires to reaffirm the policy laid down in paragraph 17 of the Home Department Resolution No. 199 of 18th June 1888, reviewing Sir Alfred Croft's Report on Education in India, and in accordance with that policy to state that the recommenda-tions which follow, so far as they involve expenditure, should be carried into effect without imposing any additional burden on Provincial finances. Where the funds necessary for the improvements suggested

cannot be provided from local sources or private benevolence, they should be obtained by an enhancement of fees or by curtailing and readjusting existing expenditure.

4. Proceeding to deal with the suggestions enumerated in paragraph 1, the Governor General in Council observes that in Madras much has been done under the auspices of the Physical Training Association, and measures are under consideration in that Presidency with a view to making it a condition of aid or recognition that the organization of a school satisfies certain prescribed requirements in

regard to a gymnastic course, school drill, and the maintenance of play-grounds. In Bombay a liberal grant-in-aid is to be given to the Bombay Gymnastic Society, which will provide for High schools in that city, while the question of providing for High schools elsewhere in the Presidency is being considered. The Bengal Government engages to provide play-grounds and gynmasia so far as funds admit; and the proposals of the Indian Association that Government should supply gymnastic apparatus to all Government schools, that teachers of athletic sports should be appointed, and that a general competition in athletic sports should be arranged every year in district head-quarters, are receiving consideration at the hands of the Educational authorities. In the North-Western Provinces and Oudh the question of physical education has lately been considered by a Conference of Educational officers; and His Honour the Licutenant-Governor and Chief Commissioner engages to consider with favour any practical suggestions that may be made. In the Punjab it is intended to prescribe gymnastic courses for primary, middle, and high schools, and to permit boys to present themselves an mally for examination in gynmastics, and to receive certificates if successful. Cricket and athletic tournaments, open to Government and aided schools and unaided schools subject to Government inspection, are to be promoted. In the Central Provinces all secondary and many of the primary schools have gynnastic apparatus, and the boys are drilled at all secondary schools. In Burma physical exercise is so congenial to the tastes of the people, that special encouragement is not necessary to stimulate the boys to take part in athletics. In Assam gymnastic apparatus has been provided at most of the High schools; and it is further intended, if funds will admit, to appoint three teachers of gympassics to visit the High schools in rotation, and to give a capitation allowance for proficiency. In the Hyderahad Assigned Districts gymnasia and teachers of gymnastics have been provided in many schools. The information thus summarized gives satisfactory proof that the Local Governments and Administrations appreciate the value of physical exercises, and are ready and willing to encourage them; and it is believed that much can be done in this direction without incurring any large expenditure. As a corollary to the action already undertaken, or about to be undertaken, to promote physical education, a system of marks and prizes, which no doubt will he largely supplied by private liberality, for proficiency in gymnastics and athletic sports, should be everywhere introduced where gymnasia and playgrounds have been attached to the schools; and the Governor General in Council trusts that Local Governments and Administrations will on suitable opportunities endeavour to make arrangements to carry this suggest on into effect.

- 5. In indicating its views on the punishment of breaches of school discipline in paragraph 14 of the letter of 31st December 1887, the Governor General in Council left this question to the judgment and discretion of Local Governments and Administrations. At the same time he drew prominent attention to the suitability of corporal punishment as a punishment for boys who have not reached an age when such punishment becomes inappropriate, and where local sentiment is not very pronounced against it. It appears from the replies now received that corporal punishment is generally recognized as suitable in cases of aggravated misconduct. The prevailing opinion also is strongly against the abolition of the system of fining, which is defended as being helpful towards securing punctual attendance. His Excellency in Council accepts the general opinion on both points, and desires that effect should be given to it. Without desiring-that a code of offences and punishments should be drawn up to which every breach of discipline should be directly reducible, His Excellency in Council considers that punishments in schools and colleges should take such forms as loss of position in the class, impositions, exclusion from lessons, suspension from attendance, money lines, corporal punishment, and, as a final resource, expulsion. It will be for the various Local Governments and Administrations acting through their Educational Departments to lay down for the guidance of masters such rules as may be considered desirable to enforce a discrete use of the different forms of punishment.
- 6. The suggestion for the maintenance of good conduct registers has been generally well received. The Bengal, North-Western Provinces and Oudh, and Central Provinces Governments agree to the introduction of such

registers in the manner proposed in the Home Department circular letter. In Bombay the experiment is to be tried under selected head-masters. In Burma registers are to be opened in all Government schools; in time they may be prescribed in aided schools, but in this Province it seems premature to insist on this at present. In Assam a start has already been made in keeping good conduct registers, in giving prizes for good conduct, and in making every hay appear periodically hefore the head-master; and the system is to be further extended. In the Punjab the authorities are opposed to opening good conduct registers, and to giving prizes for good conduct; but they propose to attain the objects in view by directing that certificates are to be given for good conduct, and that serious cases of had conduct are to be reported to the parent or guardian of the offender. The Government of Madras is adverse to the system on the ground that the moral defects of students and of schoolboys are not such as can be marked by registers of conduct, and deprecates the suggestion that attention should be given to good conduct registers in selecting candidates for the public service on the ground that it would be cruel and unjust to place on permanent record the faults committed in early youth. While admitting that there is force in the last objection, the Governor General in Conneil considers that it may be met by head-masters refusing extracts of the earlier entries in the registers which would produce an unfair impression of the pupil's real character, or adding such remarks as would prevent their having this effect. Generally speaking, extracts from these registers of conduct, although not conclusive as to a boy's conduct except during school hours, will obviously afford more useful information to employers to whom he offers his services than the certificates of character now generally given; and from this point of view they will probably not be without their use to Government officers in selecting candidates for the public service. His Excellency in Council therefore trusts that the Governments of Madras and the Punjab will follow the example of other Provinces by introducing a system of good conduct registers.

7. The advantages of well-conducted boarding houses attached to the higher schools and colleges for students who do not live with relations or friends, at which the example and personal influence of their teachers can be brought to hear upon the students out of school hours, are generally recognized. The obstacle which has generally prevented the extension of the system is the expense which it involves. The Madras Government would be glad to see the experiment fried by private agency, but considers its success too doubtful to justify the expenditure on it of public lands. In Bombay provision will be made at the few Government colleges that exist for the enforcement of stricter discipline and for the residence at or near the college of the Principal or a Professor. The further extension of the residential system will be left to private liberality. The establishment of hostels is an essential part of the educational policy of the Governments of Bengal and Assam, where funds are available; and the public has occasionally contributed towards such foundations. In the North-Western Provinces and Ondh every district school and college has a boarding house attached to it, and they are all full. Sir Auckland Colvin is not in favour of the extension of the system to schools at the head-quarters of tabsils, because he is not satisfied that they would be properly supervised. In the Punjab the boarding house system is very widely extended; and the Lieutonant-Governor contemplates authorizing local hodies to require that outstudents attending a school to which a boarding house is attached should live in it provided there is accommodation, unless they are living with relatives or friends of their parents or guardians and are considered by the head-master to be under healthy influences. In the Central Provinces local bodies will be requested to improve or enlarge existing boarding houses where the accommodation is bad or insufficient. In Berar several boarding houses with accommodation for resident masters have been established, and it is proposed to increase their number. The Governor General in Council recognizes the willingness of Local Governments and Administrations to do what is required in the provision of boarding houses. The State already bears a disproportionate share of the expenditure on high education; and the obligation of providing boarding houses where they do not exist is one which Local Governments and Administrations are naturally loth to accept. It is an appropriate object for private liberality, which should be encouraged to regard it as worthy of its benefactions.

• 8. It was admitted in the Home Department letter of 81st December 1887 that the monitorial system cannot be as effectual an aid to discipline in India, where schools are mostly day schools, as it is in England. At the same time His Excellency in Council helieves that the adoption of rules, such as the Elphinstone High School Rules referred to in paragraph 17 of the letter, will be found productive of advantage. The essence of these rules is the independent power of punishment given to Prefects, which is thus referred to by Mr. Jacob, who introduced the system into the Elphinstone High School:

"It is the delegation of this disciplinary power to the Prefects that emphat"ically marks the trust reposed in them, and brings them, to look upon the
"reputation and prosperity of the school as partly committed to their keeping.
"If you withhold this power, and require the Prefects not to preserve discipline
"but merely to report breaches of it to the masters, you reduce the Prefects to
"the position of mere tale-bearers. Self-government becomes government by
"espionage, and with a decided tendency to develop nothing but ignoble traits
"of character in those who are allowed to play no higher part in it than that
"of menials."

In Bombay the Elphinstone Rules are to be circulated, and an attempt made to introduce the system in High schools generally. In Bengal the monitorial system will be tried in hostels and subsequently extended, if successful. In the North-Western Provinces and Oudh and in Assam it will be tried in selected schools. In the Punjab, the Central Provinces, and Berar the system is recognized already, especially in the Punjab: it is to be extended in the Central Provinces and Berar. On the whole, the Government of India is satisfied with the manner in which Local Governments and Administrations have accepted its suggestion on this matter. Time will show whether the system is well-suited to Indian boys, and with the improvement of the quality of teachers it will be possible to extend it generally, if it is found to succeed in the better schools.

9. On the proposal to enforce the exclusion from school of boys who do not reach a certain class by a certain age the general opinion is, that a rigid application of a rule of this nature would involve the risk of injury to classes of society whose backwardness requires encouragement. The Governor General in Council recognizes the force of this argument; and as he thinks that there is not the same objection to big and small boys being associated together at day schools as there is at boarding schools, His Excedency in Council is content to leave the matter to Local Governments and Administrations, on the understanding that the recommendation in paragraph 18 of the letter of 31st December 1887 will not be lost sight of.

10. The question of inter-school rules is one of great importance in the interests of discipline, and rules on the subject are already in force in nearly every Province. The points which it is essential to secure are, that, without the consent of the Educational authorities, a boy shall not be taken into a school who has been dismissed from another school for misconduct; that failure to pay his school fees in his former school shall debar a boy from admission to another school, except under similar consent of the Educational authorities; and that, if received into another school, a boy shall not be placed in a higher class than the class he was in before leaving the other school, except at the beginning of a new term. The rules on the last point should only be applicable to schools of the same grade; those on the first and second points would be generally applicable to schools of all grades.

The rules in the Madras and Bombay Presidencies are too exclusively directed towards the second of these objects. Those in Bengal and the North-Western Provinces and Ondh seem to give more or less effect to the three essentials; but the point of dismissal for misconduct might be brought into greater prominence even in these Provinces. In the Punjah rules have been prepared which apply to all Government and aided schools; but it is not proposed to ask the University to co-operate on the ground that the number of unaided schools and colleges in the Province is very small. In the Central Provinces there are no inter-school rules at present, and it is proposed to introduce simple rules

to apply to schools in the same town. This limitation, however, seems calculated to diminish the effect of the rules, and should be reconsidered by the Chief Commissioner. The rules in Burma apply to all Government schools and aided schools of the advanced kind. They are defective in that they contain no reference to conduct. Revised rules are being issued in Assam, which, if acted upon by the managers of unaided schools, will go far to meet the objects which the Government of India has in view.

The Governor General in Conneil considers that it is desirable to remodel the rules of other Provinces on the hasis of the rules in force in Bengal and the North-Western Provinces and Oudh (which are printed as an Appendix to this Resolution). The Education Department can enforce such rules in all Government colleges and schools, and their adoption can be made a condition of a grant-in-aid from Government; but it is equally essential that they should be adopted in unaided institutions. The only effectual way of securing this is to invite the co-operation of the University; as has been done in the North-Western Provinces. When the Provincial rules have been revised and determined, the Universities should be invited to assist towards securing their adoption in unaided institutions by denying affiliation to such as do not adopt them; and the Governor General in Council carnestly trusts that, when invited, the Universities will throw the weight of their great influence into the scale of order and discipline.

11. In the opinion of the Governor General in Council the provision of efficient training schools and colleges for teachers is one of the most effective means available to Government for improving discipline and counteracting the tendency to irreverence and contempt of authority; and he has accordingly considered with special attention the opinions which the various local authorities have expressed upon this important subject.

In Madras there are at present arrangements for training in the Government and public normal schools about one-third of the teachers required for colleges and secondary schools and three-quarters of those required for primary education. The quality of the training, however, needs improvement: and this question, as well as that of extending the training system so as to provide teachers for all schools, is engaging the attention of the Madras Government. The University also holds an examination for the degree of Licentiate in teaching. The Bombay Government is ready to provide an adequate supply of training schools for primary institutions, but considers that the cost of training colleges for preparing masters for high and secondary schools would be prohibitive, and that the need for such institutions is not great. It admits, however, that teachers are now appointed to schools without any real knowledge of the art of teaching, and proposes to establish normal classes at the large high schools and to compel candidates for service in the Department to attend them. The Bengal Government, on the ground that the education of teachers is eastly and that the educational grant is insufficient to adequately provide for elementary and technical education, states that there is no present prospect of funds being available for the general introduction of a system of training teachers for their profession in special institutions. His Honour the Lieutenant-Governor believes that training in the art of teaching should be given in addition to, and not as a substitute for, the education of the University; and urges that there is no want of masters trained in the usual English method at the University, and that it is on this ground and on the ground of expense undesirable to import English masters for definite periods. His Honour is prepared, should the Government of India wish it, to start one training school at a cost of about Rs. 10,000 a year for English teachers at high and middle schools. Government or aided. Sir Steuart Bayley also expresses himself in favour of a system of granting certificates in the art of teaching in preference to an extension of normal schools; the possession of such certificates to be made a condition of employment in Government and aided schools. In the North-Western Provinces and Oudh considerable attention has been devoted to the training of masters, and a normal school for teachers in primary and middle institutions is located at the head-quarters of each division. It is found, however, that present arrangements do not adequately provide for the training of masters for the higher

class of schools, and it is proposed to establish a central institution for this purpose. In the Punjab there is a central training college at Lahore for masters in secondary schools. No one can be employed in any board school, whether secondary or primary, who does not hold a teacher's certificate. The amount of grants to aided schools is to a certain extent dependent on their having certificated teachers. In the Central Provinces sufficient provision for training vernacular The Angle-Vernacular teachers are supplied by the teachers is said to exist. The Chief Commissioner is in favour of establishing normal classes for Anglo-Vernacular masters and arranging for examination for certificates in teaching, and he has under consideration suggestions for the improvement of the normal schools at Jabahur and Nagur. In Burma, where education has a strong religious character, adequate arrangements for training masters for primary schools exist; and the Chief Commissioner is working out a scheme for attaching to existing schools departments for the training of middle class teachers. The supply of trained teachers for secondary schools in Assum must be procured by indenting on normal schools in Bengal when established, or by sending teachers from Assam for training in those schools. In Berar arrangements have been made for training teachers for primary schools; but the secondary schools are not numerous enough to justify a special training institution, and masters for these schools are procured from Bombay colleges and high schools.

12. The Governor General in Conneil desires to give emphatic expression to his view, that it is of little use to spend money on schools if the teachers are either inefficient or unable to maintain discipline or a healthy moral tone in their schools. The chief qualifications required in a schoolmaster are capacity to maintain discipline, and capacity to convey instruction. The first of these qualifications implies firmness and ability to govern, the capacity of inspiring cuthusiasm in his pupils and securing their co-operation; and carnestness, sympathy, and insight into character. In the opinion of the Governor General in Council the possession of these qualities cannot be tested merely by an examination such as is suggested by the Government of Bengal. The capacity to convey instruction comes more within the range of an examiner's power to test. But this is the lower of the two sets of qualifications which go to make up the model schoolmaster; and an examination is an admittedly inferior way of ascertaining a teacher's ability to convey instruction, his ability to simplify a subject, or his skill to fix the attention and draw out the intelligence of his class. For these reasons the Governor General in Council considers it impossible to secure good instructors without such a process of selection and preparation as normal school training gives, and is unable to regard the adoption of examination in the art of teaching as an adequate substitute for good normal schools. His Excellency in Council therefore deems it essential that each Local Government should accept the responsibility of providing means for training teachers for each grade of schoolsprimary, middle, and high-as a first charge on the Educational grant. Should any Local Government find itself numble to provide the requisite system of training from the funds already available, it should arrange either to increase its funds from local sources or, following the recommendation of the Education Commission in paragraph 543 of its Report, to throw more largely on private enterprise the duty of providing higher education, and thereby set free the money required for training institutions. The proposal to attach normal classes to the larger High schools, though not as satisfactory as the establishment of training schools themselves, is nevertheless worthy of consideration, if it be arranged that such classes shall be attached to those High schools only which are under the care of specially selected and competent masters. As the number of good teachers educated at training institutions increases, it should gradually be made a condition that no uncertificated teacher should be appointed to a Government aided school or college; and the Universities should be invited to make the employment of certificated teachers in unaided schools and colleges a con-Until the supply of training institutions is fully developed, dition of affiliation. local arrangements should be made whereby provisional certificates of competency to teachers possessing certain educational qualifications may be granted after a sufficient period of probation has been passed, subject to confirmation by the Government Inspector.

13. In the opinion of the Governor General in Council the suggestion (which chiefly affects the larger Provinces) contained in paragraph 11 of the letter of 31st December 1887, that trained head-masters should be engaged from England for a definite period of five to seven years in order to introduce and establish a standard of discipline for the emulation of other schools, is deserving of careful attention. The Madras Government thinks that the teaching staff at colleges should be leavened by a larger proportion of English teachers, who have paid special attention to the art of teaching; and, at its request, the Secretary of State will be invited in selecting graduates for educational appointments in India to insist on their possessing experience in teaching. In the North-Western Provinces and Ondh the question of employing European masters for a few of the leading schools for limited periods is, the Government of India is pleased to learn, The Governor General in Council is convinced of the under consideration. valuable stimulus that the example of good teachers from England would give to schools; and he would be glad if the Bombay, Bengal, and Punjab Governments could see their way to giving the proposal their further consideration.

14. There remains the question of the extension of a system of teaching which has a direct bearing upon personal conduct, and whether an attempt to effect this extension should be made by prescribing moral text-

books for schools and colleges.

Having given this important question its fullest consideration, the Government of India is satisfied that the end in view would not be attained by prescribing for use in colleges and schools a treatise on ethics or a hook of didactic instruction in the rules and principles of conduct. It believes that the careful selection and training of teachers provide the most effectual method of establishing a good moral tone in a school; but it also considers that the influence of the teacher may be greatly strengthened and the interests of morality promated by the use in schools of text-books having a direct bearing on conduct, either by means of precept or example. The Government of India understands that this view has commended itself to the Syndicate of the Calcutta University, under whose anspices Mr. Tawney, Principal of the Presidency College, has been engaged to prepare a book of selections for the use of candidates for matricula-The instructions laid down for Mr. Tawney's guidance in preparing this book are, first, that at least three-fourths of the book shall consist of prose taken from authors of the present century; second, that at least one-half of the prose portion shall consist of extracts having a direct bearing on conduct, either by way of precept or example; and third, that a similar principle shall be as far as possible kept in view in the poetical selections. Thus, the Calcutta University has already taken steps to give effect to what, in the opinion of the Government of India, is the most practical way of introducing moral training into the highest class of Ludian schools, and furnishing teachers with the opportunity of imparting instruction in morality and in the principles of natural religion to their All that remains now to be done, in Bengal at all events, is to supplement this action of the University by providing for the lower grades of schools, and for each class in those grades suitable text-books compiled on similar lines. Similar action in other Provinces is equally called for; and accordingly the Governor General in Council desires that each Local Government and Administration should take this matter at once in hand; and either by the appointment of a Committee or by employing selected individuals, who need not necessarily be officials, or by the offer of suitable prizes, effect a revision of the existing Readers. in the direction indicated above, or where necessary procure for use in schools an entirely new set of books compiled on these principles. His Excellency in Council will be glad to learn from time to time the progress made in each Provinco in this undertaking.

15. The suggestions enumerated in paragraph 1 of this Resolution, for the improvement of discipline in colleges, have received favourable consideration by Lecal Governments and Administrations. In Bombay and the Central Provinces the rule as to weekly meetings of college councils will be adopted. In Bengal and the North-Western Provinces and Ondh the rule is considered unnecessary; and in the Punjab fortnightly meetings have been prescribed. The rule empowering a Principal to expel, rusticate, or fine a scholar is accepted everywhere. The rule giving power to a Professor to suspend a student for a limited time, or to fine him without reference to the Principal, is accepted by Bombay, Bengal, and the Central Provinces.

In the Punjab it is definitely restricted to students of the Professor's own class; and it is understood that this limitation is also contemplated in the three Provinces just mentioned. The Governments of Madras and the North-Western Provinces and Oudh favour the autocracy of the Principal in matters of discipline. The Government of India is content with the measure of acceptance which its suggestions as to colleges have met, and does not wish to press them further on the Governments which have not found themselves able to adopt them.

ORDER.—Ordered, that a copy of the above Resolution he forwarded to all Local Governments and Administrations for information and guidance; and to the Foreign and Public Works Departments for information and such action as may be considered necessary in regard to Educational institutions under the. control of those Departments.

Ordered also, that the Resolution be published in the Supplement to the

Gazette of India.

[True Extract.] A. P. MACDONNELL,

Secretary to the Government of Ludia,

APPENDIX.

Inter-School Rules in force in Rougal and the North-Western Provinces and Oudh.

Bengal.—1.—A boy, before he is admitted to a high school, shall be required to produce a certificate from the head-master of the last school in which he was reading. Whenever possible, a parent or guardisp should accompany the boy; in other cases he should provide the boy with a letter of application.

11.—The certificate shall run as follows:

- class of the --- selvol and leaves with a "CERTIFIED that - - was in the character. All sums due by him to this school have been paid."

III .- The certificate is to be given upon the day in which it is asked for, and it is not

the business of the head-master to inquire why the hoy wishes to leave his school.

IV .- A boy coming for admission shall not be placed in a higher class than that in which he was in the school he has left (no class lower than the tifth being considered); thus, a loy of the fifth class of one school may not be admitted into the fourth class of another school, but a boy of the sixth class may be admitted into the fifth class without an infringement of this

N.B.—To premote a newly-admitted boy, except it be after the regular annual examination of the school, is a breach of this rule. By the "regular annual examination" is to be understood the examination used towards the rules of the school-year, when the Kotrance lests xamination is generally held.

V.—The fact of a boy appearing for admission without having undergone the annual

examination of his old school must be regarded, unless the reverse is certified to by his former head-master, as sufficient evidence of his not having been fit for promotion; he should therefore be admitted into the class in which he had been reading in the other school.

VI.—Every case in which a boy is dismissed or expedict should be notified at once to the

Inspector of Schools

VII.—If a boy's name be struck off for non-payment of dues, he shall not receive a certificate until all sums due to the school have been paid.

VIII .- If a boy leaves the school after having failed at the examination of his class, a note to that effect shall be entered in the certificate granted to him by the head-master.

IX.—All questions arising between one head-master and another respecting the enforcement of these rules shall be referred to the Inspector of Schools with all convenient speed.

X .- If a boy be found producing a false certificate, or making a false statement as to his attendance ut any school, he shall be expelled or, at the discretion of the Inspector, be publiely degraded for that year to the class below that in which he is.

XI.-Wilful transgression of any of the foregoing rules will render a school liable to for-

feit the right to send up candidates for junior scholarships.

North-Western Provinces and Outh .- The rules in force are to the following effect:

That a boy on admission to a secondary English School, Government or aided, shall, except for some sufficient reason to the contrary, remain at the same school till the end of the school year, and that, if obliged to leave within that time, he shall receive a certificate showing what stage of education he has attained, and what character he bore; that if he leaves at the end of the school year, the master shall give him a written certificate showing whether he has passed or failed at the final examination; that the grant of any certificate shall be made conditional on his having paid all sums due by him to the school he is leaving, and that he shall not be admitted to unother school except on the production of one of the above certificates. Ho will not be placed in a higher class in his new, unless he has passed the final examination at his previous school, and will not receive promotion within three months of his admission.

OFFICERS IN CHARGE.

2. Mr. E. Gay was Head Commissioner up to 10th October and again from 29th October to 31st March 1889. Mr. C. R. Kiernander was in charge from 11th to 21st October 1888, and Mr. E. T. Atkinson acted from 22nd to 29th October 1858. The other circle offices were in charge of the officers mentioned below:—

```
Madras . 

Mr. H. F. Clogstoun, from 1st to 10th April 1888.

W. Donald, from 11th to 13th April 1888.

E. W. Kellner , 14th April to 3rd December 1888.

T. W. Rawlins , 4th December 1888 to 31st March 1889.

Mr. A. C. Tupp, from 1st April to 14th May 1888.

S. Jacob , 15th May to 31st March 1889.

Mr. T. H. Biggs, from 1st April 1888 to 18th January 1889, and again from 31st January to 31st March 1889.

F. J. Atkinson, from 19th to 30th January 1859.
```

ACCOUNTS AND AUDIT.

3. The monthly audit of the accounts has been duly reported for each office to the Comptroller General, and special audits have also been made of Rangoon and Allahabad for the year 1888 by the Deputy Auditors General, and Madras for 1886-87 and 1887-88; also Calicut for October 1887 to September 1888 by an Assistant Accountant General.

CIRCULATION.

4. The following figures show the state of the net circulation:

		Gross Circulation.	Retired by other Offices.	Not Circulation.
1st April 1888	•	. 16,78,60,015	36,16,220	16,42,43,795
31st March 1889	•	. 15,99,96,270	26,18,135	15,73,78,135

As explained in previous reports, a note is in "Gross Circulation," when it is not yet returned to the original office of issue; but if it has meantime been paid off by another office of issue, and is held by it pending ecturn to the original office of issue, then it has ceased to be in "Net Circulation," though it is still part of the "Gross Circulation."

5. The details of the net circulation of March 1889 are as follows:-

						Total.							
				5	10	20	50	100	500	1,000	10,000	Pieces.	Value.
Calcutta Allahabad Lahoro Bembay Kurnichoo Madras Calicut Rangoon	•	•	•	99,403 11,508 12,506 212,575 3,416 30,315 9,669 11,571	694,183 35,849	69,858 16,632 25,174 99,235 12,943 31,319 3,740 6,755	11,696 17,102	29,236 79,243 7,118	15,800 2,040 3,541 5,950 681 4,132 716	1,416	498 10 61 1,117 114 61 24 64	2,292,436 88,861 102,852 1,202,588 66,445 311,457 29,095 46,607	6,67,07,091 65,80,956 85,14,536 5,03,27,000 41,18,134 1,71,58,951 11,39,513 28,25,921
TOTAL FOI 1489 Total For					2,782,663	i	183,611	364,318	32,962	40,527	1,949	4,100,335	15,78,78,13
1988 Toral For	: 31s	t Ma	rch	450,727	2,671,031	275,015	194,803	372,933	35,915	41,818	2,297	4,041,569	16,42,43,703
1887	• ~•.	•	-	461,635	2,385,881	262,169	175,084	327,418	31,386	36,051	1,410	3,681,037	13,87,68,365

- 6. It will be observed that there is a decrease in the net circulation during the year of more than 68 lakhs, as explained hereafter in paragraph 11, but it was still higher than in March 1887.
- 7. The average value of each note in circulation on the last day of the year, compared with the past two years, was—

Calcutta Allahabad Lahore Bombay	Circle	•	1886-87, 29 68 65 36	1887-88. 30 93 62 44	74	Kurrachee Madras Calicut Rangoon)) 1)	•	1886-87. 87 68 35	1887-88. 88 61 27	1898-89. 62 55 89
Domoay		•	00	42	42	Rangoon	21	•	74	86	61

- 8. The chief variations are in the Allahabad, Kurrachee and Calicut Sub-Circles, and arise mainly from the Banks holding more or less ten thousand-rupee notes, probably for reserve or remittance.
- 9. The variations in the net circulation of each circle are shown in the following table, omitting 000—

La	LAST DAY OF		Culcutta.	Allaha- bad.	Lahore,	Bombay.	Kurra- chee.	Mudras.	Calicut,	Rangoou.	TOTAL.

10. The figures in the above table include the amounts in the Reserve Treasuries of Government which, so far as they are in notes, are always held in the higher denominations. These balances are excluded from the following table, which gives the monthly circulation in lakks of the Calcutta, Bombay, Madras and other Circles for each of the past three years:—

	CALCUTTA. BONBAY.					. 3	LADRAS	١.	Отне	R Ctro	LLS.		TOTAL.

Average .	557	607	613	376	481	451	142	169	175	258	297	257	1,333	1,554	1,527

11. This table shows a small decrease in the circulation of all circles taken togther, a fluctuation not remarkable when it is considered that a very much larger expansion occurred in the previous year, and that in March 1889 there was a great scarcity of money, the Bank rate of interest being 11 per cent. as against 7 per cent. the previous year, and this drain of the commercial centres to supply the trade demand up country where silver is more used than notes, naturally diminished the circulation of notes. The figures for the past four years have been 1,395, 1,333, 1,554, 1,527. In particular circles there is an increase of 36 in Calcutta and a decrease of 30 in Bombay. Among the smaller circles the only noticeable difference is a decrease of 21 at Rangoon, probably caused by the facilities given by Government bills at low rates for the removal of surplus funds to India in the intervals of trade in Burma. The continued decrease in the circulation of R5 notes in the Calcutta Circle calls for notice. As in the case of R20 notes a few years ago, the cause seems to be the alarm

excited by some forgeries which were sufficiently well executed to deceive careless or illiterate persons, or to pass in the hurry of business if carelessly examined.

12. The following figures show (in lakhs and thousands) the gross circulation in the Presidency Circles of notes not exceeding R100 each :-

						1887-88.	والمراجعة المراجعة ال		1888-89.

March .	•		•	• '	3,52,57	2,27,38	1,38,75	3,64,93	2,14,35	1,32,48

These figures show that the notes of lower denominations maintain on the whole great steadiness in their circulation.

ANALYSIS OF CIRCULATION.

13. The process of verifying the outstanding balance of the circulation with that obtained from the Issue Registers has been carried on satisfactorily. In Madras and in all the smaller and newer circles, the work is practically completed; in Bombay Mr. Groves, Assistant Accountant General, has, with great industry and care, completed the examination of all but the R10 notes; in Calcutta the system of arranging the cancelled notes pursued for many years makes the examination now attempted peculiarly laborious, and this added to the enormous number of entries involved (nearly 47 millions) makes the correction of every clerical error a hopeless task; accordingly, while the accuracy of every posting during the later years has been rigidly tested, it has not been thought worth while to go over the work of the earlier years, as the question is not one of money or account, but merely of accuracy in recording the history of individual notes.

RESERVE.

14. The value held against the net circulation upon 31st March 1889 was as follows:-

SILVER COIN-									
				$I\!\!R$	a.	p.	R	a	p.
At Calentta .	•	•	•	1,46,98,211	7	8			•

15. The half-yearly verifications of the currency balances were held for all Circles and Sub-Circles on the 30th September 1888 and on 31st March 1889, and the balances of the last working day of each half-year were verified in accordance with the orders issued on the subject.

Investments.

16. During the year Government ordered that any stock notes which the holders might tender for payment in cash, should be converted into 4 per cent. loan and be taken over by this Department; to meet this purchase securities to the extent of R5,00,000 were sold, but the stock notes paid off were R3,30,000 only, the difference of R1,70,000 will therefore be re-invested by purchase in the open market in 1889, and the opportunity taken to bring up the amount invested, as closely as possible, to six crores, the limit fixed by law. The balance is now held as follows:—

											R
In	the 4 p	er cei	nt. loan of	1842-43	•	•	•	•	•	•	5,88,07,300
>>	•)	1)	31	1865		•	•	•			30,44,400
,,	41/2	,,	**	1879	•	•	•	•	•	•	5,00,000
											6,23,51,700

Taking the whole investment, the average rate is equal to 95 90 for 4 per cents., and par for 42 per cents.

17. Its book-value, i.e., the actual price at which it was purchased, has been reduced, until the re-investment just mentioned is made, from R5,99,92,500, at which it was taken last year, to R5,98,20,029-0-4, thus—

R a. p. R Nominal Value, 31st March 1889 6,18,51,700 0 0 5,00,000								4%	4%		
Naminal Value 31st March 1889 6 18 51 700 0 0 5 00 000								$I\!\!R$	α,	p.	R

EXPLANATIONS.

- a and d.—These are the ordinary issues and receipts in exchange for other notes or for coin.
- L and c.—These are exchange transactions with Treasuries, as the Agencies do not deal directly with the public, but only enable the Treasuries to do so to a greater extent than would otherwise be the case.
- f.—This figure represents notes cashed at other currency circles from March 16th, 1888, to March 15th, 1889, and returned during the year under report to the circles to which they belong.
- c and g.—These remittances are for the most part payments and receipts of one currency office, in consideration of receipts or payments at another.

							Issue".	Recoipts.

^{29.} The usual statements are attached of whole rupees coined and issued from the Indian Mints during the years 1835 to 1888, and the proportions of each of those annual issues found on examination in every District Treasury of a bag of rupees of the coin ordinarily current in the districts. The difficulty in drawing any detailed conclusions from these statements has been pointed out in previous reports, but they show the very gradual disappearance of old coin from circulation and the equally gradual spread of new coin to take its place.

^{30.} The circumstances of the India Treasuries are exceptional as explained in former reports; but leaving these Treasuries out of consideration, the

figures continue to show that, as might be expected, the percentage of the coin of the later years held in Madras, the Punjab, and in the North-Western Provinces and Oudh is largely below the percentage of the same coin held in Bengal and Bombay, which are nearer to the Mints; while the percentage held in Bengal is largely below that in Bombay, into which Presidency the great bulk of the silver is imported. No new rupees were sent by Government to Burma last year.

Statement of Whole Rupees coined and issued from the Indian Mints, from 1835 to 1888.

FRAUD AND FORGERY.

- 38. It is seldom that a year passes without fraudulent claims to payment of notes, of which the whole or part is alleged to be lost by the claimant. During the past year a case occurred in Calcutta, which is noticeable both from the position of the claimant and from the numerous points decided by the High Court in its judgment on the case. A man forwarded two half-notes for R20 each, with a circumstantial story that he had recently lost the corresponding halves, and he furnished written declarations from two of his friends that they had seen the whole notes in his possession and confirming his claim in detail. On enquiry it appeared that these halves alleged to have been recently lost had really been deposited in the Currency Office for the last seventeen years, their value having been paid to the real owner who had lost the halves now produced.
- 39. The intention was so evidently fraudulent that I directed the prosecution of the persons concerned. All were defended by Counsel and every point urged in their favour, but two of the accused were convicted. The judgment dealt fully with the legal points raised, and has been very useful in suggesting some additional precautions in dealing with these cases. I have circulated copies of the judgment to all Currency Circles.
- 40. The following forgeries of notes came to light in the year under review, and they were all of the Calcutta Circle except one of the Bombay Circle:—
 - Of 5-rupee notes, fifty-five pieces.
 - " 10 " " fifty-nine pieces.
 - ,, 20 ,, three pieces.
- 41. The note of the Bombay Circle was for R10 of the series ... It was received at the railway station and no trace of the utterer was obtainable. The forgeries of notes of the Calcutta Circle consisted entirely of the denominations of R5 and 10, owing, no doubt, to the practice of not keeping any record of the numbers of notes of these denominations making it difficult to trace out the history of such notes, the result being that only one conviction was obtained.
- 42. The five-rupce notes belong to the same set as those which have been uttered since 1883-84, of the $\frac{R}{78}$ series. Of such notes, fifty-five were pre-

sented: twenty-five at Benares, two at Lahore, and four at Bombay; and the total presented from 1883-84 now amounts to one hundred and fifty-one. The only conviction was of two men in January 1888 as mentioned in the last report.

43. The ten-rupee notes were of the series $\frac{R}{77}$ and $\frac{R}{18}$, and belonged to a new set of forgeries, of which fifty-nine notes were presented, viz., eleven at Calcutta, five at Bombay, three at Kurrachee, and forty at various places in the Punjab. A man named Tania Hajam was sentenced, in November 1888, to six years' imprisonment for the issue of the former, and another man named Mohindronath Chatterjee was convicted of issuing the latter, and was sentenced, in July 1888, to six years' imprisonment.

REMITTANCES OF SILVER.

44. The following is the detail of silver remittances:-

				R
•	•	•	•	. 28,29,210 (R8,29,210 of this was shroff-marked coin.)
•	•	•	•	. 26,71,100 (Whole of this amount was shroff-marked and

RECEIPTS AND EXPENDITURE.

50. The receipts and expenditure of the department are shown in detail in Statement No. III. The final disbursements of 1887-88 were less by R8,225-5-9 as compared with the approximate figures given in last year's report as per details given at foot of the above statement. The expenditure in 1888-89 was less than in the former year by R35,469, owing, mainly, to a smaller quantity of note forms having been received from England.

General Remarks.

51. Several changes in the method of procedure in the Currency Offices have been introduced during the course of the year, and under the able superintendence of Mr. Kiernander, whose wide experience of the offices in all parts of India was most useful, a Currency Office Code, with a set of standard forms, has been issued and brought into operation with a view to ensure uniformity of practice in all the offices, and to prevent frauds of the kind mentioned in paragraph 39 of the last report in connection with lost and imperfect notes and other valuables. Mr. Groves has also done good service in examining the Issue Registers at Bombay as mentioned in paragraph 13.

+ Excess owing to partial supply from the Waghad Tank, § Surplus was derived from pool storage.

Excess got from back water supply.
 Excess got from back water owing to temporary earthen dam raised above the weir.

Acting Superintending Engineer, CD. J. D. CRUICKSHANK, Lient.-Colonel, R.E.,

SUPPLEMENT TO

The Gazette of India.

No. 35.}

CALCUTTA, SATURDAY, AUGUST 31, 1880.

OFFICIAL PAPERS.

A Supplement to the Gazette of India will be published from time to time, containing such Official Papers and information as the Government of India may deem to be of interest to the Public, and such as may usefully be made known. The Depates of the Legislative Council of His Excellency the Governor General will in future be outlined in Part VI of the Gazette.

Non-Subscribers to the Gazette may receive the Supplement separately on a payment of five Rupes per annum if desivered in Calcutta, or eight Rupes is sent by Post. The Supplement and Part VI of the Gazette can also be subscribed for separately on a payment of Rupes six per annum if desivered in Calcutta or Rupes nine if sent by Post.

No Official Orders or Notifications, the Publication of which in the Gazette of India is required by Law, or which it has been customary to publish in the Calcutta Gazette, will be included in the Supplement. For such Orders and Natifications the body of the Gazette must be loaded to.

GOVERNMENT OF INDIA. DEPARTMENT OF FINANCE AND COMMERCE.

RETAIL PRICES FOR THE 1st HALF OF JULY 1889.
